Amendment 31
Bas Eickhout
on behalf of the Verts/ALE Group

Report
Julie Girling
Persistent organic pollutants

Proposal for a regulation
Recital 25

Text proposed by the Commission

(25) The power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission to permit, where appropriate, the manufacture and use of a substance listed in Part A to Annex I or Part A to Annex II to this Regulation as a closed-system site-limited intermediate, to establish concentration limits for a substance for the purposes of Annexes IV and V and to amend the Annexes to this Regulation in order to adapt them to any change to the list of substances set out in the Annexes to the Convention or the Protocol as well as to modify existing entries or provisions in the Annexes to this Regulation in order to adapt them to scientific and technical progress.

Amendment

(25) The power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission to adopt additional measures relating to waste management, to specify the minimum information to be provided by Member States in monitoring the implementation of this Regulation, to permit, where appropriate, manufacture and use of a substance listed in Part A to Annex I or Part A to Annex II to this Regulation as a closed-system site-limited intermediate, to establish concentration limits for a substance for the purposes of Annexes IV and V and to amend the Annexes to this Regulation in order to adapt them to any change to the list of substances set out in the Annexes to the Convention or the Protocol as well as to modify existing entries or provisions in the Annexes to this Regulation in order to adapt them to scientific and technical progress.

Or. en

(Linked to the amendments by the same author to Articles 7(6) and 13(5).)

Justification

The adoption of additional measures relating to waste management and the further specification of minimum information to be provided by Member States in monitoring the...
Implementation of this Regulation should be adopted by delegated acts, as they supplement the basic act.
Amendment 32
Bas Eickhout on behalf of the Verts/ALE Group

Report
Julie Girling
Persistent organic pollutants

Proposal for a regulation
Recital 28

Text proposed by the Commission

(28) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission to adopt additional measures relating to waste management and to specify the minimum information to be provided by Member States in monitoring the implementation of this Regulation. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council\(^\text{29}\).

Or. en

(Linked to the amendments by the same author to Articles 7(6) and 13(5).)

Justification

This issues should be adopted by delegated acts, as they supplement the basic act.
6. The Commission _may, where appropriate, and_ taking into consideration technical developments and relevant international guidelines and decisions and any authorisations granted by a Member State, or by the competent authority designated by that Member State in accordance with paragraph 4 and Annex V, _adopt, by means of implementing acts, additional measures relating to the implementation of this Article_. In particular, the Commission may specify the information to be submitted by Member States in accordance with paragraph 4(b)(iii). _Such measures shall be decided in accordance with the advisory procedure laid down in Article 20(2)._
Proposal for a regulation
Article 13 – paragraph 5

Text proposed by the Commission

5. The Commission may adopt implementing acts further specifying the minimum information to be provided in accordance with paragraph 1, including the definition of indicators, maps and Member State overviews referred to in paragraph 1(f).

Amendment

5. The Commission is empowered to adopt delegated acts in accordance with Article 18 to further specify the minimum information to be provided in accordance with paragraph 1, including the definition of indicators, maps and Member State overviews referred to in paragraph 1(f).

Justification

The adoption of further specifications of the minimum information to be provided for the monitoring of implementation supplements non-essential elements of the basic act and should therefore be adopted by delegated acts. Limiting the empowerment of Article 13(5) to the related format, as adopted by ENVI in AM 21, unduly limits the empowerment of the Commission. It would be disproportionate to require an ordinary legislative procedure for the adoption of such additional specifications.
Amendment 35
