Establishing the space programme of the Union and the European Union Agency for the Space Programme  
(2018/0236(COD))

**Proposal for a regulation****Recital 8***Text proposed by the Commission*

(8) The Programme shares similar objectives with other Union programmes, notably Horizon Europe, InvestEU Fund, **European Defence Fund** and Funds under Regulation (EU) [Common Provisions Regulation]. Therefore, cumulative funding from those programmes should be foreseen, provided they do cover the same cost items, in particular through arrangements for complementary funding from Union programmes where management modalities permit - either in sequence, in an alternating way, or through the combination of funds including for the joint funding of actions, allowing, where possible, innovation partnerships and blending operations. During the implementation of the Programme, the Commission should therefore promote synergies with other related Union programmes which would allow, where possible, use of access to risk finance, innovation partnerships, cumulative or blended funding.
