Paragraph 9

Motion for a resolution

9. Considers that, *within the EU system, greater attention should be paid to the widespread use, and prophylactic use when inappropriate*, of plant protection products *and* the effects thereof on human health, animal health and the environment, as well as to the build-up of resistance in the target organism;

Amendment

9. Considers that the widespread prophylactic use of *synthetic* plant protection products *should be avoided owing to* the effects thereof on human health, animal health and the environment, as well as to the build-up of resistance in the target organism;

Paragraph 80

Motion for a resolution

Amendment

80. Calls on the Commission to strictly limit the use of the confirmatory data procedure to its purpose as laid down in Article 6(f) of the Regulation, namely where new requirements are established during the evaluation process or as a result of new scientific and technical knowledge; considers that the protection of public health and the environment must take the highest priority, while at the same time applicants must be provided with reliable timelines for authorisation; stresses that complete dossiers are essential for active substance approvals; regrets that the derogation by confirmatory data procedure has led to at least two active substances that would otherwise have been restricted remaining on the market for an extended period of time;
