Amendment 299
Tilly Metz
on behalf of the Greens/EFA Group

Report
Ulrike Müller
Common agricultural policy: financing, management and monitoring

Proposal for a regulation
Recital 49

Text proposed by the Commission

(49) The Communication from the Commission on 'The future of food and farming' set out the bolstering of environmental care and climate action and the contributing to the achievement of Union environmental and climate objectives as a strategic orientation of the future CAP. Hence, sharing Land Parcel Identification System and other Integrated Administration and Control System data has become necessary for environmental and climate purposes at national and Union level. Provision should therefore be made for sharing the data collected through the integrated system, which is relevant for environmental and climate purposes, between Member States' public authorities and with the Union institutions and bodies. In order to increase efficiency in using data available to different public authorities for the production of European statistic, it should also be provided that data from the integrated system has to be made available for statistical purposes to bodies which are part of the European Statistical System.

Amendment

(49) The Communications from the Commission on 'The future of food and farming', the 'European Green Deal', the 'Farm to Fork Strategy – for a fair, healthy and environmentally-friendly food system' and the 'EU Biodiversity Strategy for 2030', set out the bolstering of environmental care and climate action and the contributing to the achievement of Union environmental and climate objectives and targets as a strategic orientation of the future CAP. Hence, sharing Land Parcel Identification System and other Integrated Administration and Control System data has become necessary for environmental and climate purposes at national and Union level. Provision should therefore be made for sharing the data collected through the integrated system, which is relevant for environmental and climate purposes, between Member States' public authorities and with the Union institutions and bodies. In order to increase efficiency in using data available to different public authorities for the production of European statistic, it should also be provided that data from the integrated system has to be made available for statistical purposes to bodies which are part of the European Statistical System.

Amendment 303
Tilly Metz
on behalf of the Greens/EFA Group

Report
Ulrike Müller
Common agricultural policy: financing, management and monitoring

Proposal for a regulation
Article 11 – paragraph 2

Text proposed by the Commission

2. The certification body shall have the necessary technical expertise. It shall be operationally independent from the paying agency and the coordinating body concerned as well as from the authority which has accredited that agency and the bodies responsible for the implementation and the monitoring of the CAP.

Amendment

2. The certification body shall have the necessary technical expertise, in terms of both financial management and in relation to assessing the achievement of the intended aims of the interventions and payments rewarding public goods. All data and information used to enable certifying bodies to provide assurance that the objectives and targets of the CAP are indeed being met, as well as those underlying its assumptions made, shall be made available transparently and shall be evidence-based and verifiable by third parties. It shall be operationally independent from the paying agency and the coordinating body concerned as well as from the authority which has accredited that agency and the bodies responsible for the implementation and the monitoring of the CAP.
