Amendment

Article 132 a

Transitional National Aid

1. Member States may continue to grant transitional national aid to farmers in any of the sectors authorised by the Commission in accordance with Article 132(7) or Article 133a(5) of Regulation (EC) No 73/2009 in 2013.

2. The total amount of transitional national aid that may be granted to farmers shall be limited to 50% of each of the sector-specific financial envelopes as authorised by the Commission in accordance with Article 132(7) or Article 133a(5) of Regulation (EC) No 73/2009 in 2013.

3. Member States may decide, on the basis of objective criteria and within the limit set out in paragraph 2, on the amounts of transitional national aid to be granted.

4. Member States may decide to adapt the reference period for the decoupled transitional national aid schemes. The adapted reference period cannot be later than 1 June 2018.

Justification

Transitional National Aid was introduced in 2004 with the aim to support the new EU
Member States and to serve as an additional income support for the most vulnerable sectors and farmers, genuinely in need to supplement their income. TNA is budget neutral for the EU and has a significant social effect in supporting employment in rural areas. TNA will continue to apply during CAP transitional period but small farmers need predictability over the next 7 years. Since MFF cannot guarantee full external convergence of direct payments until 2027, it is crucial to keep TNA at the current levels.
