Common agricultural policy - support for strategic plans to be drawn up by Member States and financed by the EAGF and by the EAFRD (COM(2018)0392 – C8-0248/2018 – 2018/0216(COD))

Proposal for a regulation
Article 106 – paragraph 2

2. The Commission shall assess the proposed CAP Strategic Plans on the basis of the completeness of the plans, the consistency and coherence with the general principles of Union law, with this Regulation and the provisions adopted pursuant to it and with the Horizontal Regulation, their effective contribution to the specific objectives set out in Article 6(1), the impact on the proper functioning of the internal market and distortion of competition, the level of administrative burden on beneficiaries and administration. The assessment shall address, in particular, the adequacy of the strategy of the CAP Strategic Plan, the corresponding specific objectives, targets, interventions and the allocation of budgetary resources to meet the specific CAP Strategic Plan objectives through the proposed set of interventions on the basis of the SWOT analysis and the ex-ante evaluation.

Text proposed by the Commission

2. The Commission shall assess the proposed CAP Strategic Plans on the basis of the completeness of the plans, the consistency and coherence with the general principles of Union law, with this Regulation and the provisions adopted pursuant to it and with the Horizontal Regulation, their effective contribution to the specific objectives set out in Article 6(1), the impact on the proper functioning of the internal market and distortion of competition, the level of administrative burden on beneficiaries and administration. The assessment shall address, in particular, the adequacy of the strategy of the CAP Strategic Plan, the corresponding specific objectives, targets, interventions and the allocation of budgetary resources to meet the specific CAP Strategic Plan objectives through the proposed set of interventions on the basis of the SWOT analysis and the ex-ante evaluation. The assessment should include the objectives of substantial and continuous reduction of the use and the risk of chemical pesticides, antimicrobials, nutrient losses, as well as a substantial increase of land under
organic farming and of land under high diversity landscape features.
