Article 92 – paragraph 1 a (new)

Text proposed by the Commission

1a. The increased ambition with regard to environmental and climate-related objectives will also be quantified by comparing the latest available values of the impact indicators set out in Annex I, and the target values for these indicators that Member States aim to achieve by 2027. Special consideration will be given to achieving the following targets at European Union level:

(a) reduction of 30 % of the greenhouse gas emissions linked to the agricultural sector and its related land-use compared to 2005, as per I.10 of Annex I;

(b) reduction of 50 % of nutrient losses, as per I.15 of Annex I, compared to the latest year for which data is available;

(c) achieving 10 % of UAA covered by high-biodiversity landscape features, as per I.20 of Annex I;

(d) reduction of 50 % of the use of antibiotics in agriculture, as per I.26 of Annex I, compared to the latest year for which data is available;

(e) reduction of 50 % of use risks and impacts of pesticides as per I.27 of Annex
