Proposal for a regulation
Article 129 – paragraph 2

Text proposed by the Commission

2. Data needed for the context and impact indicators shall primarily come from established data sources, such as the Farm Accountancy Data Network and Eurostat. Where data for these indicators are not available or not complete, the gaps shall be addressed in the context of the European Statistical Program established under Regulation (EC) No 223/2009 of the European Parliament and of the Council, the legal framework governing the Farm Accountancy Data Network or through formal agreements with other data providers such as the Joint Research Centre and the European Environment Agency.

Amendment

2. Data needed for the context and impact indicators shall primarily come from established data sources, such as the Farm Accountancy Data Network and Eurostat. Where data for these indicators are not available or not complete, the gaps shall be addressed jointly by the Commission and the Member State in the context of the European Statistical Program established under Regulation (EC) No 223/2009 of the European Parliament and of the Council, the legal framework governing the Farm Accountancy Data Network or through formal agreements with other data providers such as the Joint Research Centre and the European Environment Agency.

Proposal for a regulation
Article 129 – paragraph 3

Text proposed by the Commission
3. Existing administrative registers such as the IACS, LPIS, animal and vineyard registers shall be maintained. The IACS and LPIS shall be further developed to better meet the statistical needs of the CAP. Data from administrative registers shall be used as much as possible for statistical purposes, in cooperation with statistical authorities in Member States and with Eurostat.

Amendment
3. Existing up-to-date administrative registers such as the IACS, LPIS, animal and vineyard registers shall be maintained and reinforced. The IACS and LPIS shall be further developed to better meet the statistical needs of the CAP. By 1 January 2023 at the latest, all Member States shall have in their LPIS an updated layer with full territorial coverage for high-biodiversity landscape elements and features. Data from administrative registers shall be used as much as possible for statistical purposes and to monitor compliance in cooperation with statistical authorities in Member States and with Eurostat.
