Sustainable development

The objectives of the CAP Strategic Plans shall be pursued in line with the principle of sustainable development and with the aim of preserving, protecting and improving the quality of the environment, as set out in Article 11 and Article 191(1) TFEU, taking into account the polluter pays principle. The Member States and the Commission shall ensure that environmental protection requirements, resource efficiency, climate change mitigation and adaptation, biodiversity, disaster resilience, and risk mitigation and prevention are promoted in the preparation and implementation of CAP specific objectives. Interventions shall be planned and carried out in accordance with the principle of policy coherence for development as set out in Article 208 TFEU. This strategic consistency shall be checked by the Commission in line with the procedure outlined in Chapter III of Title V.

Article 9 b

Compliance with the Paris Agreement

1. The objectives of the CAP Strategic Plans shall be pursued in line with the Paris Agreement, and with a view to reaching the global objectives set out in the Paris Agreement and the commitments described in the Union’s and Member States’ Nationally Determined Contributions.

2. The CAP shall aim to reduce greenhouse gas emissions of the agricultural and food sector in the Union by 30% by 2027.

3. Member States shall ensure that their CAP Strategic Plans are in line with already established long-term national targets set out in or deriving from the legislative acts referred to in Annex XI and with the objectives set out in paragraph 2 of this Article.

4. The Commission shall make sure, before approving CAP Strategic Plans, that the combination of all CAP Strategic Plans targets and measures will allow the fulfilment of the climate objectives set out in this Article.

5. In order to maintain a level playing field across the Union, the Commission shall ensure that national climate targets and measures of each Member State are
similar.

Article 10 a

Global dimension of the CAP

1. In accordance with Article 208 TFEU, the Union and Member States shall ensure that development cooperation objectives are taken into account in all CAP interventions, and respect the Right to Food as well as the Right to Development.

2. Member States shall ensure that CAP Strategic Plans contribute to the maximum extent possible to the timely achievement of the goals set in the 2030 Agenda for Sustainable Development, notably SDG 2, SDG 10, SDG 12, and SDG 13, as well as in the Paris Agreement. Therefore, CAP interventions shall:

(i) contribute to developing diversified and sustainable agriculture and resilient agro-ecological practices both in the Union and in partner countries;

(ii) contribute to maintaining the genetic diversity of seeds, cultivated plants, farmed and domesticated animals and their related wild species, in the Union and in partner countries;

(iii) contribute to harnessing the potential of small-scale farmers, small agricultural enterprises, in particular women farmers, indigenous peoples active in agricultural
production and pastoralists, both in the Union and in partner countries;

(iv) contribute to the development of local food systems and domestic and regional markets both in the Union and in partner countries, with the aim of minimising food import dependency and shortening food chains;

(v) end trade practices that distort global trade on agricultural markets;

(vi) fully integrate climate change mitigation and adaptation measures;

(vii) respect the “Climate first, trade second” principle.

3. The compliance of the CAP with Policy Coherence for Development shall be assessed on a regular basis, inter alia using data from the monitoring mechanism set out in Article 119a. The Commission shall report to the Council and to the European Parliament about the results of the assessment and the Union’s policy response.

11 Principle and scope
1. Member States shall include in their CAP Strategic Plans a system of conditionality, under which beneficiaries receiving direct payments under Chapters II and III of this Title or the annual premia under Articles 65, 66 and 67 shall be subject to an administrative penalty if they do not comply, where applicable, with the statutory management requirements under Union law and the standards for good agricultural and environmental condition of land as listed in Annex III, established in the CAP Strategic Plan, relating to the following specific areas:

(a) the climate and the environment, including water, air, soil, biodiversity and ecosystem services;
(b) public health, animal health and plant health;
(c) animal welfare.

2. The rules on an effective and dissuasive system of administrative penalties to be included in the CAP Strategic Plan shall respect the requirements set out in Chapter IV of Title IV of Regulation (EU) [HzR].

3. The legal acts referred to in Annex III concerning the statutory management requirements shall apply in the version that is applicable and, in the case of Directives,
as implemented by the Member States.

4. For the purpose of this Section, 'statutory management requirement' means each individual statutory management requirement under Union law referred to in Annex III within a given legal act, differing in substance from any other requirements in the same act.

Organic Farming

Article 13a

Organic Farming

Organic agriculture, as defined under Regulation (EU) 2018/848 of the European Parliament and of the Council, is a certified farming system that can contribute towards multiple CAP specific objectives as laid out in Article 6(1) of this Regulation. In view of the benefits of organic farming, as well as its growing demand which continues to outpace the increase of production, Member States shall assess the level of support needed for agricultural land managed under the organic certification. Member States shall include in their CAP Strategic Plans an analysis of the organic sector’s production, of the expected demand, and of its potential to fulfil CAP objectives, and shall set up objectives to increase the share of agricultural land under organic management as well as to develop the entire organic supply chain. Based on this assessment, Member States shall determine the appropriate level of support towards organic conversion and maintenance, either through rural development measures in Article 65 or through eco-schemes in Article 28, or through a combination of both, and shall ensure that allocated budgets match the
expected growth in organic production.

Proposal for a regulation
Article 29 – paragraph 3 a (new)

Text proposed by the Commission

3 a. When a Member State proposes voluntary coupled support in its CAP Strategic Plan as envisaged in Article 106, the Commission shall ensure that:

(a) the aid meets the ‘do no harm’ principle;

(b) there is a clear environmental or social need or benefit, justified with empirical quantifiable and independently verifiable evidence;

(c) the support is used to satisfy the Union’s food security needs and does not create distortions of the internal or international markets;

(d) the granting of the coupled income support does not lead to trade outcomes which adversely impact on agro-food sector investment, production and processing development in partner developing countries;

(e) voluntary coupled support is not to be granted for markets that are in crisis due to overproduction or oversupply;

(f) support for livestock production is only to be granted for low population densities within limits of the ecological carrying capacities of the river basins concerned according to the Directive 2000/60/EC, and is linked to sufficient areas of fodder or grazing to be maintained without
external inputs.

When the conditions set out in points (a) to (f) are fulfilled, the Commission may approve or, in coordination with that Member State, as described in Articles 115 and 116 of this Regulation, adjust the variables proposed by that Member State.
