(i) soil conservation, including the enhancement of soil carbon;

(ii) improvement of the use of and management of water, including water saving and drainage;

(iii) preventing damage caused by adverse climatic events and promoting the use of varieties and management practices adapted to changing climate conditions;

(iv) energy saving and energy efficiency increase;

(v) ecological packaging;

(vi) animal health and welfare;

Amendment

60 Types of intervention

1. As regards the objectives referred to in points (a) to (g) of Article 59 Member States shall choose in their CAP Strategic Plans two or more of the following types of intervention:

(a) investments in tangible and non-tangible assets; research and experimental production, as well as other actions, including actions for:

(i) soil conservation and rebuilding soil fertility and structure, including the enhancement of soil carbon and reduction of contaminants in fertilising products;

(ii) improvement of the use of and management of water, including water saving and drainage;

(iii) preventing damage caused by adverse climatic events and promoting the use of varieties and management practices adapted to changing climate conditions;

(iv) energy saving and energy efficiency increase;

(v) reduction of waste through less packaging and ecological packaging;

(vi) animal health and welfare, including sustainable management and the prevention of tropical and zoonotic diseases;
(vii) reducing waste production and improving the use and management of by-products and waste;

(viii) improving *pest* resilience;

(ix) *reducing risks and impacts* of pesticide use;

(x) creating and maintaining habitats favourable to biodiversity;

(b) advisory services and technical assistance, in particular regarding climate change *adaptation and mitigation*;

(c) training including coaching and exchange of best practices;

(d) organic production;

(e) actions to increase the sustainability and efficiency of transport and of storage of products of one or more of the sectors referred to in point (f) of Article 40;

(f) *promotion, communication and marketing including actions and activities aimed in particular at raising consumer awareness about the Union quality schemes and the importance of healthy diets, and at diversification of markets*;

(g) implementation of Union and national quality schemes;

(h) implementation of traceability and certification systems, in particular the monitoring of the quality of products sold to final consumers.

2. As regards the objective referred to in point (h) of Article 59, Member States shall choose in their CAP Strategic Plans one or more of the following types of

(g) implementation of Union and national quality schemes;

(h) implementation of traceability and certification systems, in particular the monitoring of the quality of products sold to final consumers.

2. As regards the objective referred to in point (h) of Article 59, Member States shall choose in their CAP Strategic Plans one or more of the following types of
intervention:

(a) setting up and/or refilling of mutual funds by producer organisations recognised under Regulation (EU) No 1308/2013;

(b) investments in tangible and non-tangible assets making the management of the volumes placed on the market more efficient;

(c) collective storage of products produced by the producer organisation or by members of the producer organisation;

(d) replanting of orchards where that is necessary following mandatory grubbing up for health or phytosanitary reasons on the instruction of the Member State competent authority or to adapt to climate change;

(e) market withdrawal for free-distribution or other destinations;

(f) green harvesting consisting of the total harvesting on a given area of unripe non-marketable products which have not been damaged prior to the green harvesting, whether due to climatic reasons, disease or otherwise;

(g) non-harvesting consisting of the termination of the current production cycle on the area concerned where the product is well developed and is of sound, fair and marketable quality, excluding destruction of products due to a climatic event or disease;

(h) harvest and production insurance that contributes to safeguarding producers' incomes where there are losses as a consequence of natural disasters, adverse climatic events, diseases or pest infestations and at the same time ensuring that beneficiaries take necessary risk prevention measures.

3. Member States shall chose in the CAP Strategic Plans the sectors in which they implement the types of intervention.
laid down in this Article. For each sector, they shall choose one or more objectives from among those laid down in Article 59 and the types of intervention as laid down in paragraphs 1 and 2 of this Article. For each type of intervention, the Member States shall define interventions. The Member States shall substantiate their choice of sectors, objectives, types of intervention and interventions.

Article 67 – title

Text proposed by the Commission

67 Area-specific disadvantages resulting from certain mandatory requirements

1. Member States may grant payments for area-specific disadvantages imposed by requirements resulting from the implementation of Directives 92/43/EEC and 2009/147/EC or Directive 2000/60/EC under the conditions set out in this Article and as further specified in their CAP Strategic Plans with the view of contributing to the achievement of the specific objectives set out in Article 6(1).

2. These payments may be granted to farmers, forest holders and other land managers in respect of areas with disadvantages referred to in paragraph 1.

3. When defining areas with disadvantages Member States may include the following areas:

(a) Natura 2000 agricultural and forest areas designated pursuant to Directives 92/43/EEC and 2009/147/EC;

(b) other delimited nature protection areas with environmental restrictions applicable to farming or forests which contribute to the implementation of Article 10 of Directive 92/43/EEC, provided that...

67 Area-specific disadvantages resulting from certain mandatory requirements

1. Member States may grant payments for area-specific disadvantages imposed by requirements resulting from the implementation of Directives 92/43/EEC and 2009/147/EC or Directive 2000/60/EC under the conditions set out in this Article and as further specified in their CAP Strategic Plans with the view of contributing to the achievement of the specific objectives set out in Article 6(1).

2. These payments may be granted to farmers, **groups of farmers**, forest holders and **groups of forest holders**. In duly justified cases, it may also be granted to other land managers in respect of areas with disadvantages referred to in paragraph 1.

3. When defining areas with disadvantages Member States may include the following areas:

(a) Natura 2000 agricultural and forest areas designated pursuant to Directives 92/43/EEC and 2009/147/EC;

(b) other delimited nature protection areas with environmental restrictions applicable to farming or forests which contribute to the implementation of Article 10 of Directive 92/43/EEC, provided that...
these areas do not exceed 5% of the designated Natura 2000 areas covered by territorial scope of each CAP Strategic Plan;
(c) agricultural areas included in river basin management plans pursuant to Directive 2000/60/EC.

4. Member States may only grant payments under this type of interventions in order to compensate beneficiaries for all or part of the additional costs and income foregone related to the area-specific disadvantages in the area concerned.

5. Additional costs and income foregone as referred to in paragraph 4 shall be calculated:
(a) in respect of constraints arising from Directives 92/43/EEC and 2009/147/EC, in relation to disadvantages resulting from requirements that go beyond the relevant standards of good agricultural and environmental condition established under Section 2 of Chapter I of this Title of this Regulation as well as the conditions established for the maintenance of the agricultural area in accordance with point (a) of Article 4(1) of this Regulation;
(b) in respect of constraints arising from Directive 2000/60/EC, in relation to disadvantages resulting from requirements that go beyond the relevant statutory management requirements, with the exception of SMR 2 as referred to in Annex III, and standards of good agricultural and environmental condition established under Section 2 of Chapter I of this Title as well as the conditions established for the maintenance of the agricultural area in accordance with point (a) of Article 4(1) of this Regulation.

6. Payments shall be granted annually per hectare of area.

these areas do not exceed 5% of the designated Natura 2000 areas covered by territorial scope of each CAP Strategic Plan;
(c) agricultural areas included in river basin management plans pursuant to Directive 2000/60/EC.

(ce) High Nature Value areas falling outside of the scope of the areas referred to in points (a), (b) and (c).

4. Member States may only grant payments under this type of interventions in order to compensate beneficiaries for all or part of the additional costs and income foregone related to the area-specific disadvantages in the area concerned.

5. Additional costs and income foregone as referred to in paragraph 4 shall be calculated:
(a) in respect of constraints arising from Directives 92/43/EEC and 2009/147/EC, in relation to disadvantages resulting from requirements that go beyond the relevant standards of good agricultural and environmental condition established under Section 2 of Chapter I of this Title of this Regulation as well as the conditions established for the maintenance of the agricultural area in accordance with point (a) of Article 4(1) of this Regulation;
(b) in respect of constraints arising from Directive 2000/60/EC, in relation to disadvantages resulting from requirements that go beyond the relevant statutory management requirements, with the exception of SMR 1 as referred to in Annex III, and standards of good agricultural and environmental condition established under Section 2 of Chapter I of this Title as well as the conditions established for the maintenance of the agricultural area in accordance with point (a) of Article 4(1) of this Regulation.

Article 71 – title

Text proposed by the Commission

71 Cooperation

1. Member States may grant support for cooperation under the conditions set out in this Article and as further specified in their CAP Strategic Plans to prepare and to implement Operational Group projects of the European Innovation Partnership for agricultural productivity and sustainability as referred to in Article 114 and LEADER, referred to as community-led local development in Article 25 of Regulation (EU) [CPR], and to promote quality schemes, producer organisations or producer groups or other forms of cooperation.

2. Member States may only grant support under this type of interventions to promote forms of cooperation which involves at least two entities and which contributes to achieving the specific objectives set out in Article 6.

3. Member States may cover under this type of interventions the costs related to all aspects of the cooperation.

4. Member States may grant the support as an overall amount covering the cost of cooperation and the cost of the projects and operations implemented or they may cover only the cost of the cooperation and use funds from other types of intervention, national or Union support.

Amendment

71 Cooperation

1. Member States may grant support for cooperation under the conditions set out in this Article and as further specified in their CAP Strategic Plans to prepare and to implement Operational Group projects of the European Innovation Partnership for agricultural productivity and sustainability as referred to in Article 114 and LEADER, referred to as community-led local development in Article 25 of Regulation (EU) [CPR], and to promote quality schemes, producer organisations or producer groups or other forms of cooperation.

2. Member States may only grant support under this type of interventions to promote forms of cooperation which involves at least two entities and which contributes to achieving the specific objectives set out in Article 6.

3. Member States may cover under this type of interventions the costs related to all aspects of the cooperation.

4. Member States may grant the support as an overall amount covering the cost of cooperation and the cost of the projects and operations implemented or they may cover only the cost of the cooperation and use funds from other types of intervention, national or Union support.
instruments for project implementation.

5. Where support is paid as an overall amount, Member States shall ensure that Union rules and requirements pertaining to similar actions covered under other types of interventions are respected. This paragraph does not apply to LEADER, referred to as community-led local development in Article 25 of Regulation (EU) [CPR].

6. Member States shall not support through this type of interventions cooperation solely involving research bodies.

7. In the case of cooperation in the context of farm succession, Member States may grant support only to farmers having reached the retirement age as set under national legislation.

8. Member States shall limit support to a maximum of seven years except for collective environment and climate actions in duly justified cases to achieve the specific environmental- and climate-related objectives set out in points (d), (e) and (f) of Article 6(1).

8 a. The LEADER initiative, referred to as community-led local development as set out in paragraph 1, shall provide for the active and primary involvement of farms and/or forestry holdings.

Member States shall not support interventions with negative effects for the environment.

92 Increased ambition with regard to environmental-

and climate-related objectives

1. Member States shall aim to make, through their CAP Strategic Plans and in particular through the elements of the intervention strategy referred to in point (a) of Article 97(2), a greater overall contribution to the achievement of the specific environmental- and climate-related objectives set out in points (d), (e) and (f) of Article 6(1) in comparison to the overall contribution made to the achievement of the objective laid down in point (b) of the first subparagraph of Article 110(2) of Regulation (EU) No 1306/2013 through support under the EAGF and the EAFRD in the period 2014 to 2020.

Amendment

92 Increased ambition with regard to environmental-

and climate-related welfare-related objectives

1. Member States shall make, through their CAP Strategic Plans and in particular through the elements of the intervention strategy referred to in point (a) of Article 97(2), a greater overall contribution to the achievement of each of the specific environmental, climate and animal welfare-related objectives set out in points (d), (e), (f) and (i) of Article 6(1) in comparison to the overall contribution made to the achievement of the objective laid down in point (b) of the first subparagraph of Article 110(2) of Regulation (EU) No 1306/2013 through support under the EAGF and the EAFRD in the period 2014 to 2020.

1a. Payments towards organic conversion and maintenance in CAP Strategic Plans under Articles 28 and 65 shall exceed the total payments made before 2021 under Rural Development to organic farmers, calculated as a yearly average using constant prices.

2. Member States shall explain in their CAP Strategic Plans, on the basis of available information, how they intend to achieve the greater overall contribution set out to in paragraph 1. That explanation shall be based on relevant information such as the most recent and reliable information, the impact on the environment and the climate they aim to achieve in the period 2021-2027, and how they intend to achieve...
as the elements referred to in points (a) to (f) of Article 95(1) and in point (b) of Article 95(2).

the greater overall contribution set out to in paragraph 1, including how they intend to ensure that the objectives set out on the basis of the impact indicators set out in Annex I will constitute an improvement to the current situation. That explanation shall be based on relevant information such as the elements referred to in points (a) to (f) of Article 95(1) and in points (a) and (b) of Article 95(2).
