Proposal for a regulation
Article 4 – paragraph 1 – point d

Text proposed by the Commission
(d) ‘genuine farmers’ shall be defined in a way to ensure that no support is granted to those whose agricultural activity forms only an insignificant part of their overall economic activities or whose principal business activity is not agricultural, while not precluding from support pluri-active farmers. The definition shall allow to determine which farmers are not considered genuine farmers, based on conditions such as income tests, labour inputs on the farm, company object and/or inclusion in registers.

Amendment
(d) ‘active farmers’ shall be defined by Member States in such a way as to ensure that no support is granted to those whose agricultural activity forms only an insignificant part of their overall economic activities, while not precluding from support pluri-active farmers. The definition shall, in any event, ensure that land is actively farmed and preserve the family farming model of the Union of an individual or group nature, irrespective of its size, and may take into account, if necessary, the special features of the regions defined in Article 349 TFEU. Member States may exclude from this definition individuals or companies carrying out large scale processing of agricultural products;

Text proposed by the Commission

Amendment

Or. en

Justification

This is a necessary adjustment in the new CAP in order to implement Parliament’s call from 2016 and 2018 not to use agricultural subsidies for the breeding of bulls for bullfighting. Farmers involved in breeding of bulls for bullfighting should be excluded from the support from both EAFG and EAFRD funds.
