Amendment 917
Manuel Bompard
on behalf of the GUE/NGL Group

Report
Peter Jahr
Common agricultural policy - support for strategic plans to be drawn up by Member States and financed by the EAGF and by the EAFRD (COM(2018)0392 – C8-0248/2018 – 2018/0216(COD))

Proposal for a regulation
Article 29 – paragraph 3 a (new)

Text proposed by the Commission

3 a. The Commission shall ensure in line with Chapter III of Title V that coupled support for livestock shall only be granted to farms that stay within a defined maximum livestock stocking density for a given river basin as defined in Directive 2000/60/EC

Amendment

3 a. The Commission shall ensure in line with Chapter III of Title V that coupled support for livestock shall only be granted to farms that stay within a defined maximum livestock stocking density for a given river basin as defined in Directive 2000/60/EC

on behalf of the GUE/NGL Group

Report
Peter Jahr
Common agricultural policy - support for strategic plans to be drawn up by Member States and financed by the EAGF and by the EAFRD (COM(2018)0392 – C8-0248/2018 – 2018/0216(COD))

Proposal for a regulation
Article 31 – paragraph 2

Text proposed by the Commission

2. Where the coupled income support concerns bovine animals or sheep and goats, Member States shall define as eligibility conditions for the support the requirements to identify and register the animals in compliance with Regulation (EC) No 1760/2000 of the European Parliament and of the Council32 or Council Regulation (EC) No 21/200433 respectively. However, without prejudice to other applicable eligibility conditions, bovine animals or sheep and goats shall be considered as eligible for support as long as the identification and registration requirements are met by a certain date in the claim year concerned to be fixed by the Member States.

Amendment

2. Coupled income support may only be granted if:

(a) the Member State demonstrates that it is the only option remaining, notably relating to pastoral systems where environmental schemes or decoupled payments can be difficult to deliver due to grazed commons or transhumance

(b) the Member State demonstrates the coverage of the additional costs actually incurred and income foregone in order to fulfil the specific objectives (d), (e) and (f) of Article 6(1).

Proposal for a regulation
Article 31 – paragraph 2 c (new)

Text proposed by the Commission

2 c. Without prejudice to the first subparagraph, support shall not be awarded to intensive animal production. The Commission is empowered to adopt delegated acts in accordance with Article 138 supplementing this Regulation by defining types of intensive animal production systems ineligible for coupled support, effectively excluding from support dairy, bovine animals or sheep and goats where there is a discrepancy between the number of eligible hectares and number of animals. This provision will take into account shepherding or transhumance practices.

Amendment

2 c. Without prejudice to the first subparagraph, support shall not be awarded to intensive animal production. The Commission is empowered to adopt delegated acts in accordance with Article 138 supplementing this Regulation by defining types of intensive animal production systems ineligible for coupled support, effectively excluding from support dairy, bovine animals or sheep and goats where there is a discrepancy between the number of eligible hectares and number of animals. Report
Peter Jahr
Common agricultural policy - support for strategic plans to be drawn up by Member States and financed by the EAGF and by the EAFRD

Proposal for a regulation
Article 58 a (new)

Text proposed by the Commission

Amendment

Article 58 a

Section 6 a - The leguminous crops sector

Article 58 a

Objectives of the leguminous crops sector
Notwithstanding respect of Articles 5 and 6 on overall objectives, Member States shall pursue the following objectives in the leguminous crops sector:

(a) The scheme shall increase sustainable legume production and consumption across the Union, to increase self-sufficiency of food and feed according to the targets set in Annex I.

(b) Arable leguminous crops supported with this payment shall be part of a crop rotation of at least four years, or a mix of species in temporary grassland on arable land. This shall be compatible with schemes for the climate and environment ("eco-schemes") in Article 28, under which rotations of four years and more can be rewarded. The scheme may also reward under-cropping or intercropping e.g. by subterranean clover which is not otherwise rewarded under other measures.

(c) Pasture based grazing of high species diversity pasture or mowing of high species diversity meadow for fodder on genuinely permanent pasture that
contains leguminous species in the sward may also be subsidised, on the condition that re-ploughing and re-seeding (“refreshing”) does not occur.

(d) Monocultural or continuous cropping of leguminous crops shall not be supported by these payments.

(e) Decreasing dependency on concentrated feed mix containing soya, especially imported soya originating from land that has recently been deforested or converted, in line with the SDG 15, the Union pledge on zero deforestation and existing private company commitments on zero deforestation.

(f) Closing nutrient cycling loops and tightening them to local and regional river basin scales in line with Directive 2000/60/EC.

(g) Boosting local and regional markets in food and animal feed and locally adapted low input seed varieties. Measures financed under this sector shall be coherent with Union climatic and environmental commitments and legislation, and not cause direct or indirect land use change, having a genuinely positive impact on global greenhouse gas emissions according to GLOBIOM.
