Amendment 6
Lívia Járóka
on behalf of the PPE Group

Report
Romeo Franz
Implementation of National Roma Integration Strategies: combating negative attitudes towards people with Romani background in Europe (2020/2011(INI))

Motion for a resolution
Paragraph 2

2. Calls on the Commission to submit a legislative proposal for the Equality, Inclusion, Participation of Romani people and Combating Antigypsyism, on the basis of a thorough impact assessment and in systemic consultations with Romani people, (pro-) Romani experts and NGOs from national, regional and especially from grassroots level as well as other interested stakeholders such as the Council of Europe and FRA; considers that this proposal could be based on Article 19 (2) of the Treaty of the Functioning of the European Union as appropriate action to combat discrimination based on ethnic origin of Romani people; calls on the Commission to take into account the internal heterogeneity of the community in the priority domains of the post 2020 proposal, ensuring that nobody is left behind, and strongly encourages to use the designation ‘Romani people’ when referring to Romani groups in post 2020 EU policies and discussions; notes that equal participation in all domains of public life, political participation, and the language, arts, culture and history of Romani people should be explicitly mentioned in the post-2020 EU proposal for Romani people, as additional measures to the four main priority areas of education, employment, housing and healthcare;

Amendment
2. Calls on the Commission to submit a legislative proposal for the Equality, Inclusion, Participation of Romani people and Combating Antigypsyism, on the basis of a thorough impact assessment and in systemic consultations with Romani people, (pro-) Romani experts and NGOs from national, regional and especially from grassroots level as well as other interested stakeholders such as the Council of Europe and FRA; considers that this proposal could be based on Article 19 (2) of the Treaty of the Functioning of the European Union as appropriate action to combat discrimination based on ethnic origin of Romani people; reiterates the opinion it expressed a decade ago\(^a\) that the previously used Council recommendation is not a sufficient form of act, as it was not legally binding and has failed to make a significant positive impact on the Romani people; calls on the Commission to take into account the internal heterogeneity of the community in the priority domains of the post 2020 proposal, ensuring that nobody is left behind, and strongly encourages to use the designation ‘Romani people’ when referring to Romani groups in post 2020 EU policies and discussions; notes that equal participation in all domains of public life, political participation, and the language,
arts, culture and history of Romani people should be explicitly mentioned in the post-2020 EU proposal for Romani people, as additional measures to the four main priority areas of education, employment, housing and healthcare;
