4-A. Stresses that Member States still face many challenges, in particular in mitigating the effects of the COVID-19 outbreak and is convinced that Union citizens expect the 2021 budget to be more efficient, transparent and result-oriented, to provide for concrete reductions, especially but not limited to administrative expenditure and to ensure the efficient and accountable use of taxpayers' money; also stresses the need to properly assess which funds could be better managed at national level in order to ensure full respect of the principle of subsidiarity; regrets Parliament's lack of flexibility in relation to Council's position which, on the contrary, remains pragmatic in the current economic context;

13. Points to the importance of ensuring that sufficient financial resources and adequate human resources capacities are allocated to Union agencies enabling them to fulfil their mandate, execute their tasks and respond optimally to the consequences of the COVID-19 outbreak; underlines the fact that proper coordination and synergies between agencies are needed to increase the effectiveness of their work, especially where there is convergence towards specific policy objectives, in order to allow for the fair and efficient use of public money; insists that the Commission ensure optimal allocation of personnel among its Directorates-General reflecting urgent needs and long-term priorities related to the response to the COVID-19 crisis and the European Green Deal in particular;

30. Recalls that the cultural and creative sector is one of the most hit by the COVID-19 outbreak and calls for adequate answers and financing to reduce continuing substantive losses of the sector due to the unforeseeable closure of venues during the COVID-19 crisis; proposes therefore to substantially increase the respective budget lines of Creative Europe to support the sectors affected by the crisis;
Stresses the crucial role of the Citizens, Equality, Rights and Values Programme to protect and promote the rights and values enshrined in the Treaties and the EU Charter of Fundamental Rights and insists that additional appropriations are required for each stand and notably for the Daphne strand to fight violence against women and for the strand promoting citizens engagement and participation in the life of the Union;

Believes that the Daphne programme should be maintained insofar as there is an added value compared to national programmes;
