Amendments to a draft act

Amendments by Parliament set out in two columns

Deletions are indicated in bold italics in the left-hand column. Replacements are indicated in bold italics in both columns. New text is indicated in bold italics in the right-hand column.

The first and second lines of the header of each amendment identify the relevant part of the draft act under consideration. If an amendment pertains to an existing act that the draft act is seeking to amend, the amendment heading includes a third line identifying the existing act and a fourth line identifying the provision in that act that Parliament wishes to amend.

Amendments by Parliament in the form of a consolidated text

New text is highlighted in bold italics. Deletions are indicated using either the symbol or strikeout. Replacements are indicated by highlighting the new text in bold italics and by deleting or striking out the text that has been replaced.

By way of exception, purely technical changes made by the drafting departments in preparing the final text are not highlighted.

FINAL VOTE BY ROLL CALL IN COMMITTEE RESPONSIBLE ........................................51
DRAFT EUROPEAN PARLIAMENT LEGISLATIVE RESOLUTION

on the proposal for a Council directive amending Directive 2011/16/EU on administrative cooperation in the field of taxation

(Special legislative procedure – consultation)

The European Parliament,
– having regard to the Commission proposal to the Council (COM(2020)0314),
– having regard to Articles 113 and 115 of the Treaty on the Functioning of the European Union, pursuant to which the Council consulted Parliament (C9-0213/2020),
– having regard to Rule 82 of its Rules of Procedure,
– having regard to the report of the Committee on Economic and Monetary Affairs (A9-0015/2021),

1. Approves the Commission proposal as amended;

2. Calls on the Commission to alter its proposal accordingly, in accordance with Article 293(2) of the Treaty on the Functioning of the European Union;

3. Calls on the Council to notify Parliament if it intends to depart from the text approved by Parliament;

4. Asks the Council to consult Parliament again if it intends to substantially amend the Commission proposal;

5. Instructs its President to forward its position to the Council, the Commission and the national parliaments.

Amendment

(1) In order to accommodate new initiatives of the Union in the field of tax transparency, Council Directive 2011/16/EU has been the subject of a series of amendments over the last years. These changes mainly introduced reporting
obligations, followed by communication to other Member States, related to financial accounts, advance cross-border rulings and advance pricing arrangements, country-by-country reports and reportable cross-border arrangements. In such a way, these amendments extended the scope of the automatic exchange of information. The tax authorities now have a broader set of cooperation tools at their disposal, to detect and tackle forms of tax fraud, tax evasion and tax avoidance.

Amendment 2
Proposal for a directive
Recital 1 a (new)

Text proposed by the Commission

(1a) The broader set of cooperation tools, the digital transition and the aim of enhancing cooperation between national authorities require qualified human resources and adequate financial resources. To that end, the changes proposed must be accompanied by an adequate level of investment, mainly in the adaptation of informatics and digital infrastructure and professional training. Ultimately, Member States’ capacity to process all financial information received should be enhanced and tax administrations’ financial, human and IT resources should be increased.

Amendment 3
Proposal for a directive
Recital 2

Text proposed by the Commission

(2) In the past years, the Commission has been monitoring the application and, in 2019, completed an evaluation of Directive 2011/16/EU. While significant improvements have been made in the field of automatic exchange of information, there is still a need to improve existing provisions that relate to all forms of exchanges of information and administrative cooperation. In order to take into account the evolution of the situation with regard to tax transparency, that Directive might need to be updated regularly.

Recital 3

Text proposed by the Commission

(3) Pursuant to Article 5 of Directive 2011/16/EU, following a request of a requesting authority, the requested authority is to communicate to the requesting authority any information it has in its possession, or that it obtains as a result of administrative enquiries, which is foreseeably relevant to the administration and enforcement of the domestic laws of the Member States concerning the taxes falling within the scope of that Directive. Amendment

(3) Pursuant to Article 5 of Directive 2011/16/EU, following a request of a requesting authority, the requested authority is to communicate to the requesting authority any information it has in its possession, or that it obtains as a result of administrative enquiries, which is foreseeably relevant to the administration and enforcement of the domestic laws of the Member States concerning the taxes falling within the scope of that Directive. To ensure effectiveness of the exchanges of information and prevent unjustified refusals of requests, as well as to provide
legal clarity and certainty for both tax administrations and taxpayers, the standard of foreseeable relevance should be clearly delineated in line with the jurisprudence of the Court of Justice of the European Union which states that the term ‘foreseeable relevance’ is intended to provide for exchange of information in tax matters to the widest possible extent.

In this context, it should also be clarified that the standard of foreseeable relevance should not apply to requests for additional information following an exchange of information in accordance with Article 8a of Directive 2011/16/EU concerning an advance cross-border ruling or an advance pricing arrangement.

Amendment 5

Proposal for a directive
Recital 3 a (new)

Text proposed by the Commission

(3a) The Union and the Member States should ensure a harmonised system of penalties and sanctions across the Union in order to prevent the exploitation by platform operators of loopholes and differences among Member States’ taxation systems. Where the rules are infringed, financial penalties and exclusion from public contracts should be considered. In extreme and repeated cases, the possibility of revoking the business licence of the platform operator should be an option.

Amendment 6

Proposal for a directive
Recital 4 a (new)

(4a) In order to keep taxpayers correctly and fully informed, the competent authorities of Member States should disclose the income categories with regard to which the information is automatically shared with competent authorities of other Member States and third countries or jurisdictions.

Amendment 7
Proposal for a directive
Recital 4 b (new)

(4b) Any information regarding cross-border schemes with implications for third countries should also be disclosed to the tax authorities in those countries. That requirement should concern in particular developing countries, which often have a more limited access to international systems of exchange of tax information.

Amendment 8
Proposal for a directive
Recital 6 a (new)

(6a) Proper identification of taxpayers is essential to effective exchange of information between tax administrations. A taxpayer identification number (TIN) should always be made available when required by Directive 2011/16/EU and a European TIN should be created to provide the best means for that identification. The European TIN would allow any third party to quickly, easily and correctly identify and record TINs in cross-border relations and serve as a basis
for effective automatic exchange of information between Member States’ tax administrations.

Amendment 9
Proposal for a directive
Recital 7

Text proposed by the Commission

(7) Tax administrations frequently request information from digital platform operators. This causes platform operators significant administrative and compliance costs. At the same time, some Member States have imposed a unilateral reporting obligation, which creates an additional administrative burden for platform operators, as they have to comply with multitude of national standards of reporting. It would therefore be essential that a standardised reporting obligation apply across the internal market.

Amendment

(7) Tax administrations frequently request information from digital platform operators. This causes platform operators significant administrative and compliance costs. At the same time, some Member States have imposed a unilateral reporting obligation, which creates an additional administrative burden for platform operators, as they have to comply with a multitude of national standards of reporting. It would therefore be essential that a standardised reporting obligation apply across the internal market. That standardisation is essential in order to promote three major objectives: to minimise compliance costs for operators, to increase the efficiency of national authorities and to reduce bureaucracy for both taxpayers and tax administrations.

Amendment 10
Proposal for a directive
Recital 7 a (new)

Text proposed by the Commission

(7a) The digitisation of the economy is one of the cornerstones of the Union’s future economic and growth strategy. The Union should be an attractive terrain for digital companies, in particular for their commercial, innovation and employment potential. However, digital goods and services tend to be highly mobile and intangible and therefore more prone to
suffering from aggressive tax planning practices, since many business models do not require physical infrastructure in order to carry out transactions with customers and generate profits. That calls into question the suitability of the Union corporate tax models designed for brick and mortar industries, including with regard to the extent that valuation and calculation criteria could be reinvented to reflect the commercial activities of the 21st century. Moreover, that leads to a situation in which online sellers and sellers operating via platforms currently have the opportunity to generate revenues that are poorly reported and thus at high risk of remaining undertaxed or untaxed.

Amendment 11
Proposal for a directive
Recital 13

Text proposed by the Commission

(13) Given the digital nature and flexibility of digital platforms, the reporting obligation should extend to those platform operators that perform commercial activity in the Union but are neither residents for tax purposes, nor incorporated or managed nor have a permanent establishment in a Member State. This would ensure a level playing field among the platforms and prevent unfair competition. In order to facilitate this, foreign platforms should be required to register and report in one single Member State for the purpose of operating in the internal market.

Amendment

(13) Given the digital nature and flexibility of digital platforms, the reporting obligation should extend to those platform operators that perform commercial activity in the Union but are neither residents for tax purposes, nor incorporated or managed nor have a permanent establishment in a Member State. This would ensure a level playing field among the platforms and prevent unfair competition. In order to facilitate this, foreign platforms should be required to register and report in one single Member State for the purpose of operating in the internal market, taking into account the location of their global or regional headquarters, their effective place of management as well as the existence of substantial economic activity in that chosen Member State.
Amendment 12
Proposal for a directive
Recital 14 a (new)

Text proposed by the Commission

(14a) Considering that the progressively digitised and globalised economy reveals complex and challenging dimensions, such as crypto-assets, it is important to increase cooperation between national tax administrations in that field. A clear definition of crypto-assets, taking into account the ongoing work within the OECD and FATF, is important in combating tax evasion and promoting fair taxation. The FATF adopted a broad definition of virtual currency and recommended incorporating within the scope of AML/CFT obligations any natural or legal person who conducts activities including exchange between crypto-assets, transfer of crypto-assets and participation in and provision of financial services related to initial coin offerings. The proliferation of crypto-currencies is a topical matter and should be considered in any effort to increase administrative cooperation, based on the principles of subsidiarity and proportionality. Also, given global technological advancement, there is a need for advanced supervisory mechanisms that are in close contact with the relevant counter-criminal financing bodies.

Amendment 13

Amendment

(15) The objective of preventing tax evasion and avoidance could be ensured by requiring digital platform operators to report income earned through platforms at
an early stage, before the national tax authorities carry out their yearly tax assessments. To facilitate the work of Member States’ tax authorities, the reported information should be exchanged within one month following the reporting.

In order to facilitate the automatic exchange of information and enhance the efficient use of resources, exchanges should be carried out electronically through the existing common communication network (‘CCN’) developed by the Union.

The digital infrastructure should be resilient and guarantee the highest standard of security.

Amendment 14
Proposal for a directive
Recital 15 a (new)

Text proposed by the Commission

(15a) This Directive should ensure that competent authorities can access data on the duration of rental contracts where short term property renting is limited in time, so as to facilitate the implementation of those limitations and a control over rental price increases in the Union.

Amendment 15
Proposal for a directive
Recital 15 b (new)

Text proposed by the Commission

(15b) Individuals who have access to information relating to sensitive tax information of platform operators and multinational corporations regarding tax evasion and tax avoidance practices, should be encouraged to come forward and cooperate with the authorities with discretion and respect for the public
interest, and they should be fully protected if they do so.

Amendment 16
Proposal for a directive
Recital 16

Text proposed by the Commission

(16) The evaluation of Directive 2011/16/EU carried out by the Commission demonstrated the need for consistent monitoring of the effectiveness in the application of that Directive and of the national transposing provisions enabling this application. In order for the Commission to continue to properly monitor and evaluate the effectiveness of the automatic exchanges of information under Directive 2011/16/EU, Member States should be obliged to communicate the statistics on such exchanges to the Commission on an annual basis.

Amendment

(16) The evaluation of Directive 2011/16/EU carried out by the Commission demonstrated the need for consistent monitoring of the effectiveness in the application of that Directive and of the national transposing provisions enabling this application. In order for the Commission to continue to properly monitor and evaluate the effectiveness of the automatic exchanges of information under Directive 2011/16/EU, Member States should be obliged to communicate the statistics on such exchanges to the Commission on an annual basis. They should also communicate to the Commission, on an annual basis, all relevant information related to obstacles for the proper implementation of that Directive.

Amendment 17
Proposal for a directive
Recital 16 a (new)

Text proposed by the Commission

(16a) The Commission shall within two years of the entry into force of this Directive present a report on the implementation and efficiency of the provisions that this Directive introduces into Directive 2011/16/EU and make specific proposals, including legislative proposals, for its improvement. That report should be made public.
Amendment 18
Proposal for a directive
Recital 19

Text proposed by the Commission

(19) Multilateral controls carried out with the support of the Fiscalis 2020 programme established by Regulation (EU) No 1286/2013 of the European Parliament and of the Council have demonstrated the benefit of co-ordinated controls of one or more taxpayers that are of common or complementary interest to two or more tax administrations in the Union. As there is no explicit legal base for conducting joint audits, such joint actions are currently conducted based on the combined provisions of Directive 2011/16/EU regarding the presence of foreign officials in the territory of other Member States and on simultaneous controls. However, in many cases this practice has proven to be insufficient and lacking legal clarity and certainty.

Amendment

(19) Multilateral controls carried out with the support of the Fiscalis 2020 programme established by Regulation (EU) No 1286/2013 of the European Parliament and of the Council have demonstrated the benefit of co-ordinated controls of one or more taxpayers that are of common or complementary interest to two or more tax administrations in the Union. Therefore, on-site inspections and joint audits should be part of the Union framework of cooperation between tax administrations. As there is no explicit legal base for conducting joint audits, such joint actions are currently conducted based on the combined provisions of Directive 2011/16/EU regarding the presence of foreign officials in the territory of other Member States and on simultaneous controls. However, in many cases this practice has proven to be insufficient and lacking legal clarity and certainty. It is therefore important to eliminate that legal uncertainty and provide those controls with a legal basis within the framework of administrative cooperation.

Proposal for a directive
Recital 20

Text proposed by the Commission

(20) Member States should adopt a clear and efficient legal framework to allow their tax authorities to perform joint audits of persons with cross-border activity. Joint audits are administrative enquiries conducted jointly by the competent authorities of two or more Member States, to examine a case linked to one or more persons of common or complementary interest to these Member States. Joint audits can play an important role in contributing to the better functioning of the internal market. Joint audits should be structured to offer legal certainty to taxpayers through clear procedural rules, including for mitigating the risk of double taxation.

Amendment

(20) Member States should adopt a clear and efficient legal framework to allow their tax authorities to perform joint audits of persons with cross-border activity. Joint audits are administrative enquiries conducted jointly by the competent authorities of two or more Member States, to examine a case linked to one or more persons of common or complementary interest to these Member States. Joint audits can play an important role in contributing to the better functioning of the internal market. Joint audits should be structured to offer legal certainty to taxpayers through clear procedural rules, including for mitigating the risk of double taxation. In addition to the legal framework required, Member States should provide for conditions that facilitate the organisation of joint audits at an operational level, notably by supporting training, including linguistic training, for staff likely to perform joint audits. It is recalled that the Fiscalis programme can provide financial support in that regard.

Amendment 20

Proposal for a directive
Recital 21

Text proposed by the Commission

(21) In order to ensure the effectiveness of the process, responses to requests for joint audits should be provided within a given timeframe. Rejections of requests should be duly justified. The procedural arrangements applicable to a joint audit should be those of the Member State where the relevant audit action takes place. Accordingly, evidence collected during a

Amendment

(21) In order to ensure the effectiveness of the process, responses to requests for joint audits should be provided within a given timeframe. Rejections of requests should be duly justified, should only be allowed to be given for the reasons laid out in this Directive and should be subject to a right of response by the requesting authority. The procedural arrangements
joint audit should be mutually recognised by the participating Member State(s). It is equally important that the competent authorities agree on the facts and circumstances of the case and endeavour to reach an agreement on how to interpret the tax position of the audited person(s). In order to ensure that the outcome of a joint audit can be implemented in the participating Member States, the final report should have equivalent legal value to the relevant national instruments that are issued as a result of an audit in the participating Member States. Where necessary, Member States should provide the legal framework for the performance of a corresponding adjustment.

Amendment 21
Proposal for a directive
Recital 24 a (new)

*Text proposed by the Commission*

(24a) It is equally important to emphasise that not only the exchange of information between tax authorities but also the sharing of best practices contributes to more efficient tax collection. In line with the Fiscalis 2020 Programme, Member States should give priority to the sharing of best practices among tax authorities.

Amendment 22
Proposal for a directive
Recital 26

*Text proposed by the Commission*

(26) In order to ensure uniform...
conditions for the implementation of Directive 2011/16/EU and in particular, for the automatic exchange of information between tax authorities, implementing powers should be conferred on the Commission to adopt a standard form, with a limited number of components, including the linguistic arrangements. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council.<sup>25</sup>

The Commission is entitled to produce reports and documents, using the information exchanged in an anonymised manner, so as to take into account the taxpayers’ right to confidentiality and in compliance with Regulation (EC) No 1049/2001 regarding public access to European Parliament, Council and Commission documents.

(26a) Any processing of personal data carried out within the framework of Directive 2011/16/EU should continue to comply with Regulations (EU) 2016/679 and (EU) 2018/1725. The data processing provided for in Directive 2011/16/EU has the sole objective of serving a general public interest in the field of taxation, namely, combating tax fraud, tax avoidance and tax evasion, safeguarding
tax revenues, and promoting fair taxation, which strengthens opportunities for social, political and economic inclusion in the Member States. Therefore, in Directive 2011/16/EU, the references to the relevant Union law on data protection should be updated and supplemented by the rules set out in this Directive.

Amendment

(1a) In Article 3, point 14 is amended as follows:

“14. “advance ruling” means any agreement, communication, or any other instrument or action with similar effects, including one issued, amended or renewed in the context of a tax audit, and, irrespective of its formal, informal, legally binding or non-binding nature, which meets the following conditions:

(a) is issued, amended or renewed by, or on behalf of, the government or the tax
authority of a Member State, or the Member State’s territorial or administrative subdivisions, including local authorities, irrespective of whether it is effectively used;

(b) is issued, amended or renewed, to a particular person or a group of persons, and upon which that person or a group of persons is entitled to rely;

c) concerns the interpretation or application of a legal or administrative provision concerning the administration or enforcement of national laws relating to taxes of the Member State, or the Member State’s territorial or administrative subdivisions, including local authorities;

d) relates to a cross-border transaction or to the question of whether or not activities carried on by a person in another jurisdiction create a permanent establishment; and

e) is made in advance of the transactions or of the activities in another jurisdiction potentially creating a permanent establishment or in advance of the filing of a tax return covering the period in which the transaction or series of transactions or activities took place. The cross-border transaction may involve, but is not restricted to, the making of investments, the provision of goods, services, finance or the use of tangible or intangible assets and does not have to directly involve the person receiving the advance cross-border ruling;

e) is made in advance of the transactions or of the activities in another jurisdiction potentially creating a permanent establishment or in advance of the filing of a tax return covering the period in which the transaction or series of transactions or activities took place. Directive 2011/16/EU
Article 8aa – paragraph 2

Present text

2. The competent authority of a Member State where the country-by-country report was received pursuant to paragraph 1 shall, by means of automatic exchange and within the deadline laid down in paragraph 4, communicate the country-by-country report to any other Member State in which, on the basis of the information in the country-by-country report, one or more Constituent Entities of the MNE Group of the Reporting Entity are either resident for tax purposes or subject to tax with respect to the business carried out through a permanent establishment.

Amendment

(5a) In Article 8aa, paragraph 2 is replaced by the following:

“2. The competent authority of a Member State where the country-by-country report was received pursuant to paragraph 1 shall, by means of automatic exchange and within the deadline laid down in paragraph 4, communicate the country-by-country report to any other Member State in which, on the basis of the information in the country-by-country report, one or more Constituent Entities of the MNE Group of the Reporting Entity are either resident for tax purposes or subject to tax with respect to the business carried out through a permanent establishment.

The competent authority of a Member State where the country-by-country report was received pursuant to paragraph 1 shall also communicate that report to the competent services of the Commission, which is responsible for the centralised register of country-by-country reports. The Commission shall publish anonymised and aggregated country-by-country report statistics on an annual basis for all Member States.”

Present text

Paragraph 2 is replaced by the following:

“(ba) Paragraph 2 is replaced by the following:

2. Before 1 January 2019, the Commission shall submit a report that provides an overview and an assessment of the statistics and information received under paragraph 1 of this Article, on issues such as the administrative and other relevant costs and benefits of the automatic exchange of information, as well as practical aspects linked thereto. If
appropriate, the Commission shall present a proposal to the Council regarding the categories and the conditions laid down in Article 8(1), including the condition that information concerning residents in other Member States has to be available, or the items referred to in Article 8(3a), or both.

When examining a proposal presented by the Commission, the Council shall assess further strengthening of the efficiency and functioning of the automatic exchange of information and raising the standard thereof, with the aim of providing that:

(a) the competent authority of each Member State shall, by automatic exchange, communicate to the competent authority of any other Member State, information regarding taxable periods as from 1 January 2019 concerning residents in that other Member State, on all categories of income and capital listed in Article 8(1), as they are to be understood under the national legislation of the Member State communicating the information; and

(b) the lists of categories and items laid down in Articles 8(1) and 8(3a) be extended to include other categories and items, including royalties.

(b) the categories of income laid down in Article 8(1) be expanded to non-financial assets such as real estate, art or jewellery and new forms to store wealth such as free ports and safe deposit boxes;

(ba) the lists of items laid down in Article 8(3a) be extended to include the ultimate beneficial ownership data and to tackle circumvention through second or multiple tax residencies;

(bb) Member States be generally allowed to use the information received for other purposes than those referred to in Article 16(1);

(bc) effective use of the data received be correctly evaluated.”
Amendment 51

Article 1 – paragraph 1 – point 8 – point a
Directive 2011/16/EU
Article 11 – paragraph 1

Text proposed by the Commission

1. With a view to exchanging the information referred to in Article 1(1), the competent authority of a Member State may request the competent authority of another Member State that officials authorised by the former and in accordance with the procedural arrangements laid down by the latter:

(a) be present in the offices where the administrative authorities of the requested Member State carry out their duties;

(b) be present during administrative enquiries carried out in the territory of the requested Member State;

(c) participate in the administrative enquiries carried out by the requested Member State through the use of electronic means of communication, where appropriate.

A competent authority shall respond to a request in accordance with the first subparagraph within 30 days, to confirm its agreement or communicate its reasoned refusal to the requesting authority.

Amendment

1. With a view to exchanging the information referred to in Article 1(1), the competent authority of a Member State may request the competent authority of another Member State that officials authorised by the former and in accordance with the procedural arrangements laid down by the latter:

(a) be present in the offices where the administrative authorities of the requested Member State carry out their duties;

(b) be present during administrative enquiries carried out in the territory of the requested Member State;

(c) participate in the administrative enquiries carried out by the requested Member State through the use of electronic means of communication, where appropriate.

A competent authority shall respond to a request in accordance with the first subparagraph within 30 days, to confirm its agreement or communicate its reasoned refusal to the requesting authority.

In cases where a reasoned refusal is provided, the requesting authority may contact again the competent authority with additional elements, in order to obtain an authorisation for its official to carry out the tasks referred to in paragraph 1 (a), (b) or (c). The competent authority shall respond to that second request within 30 days of its receipt.

Where the requested information is
contained in documentation to which the officials of the requested authority have access, the officials of the requesting authority shall be given copies thereof.

Fa. Penalties for infringements

Member States shall lay down the rules on penalties applicable to infringements of reporting obligations by Reporting Platform Operators. The penalties provided for shall be effective, proportionate and dissuasive. Member States are invited to ensure a common set of sanctions to ensure similar penalties in the Union and avoid registration shopping based on the severity of penalties applied.

Member States are especially encouraged to consider as penalties options for restrictions of regulated means of payment, the charging of additional consequential fees per transaction, the exclusion of public contracts and, in extreme and repeated cases, the revoking of the business licence of the platform operator.
EXPLANATORY STATEMENT

On 15 July 2020, the Commission published a Tax Package, which contains three separate but complementary initiatives, including an Action Plan for fair and simple taxation supporting the recovery and a legislative proposal to amend the Directive on Administrative Cooperation (DAC7).

The DAC7 proposal aims at extending the EU tax transparency rules to digital platforms. If adopted, this proposal foresees that Member States will automatically exchange information on income generated by sellers on digital platforms. This will not only allow national authorities to identify situations where tax should be paid, but will also reduce the administrative burden placed on platforms, which have to deal with different national reporting requirements. In addition, the underreporting of revenues obtained through digital platforms leads to unfair competition between the traditional economy and the digital platform economy. Furthermore, the proposal suggests a series of adjustments to the Directive, including provisions for joint audits between tax authorities, an explicit reference to the possibility for group requests by a Member State to another or the clarification of the concept of foreseeable relevance, among others.

The challenges posed by the digitalisation of the economy need to be addressed to ensure that income and revenues gained via digital platforms are correctly reported to tax authorities. Only with a reliable system of reporting obligations and traceability of taxable events for tax authorities can we ensure that income earned by sellers are properly taxed in the respective Member States and contribute to increasing Member States’ tax revenues. In addition, the COVID-19 crisis reminded us of the importance of protecting public finance and of the need to raise revenues to address the economic and social impacts of the pandemic as well as to finance the needed future investments in Europe.

Considering the above, the DAC7 proposal is an important step to continue the fight against tax fraud, tax evasion and tax avoidance and enhance the cooperation and exchange of information between tax authorities in the Union. The Commission’s proposal is therefore to be welcomed, as it brings us one step closer to a full exchange of information on all revenues and assets earned and owned by taxpayers in the EU. DAC7 constitutes therefore another step towards an economic globalisation that is reconciled with fair and even taxation of income and wealth. Member States will only regain the possibility to tax all income and wealth earned or owned across borders by their citizens in an efficient, even and fair way, if information on earning and wealth flow automatically across borders. The DAC and the global CRS system have brought us closer towards this objective. But in particular, real estate, trusts, shares of companies below the 25% ownership threshold, some forms of capital gains and crypto assets need to be included fully in automatic information exchange in the near future. Therefore, the beneficial and not only the legal owner has to be effectively known. Member States also need to work on the availability of data and not just rely on existing data.

However, this proposal can in the meantime be positively amended through the following recommendations:

- Not only available information should be automatically shared under article 8 but also that information that could be reasonably made available by the Member State;
Member States should be generally free to use the information received for other purposes than tax purposes. As such, the required permission by the competent authority of the sending state has been deleted and the Member State of the competent authority receiving can use the information insofar as this is allowed under the legislation of the Member State of the competent authority receiving the information;

- Strengthen the exchange of information on cross-border rulings and advance pricing agreements by enlarging the scope to informal rulings and domestic tax rulings;

- The evaluation and analysis shared by Member States to the European Commission should be published insofar those evaluations do not disclose any information that can be attributable to a specific taxpayer;

- Include the obligation for the Commission to publish annually anonymised summaries of the statistical data received by Member States;

- Include a definition of excluded Relevant Activities and Reporting Platform Operators in order to reduce bureaucratic burden on small platforms and allow non-monetary and non-remunerated activities to be out of scope;

- Mention certain type of penalties that Member States can use in case platforms are not fulfilling their obligation and call for a harmonisation of penalties across Member States in order to support the even and effective implementation by all platforms;

- Insert a review clause for the Commission to assess the efficiency of the implementation of this reporting obligation and consider the possibility of a European supervisor in charge of the Directive’s enforcement, if deemed necessary.

It is to be noted, that the Council has reached an agreement at technical level, which the Ministers support. This agreement unfortunately weakens the DAC7 proposal in certain key areas. These key areas, as enumerated below, should be left unchanged, as proposed by the European Commission:

- On joint audits, the Council’s agreement severely weakens the proposal on different fronts as put forward by the European Commission including the deletion of justified grounds for the rejection of a joint audit by competent authorities, the extension of several deadlines to respond, the deletion of the possibility for persons to request a joint audit and weakening the requirements for a final report;

- On “Reportable Sellers”, the Council proposes to add an arbitrary ceiling and threshold for activities of rental of immovable property;

- On the application of the provisions in the directive, the Council has proposed to delay it for an additional year. The Commission had proposed the directive to be applicable as of January 2022. The Council proposes now 2023 and even suggests a derogation for joint audits rules; these would only be applicable as of January 2024.

Finally, it is to be deplored that the Council will seemingly not consider the European Parliament’s views. These actions should be interpreted as going against the principles of
sincere cooperation, and the European Parliament’s role in a consultative process as stated in article 115 TFEU. In this context, it is worth reiterating the need to move to qualified majority in tax matters. The European Parliament’s role in scrutinising the design and implementation of the Directives on Administrative Cooperation on matters of taxation should be taken seriously.
