Text proposed by the Commission

(10) Regulation (EU) No 654/2014 of the European Parliament and of the Council¹⁷ lays down rules and procedures in order to ensure the exercise of the Union's rights under international trade agreements concluded by the Union. No rules and procedures exist for the treatment of goods and services not covered by such international agreements.

¹⁷ Regulation (EU) No 654/2014 of the European Parliament and of the Council of 15 May 2014 concerning the exercise of the Union's rights for the application and enforcement of international trade rules and amending Council Regulation (EC) No 3286/94 laying down Community procedures in the field of common commercial policy in order to ensure the exercise of the Community's rights under international trade rules, in particular those established under the auspices of the World Trade Organization (OJ L 189, 27.6.2014, p. 50.)

Amendment

(10) Regulation (EU) No 654/2014 of the European Parliament and of the Council⁴ lays down rules and procedures in order to ensure the exercise of the Union's rights under international trade agreements concluded by the Union. No **such** rules and procedures exist for the treatment of **economic operators**, goods and services not covered by such international agreements.

⁴ Regulation (EU) No 654/2014 of the European Parliament and of the Council of 15 May 2014 concerning the exercise of the Union's rights for the application and enforcement of international trade rules and amending Council Regulation (EC) No 3286/94 laying down Community procedures in the field of common commercial policy in order to ensure the exercise of the Community's rights under international trade rules, in particular those established under the auspices of the World Trade Organization (OJ L 189, 27.6.2014, p. 50.)

Amendment 9

Proposal for a regulation Recital 11

Text proposed by the Commission

Amendment

(11) *In the interest of legal certainty for Union and third-country economic operators, contracting authorities and contracting entities, the international market access commitments undertaken by the Union towards third countries in the field of public procurement and concessions should be reflected in the legal order of the EU, thereby ensuring effective application thereof.*

(11) International market access commitments undertaken by the Union towards third countries in the field of *procurement and concessions require, inter alia, the equal treatment of economic operators from those countries. Consequently, measures adopted under this Regulation can only apply to economic operators, goods or services from countries that are not parties to the plurilateral WTO Agreement on Government Procurement or to bilateral or multilateral trade agreements with the Union that include commitments on access to procurement and concessions markets, or from countries that are parties to such agreements but only regarding procurement procedures for goods, services or concessions that are not covered by those agreements. Irrespective of the application of measures adopted under this Regulation and in accordance with the European Commission's Communication of 24 July 2019 on “Guidance on the participation of third-country bidders and goods in the EU procurement market”^{1a} and Directives 2014/23/EU, 2014/24/EU and 2014/25/EU of the European Parliament and of the Council, economic operators from third countries which do not have any agreement providing for the opening of the EU procurement market or whose goods, services and works are not covered by such an agreement, do not have secured access to procurement procedures in the EU and could be excluded.*

Amendment 10

Proposal for a regulation Recital 12

Text proposed by the Commission

Amendment

(12) The *objectives of* improving the access of Union economic operators to the *public* procurement and concessions markets of certain third countries *protected by restrictive and discriminatory procurement measures or practices and of preserving equal conditions of competition within the internal market require to refer to the non-preferential rules of origin established in the EU customs legislation, so that contracting authorities and contracting entities know whether goods and services are covered by the international commitments of the Union.*

Amendment 12

Proposal for a regulation

Recital 14

Text proposed by the Commission

(14) The origin of a service should be determined on the basis of the origin of the natural or legal person providing it.

(12) The *effective application of any measure adopted under this Regulation with a view to* improving the access of Union economic operators to the procurement and concessions markets of certain third countries *requires a clear set of rules of origin for economic operators, goods and services.*

Amendment

(13) The origin of a good should be determined in accordance with Articles 59 to 62 of Regulation (EU) No 952/2013⁵ *of the European Parliament and of the Council.*

⁵ *Regulation (EU) No 952/2013 of the European Parliament and of the Council of 9 October 2013 laying down the Union Customs Code (OJ L 269, 10.10.2013, p. 1).*

Amendment

(14) The origin of a service should be determined on the basis of the origin of the natural or legal person providing it. *The origin of a legal person should be*

considered to be the country under the laws of which a legal person is constituted or organised and in the territory of which the legal person is engaged in substantive business operations. The criterion of substantive business operations should not allow the potential circumvention of any measure adopted under this Regulation by the creation of letterbox companies. The term ‘substantive business operations’ is a concept used in the WTO General Agreement on Trade in Services. In Union law it is equivalent to the term ‘effective and continuous link with the economy’ and is closely linked to the right of establishment set out in Article 49 of the Treaty on the Functioning of the European Union. The Commission regularly publishes guidelines based on the case law related to the right of establishment, addressing, inter alia, the concept of an effective or stable and continuous link with the economy. Article 86 of Directive 2014/25/EU also refers to the concept of a “direct and effective link with the economy” which is equivalent to the concept of ‘substantive business operations’.

Amendment

(17) When assessing whether *restrictive and/or discriminatory procurement* measures or practices exists in a third

(17) When assessing whether *specific* measures or practices exist in a third country *that could result in the*

country, the Commission should examine to what degree laws on **public** procurement and concessions of the country concerned ensure transparency in line with international standards **in the field of public procurement** and **preclude any discrimination** against Union goods, services **and** economic operators. In addition, it should examine to what degree individual contracting authorities or contracting entities maintain or adopt **discriminatory** practices against Union goods, services **and** economic operators.

impairment of access of Union goods, services or economic operators to the procurement or concession markets, the Commission should examine to what degree laws, **rules or other measures** on procurement and concessions of the country concerned ensure transparency in line with international standards, and **do not result in serious and recurring restrictions** against Union goods, services **or** economic operators. In addition, it should examine to what degree individual contracting authorities or contracting entities maintain or adopt **restrictive** practices against Union goods, services **or** economic operators.

Amendment 16

Proposal for a regulation Recital 19

Text proposed by the Commission

(19) The Commission should be able, **on its own initiative or at the application of interested parties or a Member State**, to initiate at any time an investigation into restrictive procurement measures or practices allegedly adopted or maintained by a third country. **Such investigative procedures should be without prejudice to Regulation (EU) No 654/2014 of the European Parliament and of the Council.**

Amendment

(19) The Commission should be able to initiate at any time **a transparent** investigation into restrictive or **discriminatory** procurement measures or practices allegedly adopted or maintained by a third country, **if it considers that such an investigation is in the interest of the Union.**

Amendment 17

Proposal for a regulation Recital 19 a (new)

Text proposed by the Commission

Amendment

(19a) The determination of whether an investigation is in the interest of the Union should be based on an appreciation of all the various interests taken as a whole, including the interests of the Union's industry, users, consumers,

workers and social partners. The Commission should weigh the consequences of starting or not starting an investigation against its impact, and the potential measures that could be adopted under this Regulation, in the Union's broader interests. The general objective of achieving reciprocity by opening third-country markets and improving market access opportunities for Union economic operators should be given special consideration, and in that context the presence of third country bidders on EU procurement market could be taken into account. The objective of limiting any unnecessary administrative burden for contracting authorities and contracting entities as well as economic operators should also be taken into account. The Commission should pay particular attention to sectors that are considered strategic in respect of EU public procurement.

Amendment 18

Proposal for a regulation Recital 19 b (new)

Text proposed by the Commission

Amendment

(19b) Given the overall policy objective of the Union to support the economic growth of least developed countries (LDCs), of low and lower-middle income countries, and their integration into global value chains, it would not be in the Union's interest to start an investigation against such countries under this Regulation, unless there are reasonable indications of circumvention of any adopted IPI measures. Consequently, this Regulation is not intended to apply to LDCs benefitting from the "Everything But Arms" arrangement, developing countries considered to be vulnerable due to a lack of diversification and insufficient integration within the international

trading system, as defined in Regulation (EU) No 978/2012, as well as to countries beneficiaries of the general arrangement referred to in that Regulation, unless the economy of such countries is considered to be competitive in the sectors concerned.

Amendment 19

Proposal for a regulation Recital 20

Text proposed by the Commission

(20) *If the existence of a restrictive and/or discriminatory procurement measure or practice in a third country is confirmed*, the Commission should invite the country concerned to enter into consultations with a view to improving the tendering opportunities for Union economic operators, goods and services *in respect of public* procurement in that country.

Amendment

(20) *When conducting the investigation*, the Commission should invite the *third* country concerned to enter into consultations with a view to *eliminating and remedying any restrictive measures or practices and effectively* improving the tendering opportunities for Union economic operators, goods and services *regarding* procurement *and concessions markets* in that country.

Amendment 20

Proposal for a regulation Recital 22

Text proposed by the Commission

(22) If the consultations with the country concerned do not lead to *sufficient* improvements to the tendering opportunities for Union economic operators, goods and services within a reasonable timeframe, the Commission should be able to adopt, *where appropriate, price adjustment measures applying to tenders submitted by economic operators originating in that country and/or including goods and services originating in that country.*

Amendment

(22) If *the investigation confirms the existence of restrictive measures or practices, and* the consultations with the country concerned do not lead to *satisfactory corrective actions that result in effectively remedying the serious and recurrent impairment of access* for Union economic operators, goods and services within a reasonable timeframe *or the third country concerned declines to enter into consultations*, the Commission should adopt, *under this Regulation, IPI measures in the form of a score adjustment or exclusion of tenders.*

Amendment 21

Proposal for a regulation Recital 23

Text proposed by the Commission

(23) Such measures should be applied only for the purpose of the evaluation of tenders comprising goods or services originating in the country concerned. To avoid circumvention of those measures, it may also be necessary to target certain foreign- controlled or owned legal persons that, although established in the European Union, are not engaged in substantive business operations that have a direct and effective link with the economy of at least one Member State. Appropriate measures should not be disproportionate to the restrictive procurement practices to which they respond.

Amendment

(23) A score adjustment measure should be applied only for the purpose of the evaluation of tenders submitted by economic operators originating in the country concerned. It should not affect the price actually due to be paid under the contract to be concluded with the successful tenderer.

Amendment 22

Proposal for a regulation Recital 23 a (new)

Text proposed by the Commission

Amendment

(23a) IPI measures should apply to procurement procedures falling under the scope of this Regulation, including framework agreements and dynamic purchasing systems. IPI measures should also apply in the case of specific contracts awarded under a dynamic purchasing system, where those dynamic purchasing systems are subject to an IPI measure. However, they should not apply to such contracts below a certain threshold with a view to limiting the overall administrative burden for contracting authorities and contracting entities. In order to avoid a possible double application of IPI measures, such measures should not apply to contracts awarded based on a

framework agreement, once IPI measures have already been applied at the stage of concluding that framework agreement.

Amendment 23

Proposal for a regulation Recital 23 b (new)

Text proposed by the Commission

Amendment

(23b) In light of the overall policy objective of the Union to support small and medium-sized enterprises (SMEs), the Commission and contracting authorities and contracting entities should duly consider the effects of this Regulation, with a view to preventing an overburdening of SMEs. The Commission in cooperation with the Member States should make available guidelines for best practices to achieve this objective, in order to ensure the efficiency of this Regulation and the consistency of its implementation.

Amendment 24

Proposal for a regulation Recital 23 c (new)

Text proposed by the Commission

Amendment

(23c) To avoid a possible circumvention of an IPI measure, additional contractual obligations should be imposed on successful tenderers. Those obligations should apply only in case of procurement procedures to which an IPI measure is applicable, as well as to contracts awarded based on a framework agreement where such contracts are equal to or above a certain threshold and when that framework agreement is subject to an IPI measure.

Amendment 25

Proposal for a regulation Recital 24

Text proposed by the Commission

Amendment

(24) Price adjustment measures should not have a negative impact on on-going trade negotiations with the country concerned. Therefore, where a country is engaging in substantive negotiations with the Union concerning market access in the field of public procurement, the Commission may suspend the measures during the negotiations. *deleted*

Amendment 26

Proposal for a regulation Recital 25

Text proposed by the Commission

Amendment

(25) In order to simplify the application of a price adjustment measure by contracting authorities or contracting entities, there should be a presumption that all economic operators originating in a targeted third country with which there is no agreement on procurement will be subject to the measure, unless they can demonstrate that less than 50% of the total value of their tender is made up of goods or services originating in the third country concerned. *deleted*

Amendment 27

Proposal for a regulation Recital 26

Text proposed by the Commission

Amendment

(26) Member States are best placed to identify the contracting authorities or contracting entities, or categories of *deleted*

contracting authorities or contracting entities, which should apply the price adjustment measure. To ensure that an appropriate level of action is taken and that a fair distribution of the burden among Member States is achieved, the Commission should take the final decision, based on a list submitted by each Member State. Where necessary, the Commission may establish a list on its own initiative.

Amendment 28

Proposal for a regulation Recital 27

Text proposed by the Commission

(27) It is imperative that contracting authorities and contracting entities have access to a range of high-quality products meeting their purchasing requirements at a competitive price. Therefore contracting authorities and contracting entities should be able *not to* apply *price adjustment* measures limiting access of non-covered goods and services *in case* there are no Union and/or covered goods or services available which meet the requirements of the contracting authority or contracting entity to *safeguard* essential public needs, for example *in the fields of health and public safety, or where the application of the measure would lead to a disproportionate increase in the price or costs of the contract.*

Amendment

(27) It is imperative that contracting authorities and contracting entities have access to a range of high-quality products meeting their purchasing requirements at a competitive price. Therefore, contracting authorities and contracting entities should be able, *on an exceptional basis, to not* apply *IPJ* measures limiting access of non-covered goods and services *where* there are no Union and/or covered goods or services available which meet the requirements of the contracting authority or contracting entity *or where such action relates to safeguarding* essential public *policy* needs, for example *regarding public health or protection of the environment.* *The application of these exceptions should require the approval of the Commission. The contracting authorities and contracting entities should notify the Commission in a timely and comprehensive manner to allow for the appropriate monitoring of the implementation of this Regulation.*

Amendment 29

Proposal for a regulation

Recital 28

Text proposed by the Commission

(28) In case of misapplication by contracting authorities or contracting entities of exceptions to **price adjustment** measures limiting access of non-covered goods and services, the Commission should be able to apply the corrective mechanism of Article 3 of Council Directive 89/665/EEC²⁰ or Article 8 of Council Directive 92/13/EEC²¹. In addition, contracts concluded with an economic operator by contracting authorities or contracting entities in violation of **price adjustment** measures limiting access of non-covered goods and services should be ineffective.

²⁰ Council Directive 89/665/EEC on the coordination of the laws, regulations and administrative provisions relating to the application of review procedures to the award of public supply and public works contracts (OJ L 395, 30.12.1989, p. 33).

²¹ Council Directive 92/13/EEC coordinating the laws, regulations and administrative provisions relating to the application of Community rules on the procurement procedures of entities operating in the water, energy, transport and telecommunications sectors (OJ L 76, 23.3.1992, p. 14).

Amendment 30

Proposal for a regulation

Recital 30

Text proposed by the Commission

(30) The examination procedure should be used for the adoption of implementing acts regarding the adoption, withdrawal, **or** suspension or reinstatement of **a the price adjustment** measure.

Amendment

(28) In case of misapplication by contracting authorities or contracting entities of exceptions to **IPI** measures limiting access of non-covered goods and services, the Commission should be able to apply the corrective mechanism of Article 3 of Council Directive 89/665/EEC²⁰ or Article 8 of Council Directive 92/13/EEC²¹. In addition, contracts concluded with an economic operator by contracting authorities or contracting entities in violation of **IPI** measures limiting access of non-covered goods and services should be ineffective.

²⁰ Council Directive 89/665/EEC on the coordination of the laws, regulations and administrative provisions relating to the application of review procedures to the award of public supply and public works contracts (OJ L 395, 30.12.1989, p. 33).

²¹ Council Directive 92/13/EEC coordinating the laws, regulations and administrative provisions relating to the application of Community rules on the procurement procedures of entities operating in the water, energy, transport and telecommunications sectors (OJ L 76, 23.3.1992, p. 14).

Amendment

(30) The examination procedure should be used for the adoption of implementing acts regarding the adoption, withdrawal, suspension or reinstatement of **an IPI** measure **and the Commission should be**

assisted by the Committee established by Regulation (EU) 2015/1843 of the European Parliament and of the Council²² (the “Trade Barriers Regulation”). If necessary and for matters affecting the Union’s legal framework on public procurement, the Commission should be able to also seek the advice of the Advisory Committee on Public Procurement established by Council Decision 71/306/EEC.

²² *Regulation (EU) 2015/1843 of the European Parliament and of the Council of 6 October 2015 laying down Union procedures in the field of the common commercial policy in order to ensure the exercise of the Union’s rights under international trade rules, in particular those established under the auspices of the World Trade Organization (OJ L 272, 16.10.2015, p. 1).*

Amendment

(30a) Information received pursuant to this Regulation should only be used for the purpose for which it was requested and with due respect to the applicable Union and national data protection and confidentiality requirements. Regulation (EC) No 1049/2001 as well as Article 28 of Directive 2014/23/EU, Article 21 of Directive 2014/24/EU and Article 39 of Directive 2014/25/EU, should apply accordingly.

Amendment 32

Proposal for a regulation Recital 32

Text proposed by the Commission

(32) **Regular reporting** by the Commission should **make it possible to monitor** the **application** and efficiency of **the procedures established** by this Regulation.

Amendment

(32) **In line with the Interinstitutional Agreement of 13 April 2016 on Better Law-Making^{1a} and with a view, inter alia, to reduce administrative burdens, in particular on Member States**, the Commission should **regularly review** the **scope, functioning** and efficiency of this Regulation. **The Commission should report on its assessment to the European Parliament and the Council. The review may be followed up by appropriate legislative proposals.**

Regulation 2018/46/EU of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union (hereinafter the Financial Regulation) provides that procurement rules and principles applicable to public contracts awarded by Union institutions on their own account should be based on the rules set out in the relevant EU acquis on public procurement. When reviewing the Financial Regulation, it is therefore appropriate to provide for the application of the IPI Regulation also to public contracts awarded by Union institutions.

Amendment 34

Proposal for a regulation Article 1 – paragraph 1

Text proposed by the Commission

1. This Regulation establishes measures intended to improve the access of Union economic operators, goods and services to the **public** procurement and concessions markets of third countries. It lays down procedures for the Commission to undertake investigations into alleged **restrictive and discriminatory procurement** measures or practices **adopted or maintained by third countries** against Union economic operators, goods and services, and to enter into consultations with the third countries concerned.

It provides for the possibility of applying price adjustment measures to certain tenders for contracts for the execution of works or a work, for the supply of goods and/or the provision of services and for concessions, on the basis of the origin of the economic operators, goods or services concerned.

Amendment 35

Proposal for a regulation Article 1 – paragraph 2 – introductory part

Amendment

1. This Regulation establishes measures intended to improve the access of Union economic operators, goods and services to the procurement and concessions markets of third countries, **regarding non-covered procurement**. It lays down procedures for the Commission to undertake investigations into alleged **third-country** measures or practices against Union economic operators, goods and services, and to enter into consultations with the third countries concerned.

This Regulation provides for the possibility for the Commission to impose IPI measures, by means of implementing acts, in relation to such third country measures or practices to restrict the access of economic operators, goods or services from third countries to Union procurement procedures.

Article 1 – paragraph 5 b (new)

Text proposed by the Commission

Amendment

5b. Contracting authorities and

contracting entities shall, in order to appropriately integrate environmental, social and labour requirements into public procurement and concession award procedures, take relevant measures to ensure that environmental, social and labour obligations resulting from laws, regulations or administrative provisions, at both Union and national level, as well as from collective agreements compatible with Union law, applicable to the procurement contract, are complied with. Equally, obligations stemming from international conventions ratified by all Member States and listed in Annex X to Directive 2014/23/EU, Annex X to Directive 2014/24/EU and Annex XIV to Directive 2014/25/EU shall apply during the execution of the contract.

Member States shall inform the Commission of any difficulties, in law or in fact, encountered and reported by their economic operators and which are due to the non-observance of the international environmental, social and labour law referred to in subparagraph 1, when those undertakings have tried to secure the award of contracts within the EU or in third countries.

Article 8 a

IPI measures

1. Where the Commission finds, following an investigation and consultations pursuant to Article 6, that a third-country measure or practice exists, it shall impose an IPI measure by means of an implementing act. An IPI measure shall only apply if the main object of the procurement procedure falls within the scope of the implementing act, as

specified in accordance with paragraph 7 point (a). The procurement procedure shall not be designed with the intention of excluding that procedure from the scope of this Regulation.

2. The IPI measure shall be determined on the basis of the following criteria, in light of available information:

(a) the proportionality of the IPI measure with regard to the third-country measure or practice;

(b) the availability of alternative sources of supply for the goods and services concerned, in order to avoid or minimise a significant negative impact on contracting authorities or contracting entities.

(c) the engagement of undertakings from the targeted third country in procurement activities in the internal market, benefiting from the lack of reciprocity.

3. The IPI measure shall only apply to procurement procedures with an estimated value of at least EUR 10 000 000 net of value-added tax for works and concessions, and of at least EUR 5 000 000 net of value-added tax for goods and services.

4. The IPI measure shall also apply in the case of specific contracts awarded under a dynamic purchasing system, where those dynamic purchasing systems are subject to the IPI measure, with the exception of specific contracts the estimated value of which is below the respective values set out in Article 8 of Directive 2014/23/EU, Article 4 of Directive 2014/24/EU and Article 15 of Directive 2014/25/EU.

The IPI measure shall not apply to procedures for the award of contracts based on a framework agreement. The IPI measure shall also not apply to individual lots to be awarded according to Article 5 (10) of Directive 2014/24/EU or Article 16

(10) of Directive 2014/25/EU.

5. In its implementing act, the Commission may decide, within the scope established in paragraph 7 of this Article, to restrict the access of operators, goods or services from third countries to procurement procedures by requiring contracting authorities or contracting entities to:

(a) impose a score adjustment measure on tenders submitted by economic operators originating in that third country;

(b) exclude tenders submitted by economic operators originating in that third country; or

(c) impose a combination of (a) and (b), if different sectors or categories of goods and services are subject to IPI measures.

6. The score adjustment measure referred to in paragraph 5 point (a) shall apply only for the purpose of the evaluation and ranking of the tenders. It shall not affect the price due to be paid under the contract to be concluded with the successful tenderer.

7. The implementing act, adopted in accordance with Article 14(2), shall specify the scope of application of the IPI measure, including:

(a) the sectors or the categories of goods, services and concessions based on the Common Procurement Vocabulary as well as any applicable exceptions;

(b) specific categories of contracting authorities or contracting entities;

(c) specific categories of economic operators;

(d) as regards the score adjustment measure referred to in paragraph 5 point (a), the percentage value of the adjustment, set up to 100% of the evaluation score of the tender depending on the third country and sector of goods,

services, works or concessions envisaged.

8. *When determining the IPI measure based on the options under points (a), (b) or (c) of paragraph 5, the Commission shall opt for the kind of measure that would most effectively remedy the level of impairment of EU operators on third country markets.*

9. *The Commission may either withdraw the IPI measure or suspend its application if the third country takes satisfactory corrective actions remedying the impairment of access of Union goods, services or economic operators to its procurement or concession markets, or if it undertakes commitments to end the measure or practice in question. If the Commission considers that the corrective actions or commitments undertaken have been rescinded, suspended or improperly implemented, it shall make publicly available its findings and reinstate the application of the IPI measure at any time. The Commission may withdraw, suspend or reinstate an IPI measure in accordance with the examination procedure referred to in Article 14(2) and followed by the publication of a notice in the Official Journal of the European Union.*

10. *An IPI measure shall expire five years from its entry into force. An IPI measure may be extended for a duration of five years. Nine months before the date of expiry of the IPI measure, the Commission, at its own initiative, shall initiate a review of the IPI measure in question by publishing a notice in the Official Journal of the European Union. Such a review shall be concluded within six months. Following such a review, the Commission may extend the duration of the IPI measure, adjust it appropriately or replace it by a different IPI measure.*

Additional contractual obligations upon the successful tenderer

1. In the case of procurement procedures to which an IPI measure is applicable, as well as in the case of contracts awarded based on a framework agreement where the estimated value of those contracts is equal or above the values set out in Article 8 of Directive 2014/23/EU, Article 4 of Directive 2014/24/EU and Article 15 of Directive 2014/25/EU, respectively, and where those framework agreements were subject to the IPI measure, contracting authorities and contracting entities shall also include, among the conditions of the contract with

the successful tenderer:

(a) an obligation not to subcontract, including through the delivery of goods and parts, more than 25% of the total value of the contract to economic operators originating in a third country which is subject to an IPI measure;

(b) for contracts whose subject matter covers the supply of goods, a commitment that, for the duration of the contract, goods supplied and/or services provided in the execution of the contract and originating in a third country which is subject to the IPI measure represent no more than 25% of the total value of the contract, whether such goods and/or services are supplied or provided directly by the tenderer or by a subcontractor;

(c) an obligation to provide, upon request, adequate evidence corresponding to points (a) or (b) to the contracting authority or the contracting entity at the latest upon completion of the execution of the contract;

(d) a proportionate charge, in case of non-observance of the commitments referred in points (a) or (b) of 25% of the total value of the contract.

2. For the purposes of paragraph 1 point (c), it is sufficient to provide evidence that more than 75% of the total value of the contract originates in countries other than the third country subject to the IPI measure. The contracting authority or contracting entity shall request evidence in case of reasonable indications of non-compliance with points (a) or (b) of paragraph 1 or if the contract is awarded to a group of economic operators comprising a legal person originating in a third country subject to an IPI measure.

3. For tenders submitted by autonomous SMEs, as defined in the Commission Recommendation 2003/361/EC, originating in the Union or in a third country with which the Union

has concluded an international agreement in the field of procurement, the Commission and the Member States shall make available guidelines for best practices to ensure the efficiency of this Regulation and the consistency of its implementation. Those guidelines shall take into account, in particular, the information needs of SMEs.

4. Contracting authorities and contracting entities shall include a reference to the additional conditions laid down in this Article in the documents for procurement procedures to which an IPI measure is applicable.
