(38) Regulation (EU, Euratom) No 1141/2014 acknowledges only two categories of revenues for European political parties and ***European political*** foundations apart from contributions from the budget of the European Union, namely contributions ***or association fees*** from members and donations. A number of revenue sources generated from own

publications or conference fees) fall outside the scope of *these* two categories, creating accounting and transparency problems. A third category of revenues ('own resources') should therefore be created. The proportion of own resources in the total budget of a European political party or *foundations* should be capped at **5% to avoid** that it *becomes overdimensioned in relation* to the overall budget of these entities.

economic activities (such as sales of publications or conference *or workshop* fees) fall outside the scope of *those* two categories, creating accounting and transparency problems. A third category of revenues ('*ancillary* own resources') should therefore be created. The proportion of *ancillary* own resources in the total budget of a European political party or *of a European political foundation* should be capped at **10 % of the amount generated by contributions and association fees so** that it *remains proportionate* to the overall budget of these entities.

(39) In order to reach out to their members and constituencies across the Union, European political parties should have the right to use their funding for cross-border political campaigns. The funding and limitation of election expenses for parties and candidates in those campaigns should be governed by the rules applicable in each Member State.

Amendment

(39) In order to reach out to their members and constituencies across the Union, European political parties should have the right to use their funding for cross-border political campaigns, *such as referendum campaigns and campaigns conducted in the context of elections to the European Parliament, including by setting up and promoting Union-wide lists of candidates in such elections*. The funding and limitation of election expenses for parties and candidates in those campaigns should be governed by the rules applicable in each Member State.

Amendment 7

Proposal for a regulation Recital 41

Text proposed by the Commission

(41) European political parties should not *fund, directly or indirectly*, other political *parties* and, in particular, national *parties*

Amendment

(41) European political parties *and European political foundations* should not *use funding received from the general*

or candidates. European political foundations should not fund, directly or indirectly, European or national political parties or candidates. The prohibition of indirect funding should however not prevent European political parties from publicly supporting and engaging with their member parties in the Union on issues of relevance for the Union, or to support political activities in the common interest, to be able to fulfil their mission under Article 10(4) TEU. Moreover, European political parties and their affiliated European political foundations should only finance activities in the context of national referendum campaigns when they concern the implementation of the TEU and the TFEU . These principles reflect Declaration No 11 on Article 191 of the Treaty establishing the European Community annexed to the Final Act of the Treaty of Nice.

budget of the European Union for the direct or indirect funding of other political entities and, in particular, national parties or candidates. The prohibition of indirect funding should however not prevent European political parties or European political foundations from publicly supporting and engaging with their member parties or member organisations in the Union on issues of relevance for the Union, from supporting political activities in the common interest, or from engaging in educational activities, in order to be able to fulfil their mission under Article 10(4) TEU and to reinforce the European demos. The prohibition of indirect funding should not prevent representatives and staffers of political parties, or of potentially politically active persons, from participating in events of European political foundations. However, European political foundations should not engage in the training of political candidates in the six months before national or European elections. Moreover, European political parties should only finance activities in the context of national referendum campaigns when they concern issues directly related to the Union. These principles reflect Declaration No 11 on Article 191 of the Treaty establishing the European Community annexed to the Final Act of the Treaty of Nice.

Amendment

(50) It is necessary to establish a common repository for the disclosures of European political parties. Given its specific role in the implementation of this Regulation, the Authority should establish and manage such repository as a part of the Registry for European political parties. The information

contained in the repository should be transmitted by European Political Parties to the Authority using a standard format and may be automated. European political parties should make available in the Authority's repository information to enable the wider context of the political advertisement **and its aims** to be understood. The information on the amount allocated to political advertising in the context of a specific campaign to be included in the repository may be based on **an estimated allocation** of funding. The amounts to be mentioned in the repository include donations for specific purposes **or** benefits in kind.

contained in the repository should be transmitted by European Political Parties to the Authority using a standard format and may be automated. European political parties should make available in the Authority's repository information to enable the wider context **and objectives** of the political advertisement to be understood **by citizens**. The information on the amount allocated to political advertising in the context of a specific campaign to be included in the repository may be based on **a realistic estimate** of funding **and the actual amounts, once known**. The amounts to be mentioned in the repository include donations for specific purposes, benefits in kind, **contributions, association fees and ancillary own resources**.

Justification

This change aims at aligning the recital with Annex II - paragraph 1 - indent 2 regarding the disclosure of the actual amounts. In addition, other own resources are a new source of funding and should be reported, along with contributions, association fees, donations and benefits in kinds. The proposed terms "association fees" and "other own resources" apply throughout the text. Adopting the amendment will necessitate corresponding changes throughout.

Verification of the registration conditions relating to the values upon which the Union is founded

1. The European Parliament, acting on its own initiative or following a reasoned request from a group of citizens, submitted in accordance with the relevant provisions of its Rules of Procedure, or the Council or the Commission, may lodge with the Authority a request to verify whether a specific European political party or European political foundation complies with the conditions laid down in Article 3(1), points (d) and (e), and Article 3(2), points (c) and (d). In such cases, and in the cases referred to in Article 11b(2), the Authority shall inform the European political party or European political foundation concerned without undue delay, invite it to submit its observations and give it the opportunity to

introduce measures to remedy the situation within one month.

The period may be extended by the Authority upon the reasoned request of the European political party or European political foundation concerned if an extension is necessary and appropriate with regard to the corrective measures envisaged by the European political party or European political foundation.

Upon the expiry of the period mentioned in the first and second subparagraphs or upon receipt of any observations and information concerning corrective measures from the European political party or European political foundation concerned within that period, the Authority shall submit the observations made by the European political party or European political foundation concerned and, where applicable, the description of the corrective measures taken by that party or foundation to the committee of independent eminent persons referred to in Article 14, and shall ask this committee for an opinion on the subject. The committee shall give its opinion within two months.

Where facts which cast doubt on the compliance by a specific European political party or European political foundation with the conditions laid down in Article 3(1), points (d) and (e), and Article 3(2), points (c) and (d), come to the attention of the Authority, the Authority shall inform the European Parliament, the Council and the Commission with a view to allowing any of them to lodge a request for verification as referred to in the first subparagraph. Without prejudice to the first subparagraph, the European Parliament, the Council and the Commission shall declare their intention to lodge a request for verification within two months of receiving that information.

2. The procedures laid down in paragraph 1 shall not be initiated within a

period of two months prior to elections to the European Parliament.

3. The Authority shall decide whether to deregister the European political party or European political foundation concerned, taking into account the opinion of the committee of independent eminent persons referred to in Article 14. The decision of the Authority shall be duly reasoned.

4. A decision of the Authority to deregister on grounds of non-compliance with the conditions set out in Article 3(1), point (d) or (e), or Article 3(2), point (c) or (d), shall only be adopted in the event of a manifest and serious breach of those conditions. The decision shall be subject to the procedure set out in paragraph 5.

5. A decision of the Authority to deregister a European political party or European political foundation on the ground of a manifest and serious breach of the conditions set out in Article 3(1), point (d) or (e), or Article 3(2), point (c) or (d), shall be communicated to the European Parliament and the Council. The decision shall enter into force only if no objection is made by the European Parliament and the Council within a period of three months of the communication of the decision to them or if, before the expiry of that period, the European Parliament and the Council have both informed the Authority that they will not object. In the event of an objection by the European Parliament and by the Council, the European political party or European political foundation shall remain registered.

6. The European Parliament and the Council may only object to a decision of the Authority to deregister a European political party or European political foundation on grounds related to the assessment of compliance with the conditions for registration set out in Article 3(1), point (d) or (e), or Article

3(2), point (c) or (d).

Article 11b

Verification of obligations under national law

1. If a European political party or a European political foundation has failed to fulfil relevant obligations under national law applicable pursuant to Article 17(2), first subparagraph, and if, in the light of the freedom of association enshrined in Article 12 of the Charter and the need to ensure pluralism of political parties in Europe, that failure is serious enough to justify its deregistration, the Member State of the seat of the European political party or European political foundation may address a request for

deregistration to the Authority. That request shall be duly reasoned. In particular, it shall identify precisely and exhaustively the illegal actions and the specific national requirements that have not been complied with.

If the subject matter of the Member States' request relates exclusively or predominantly to elements affecting respect for the values upon which the Union is founded, enshrined in Article 2 TEU, the Authority shall initiate a verification procedure in accordance with Article 11a.

For any other matter, where, in its request pursuant to the first subparagraph, the Member State confirms that an effective remedy against such a request exists at national level and all remedies concerning such a request have been exhausted, the Authority shall, after hearing the representative of the European political party or European political foundation concerned, assess whether the deregistration ground under Article 19(1), point (d), applies to the European political party or European political foundation concerned.

2. If a European political party or a European political foundation has seriously failed to fulfil relevant obligations under national law applicable pursuant to Article 17(2), second subparagraph, and if the matter relates exclusively or predominantly to elements affecting respect for the values upon which the Union is founded, enshrined in Article 2 TEU, the Member State concerned may address a request to the Authority in accordance with the provisions of paragraph 1, first subparagraph. The Authority shall proceed in accordance with paragraph 1, second subparagraph.

3. In all cases, the Authority shall act without undue delay. The Authority shall inform the Member State concerned and the European political party or European

political foundation concerned of the effect that was given to the reasoned request for deregistration.
