Report
Dolors Montserrat
COVID-19 pandemic: lessons learned and recommendations for the future
(2022/2076(INI))

Motion for a resolution
Paragraph 225

225. Highlights that patients with CDs and NCDs suffered heavy consequences for their health owing to delays and disruptions in diagnostics and treatments, particularly for HIV, sexually transmitted diseases, tuberculosis, hepatitis, cancer, cardiovascular diseases, diabetes and rare diseases; stresses the decreased survival chances, complications and further deterioration of quality of life for patients resulting from delayed access to care; calls for the adoption of an EU strategy to anticipate and monitor the impact of serious health threats on people affected by CDs, NCDs and other diseases or conditions;

José Ramón Bauzá Díaz  
on behalf of the Renew Group

Report  
Dolors Montserrat  
COVID-19 pandemic: lessons learned and recommendations for the future  
(2022/2076(INI))

Motion for a resolution  
Paragraph 342 a (new)

342a. Recognises the advantages of the EU Digital COVID-19 Certificate (EU DCC), which is based on open-source technologies and standards, allowed for the connection of non-EU countries and facilitated travel both within the EU and globally; acknowledges that a global system established by the WHO could be of assistance in addressing future global health threats; insists on the full involvement of Parliament, as a co-legislator, when establishing such a future system on the basis of the EU DCC framework; expects the Commission to put forward an appropriate legislative proposal should a future pandemic so require; recalls the clear time limit for the use of the EU DCC in the EU as a result of the establishment of a sunset clause; regrets that the Commission has unilaterally decided to single out the matter of infrastructure, which is politically connected to the original EU DCC Regulation; reiterates this demand for future EU and global systems; calls for any future system to respect the principles of proportionality, subsidiarity and necessity;

Report
Dolors Montserrat
COVID-19 pandemic: lessons learned and recommendations for the future (2022/2076(INI))

Motion for a resolution
Paragraph 562

Motion for a resolution

562. Calls on the Commission and the Member States to advocate, in the WHO’s Pandemic Treaty, building collaborative predictive epidemic intelligence systems (at national, regional and global level) in order to identify high-risk interfaces and hotspots for spillover, incorporating relevant environmental and climate data and data on the establishment of reservoirs and vector species in new geographic areas;

Amendment

562. Calls on the Commission and the Member States to advocate, in the WHO’s Pandemic Accord, building collaborative predictive epidemic intelligence systems (at national, regional and global level) in order to identify high-risk interfaces and hotspots for spillover, incorporating relevant environmental and climate data and data on the establishment of reservoirs and vector species in new geographic areas;
