Report
Dolors Montserrat
COVID-19 pandemic: lessons learned and recommendations for the future
(2022/2076(INI))

Motion for a resolution
Paragraph 41

41. **Acknowledges that COVID-19 has laid bare the ways in which the market-driven model of drug development and production can work against the equitable and affordable distribution of emergency medical products;** notes with concern the lack of preconditions attached to public investments in the COVID-19 vaccines, as well as medicine development that could have facilitated greater public returns on public investments;

41. **Notes with concern the lack of preconditions attached to public investments in the COVID-19 vaccines, as well as medicine development that could have facilitated greater public returns on public investments;**
Motion for a resolution
Paragraph 168

168. Encourages better data sharing on supply and demand forecasts between relevant stakeholders, earlier projections on potential shortages, including regular standardised reporting from the industry, and greater transparency in the production and distribution chain; recalls that while pricing is a national competence, it should be based on fully transparent factors, such as the real costs of public and private R&D and added therapeutic value; urges the adoption of a coordinated industrial approach to strengthen the EU’s strategic autonomy on health;

Amendment

168. Encourages better data sharing on supply and demand forecasts between relevant stakeholders, earlier projections on potential shortages, including regular standardised reporting from the industry, and greater transparency in the production and distribution chain; recalls that while pricing is a national competence, it should be based on fully transparent factors, such as the real costs of public and private R&D and added therapeutic value; urges the adoption of a coordinated industrial approach to strengthen the EU’s strategic autonomy on health;

Motion for a resolution
Paragraph 169

Motion for a resolution

169. Calls on the Commission and the Member States to create a large-scale, mission-oriented, public European health R&D infrastructure that operates in the public interest to manufacture medicinal products of health and strategic importance for healthcare, in the absence of existing industrial production, in order to support the EU in overcoming market failure, guaranteeing security of supply and preventing possible shortages of medicines, while contributing to greater preparedness for facing new health threats and emergencies;

Amendment

169. Calls on the Commission and the Member States to assess the need for a large-scale, mission-oriented, public European health R&D infrastructure that operates in the public interest to manufacture medicinal products of health and strategic importance for healthcare, in the absence of existing industrial production, in order to support the EU in overcoming market failure, guaranteeing security of supply and preventing possible shortages of medicines, while contributing to greater preparedness for facing new health threats and emergencies;

Report
Dolors Montserrat
COVID-19 pandemic: lessons learned and recommendations for the future
(2022/2076(INI))

Motion for a resolution
Paragraph 401

401. Welcomes the measures and instruments that followed, with the development of SURE, the RRF and NextGenerationEU, to which the EU committed EUR 800 billion for grants and loans; underlines that the RRF and SURE were instrumental in mitigating the economic and social impact of the pandemic in keeping our citizens at work; recognises however, the need to move towards structural financial support measures in the long term, and in particular the importance of an instrument for unemployed workers, such as SURE, that remains in use for the duration of the current exceptional situation and continues to be based on loans and quickly activated in the event of new external financial or economic shocks;

Amendment
401. Welcomes the measures and instruments that followed, with the development of SURE, the RRF and NextGenerationEU, to which the EU committed EUR 800 billion for grants and loans; underlines that the RRF and SURE were instrumental in mitigating the economic and social impact of the pandemic in keeping our citizens at work; recognises the importance of an instrument for unemployed workers, such as SURE, that remains in use for the duration of the current exceptional situation and continues to be based on loans and quickly activated in the event of new external financial or economic shocks;
