

Plenary sitting

A9-0327/2023

31.10.2023

REPORT

on the proposal for a Council directive amending Directive 2006/112/EC as regards VAT rules for the digital age
(COM(2022)0701 – C9-0021/2023 – 2022/0407(CNS))

Committee on Economic and Monetary Affairs

Rapporteur: Olivier Chastel

Symbols for procedures

- * Consultation procedure
- *** Consent procedure
- ***I Ordinary legislative procedure (first reading)
- ***II Ordinary legislative procedure (second reading)
- ***III Ordinary legislative procedure (third reading)

(The type of procedure depends on the legal basis proposed by the draft act.)

Amendments to a draft act

Amendments by Parliament set out in two columns

Deletions are indicated in ***bold italics*** in the left-hand column. Replacements are indicated in ***bold italics*** in both columns. New text is indicated in ***bold italics*** in the right-hand column.

The first and second lines of the header of each amendment identify the relevant part of the draft act under consideration. If an amendment pertains to an existing act that the draft act is seeking to amend, the amendment heading includes a third line identifying the existing act and a fourth line identifying the provision in that act that Parliament wishes to amend.

Amendments by Parliament in the form of a consolidated text

New text is highlighted in ***bold italics***. Deletions are indicated using either the ***■*** symbol or strikeout. Replacements are indicated by highlighting the new text in ***bold italics*** and by deleting or striking out the text that has been replaced.

By way of exception, purely technical changes made by the drafting departments in preparing the final text are not highlighted.

PROCEDURE – COMMITTEE RESPONSIBLE	57
FINAL VOTE BY ROLL CALL IN COMMITTEE RESPONSIBLE	58

DRAFT EUROPEAN PARLIAMENT LEGISLATIVE RESOLUTION

on the proposal for a Council directive amending Directive 2006/112/EC as regards VAT rules for the digital age
(COM(2022)0701 – C9-0021/2023 – 2022/0407(CNS))

(Special legislative procedure – consultation)

The European Parliament,

- having regard to the Commission proposal to the Council (COM(2022)0701),
 - having regard to Article 113 of the Treaty on the Functioning of the European Union, pursuant to which the Council consulted Parliament (C9-0021/2023),
 - having regard to Rule 82 of its Rules of Procedure,
 - having regard to the report of the Committee on Economic and Monetary Affairs (A9-0327/2023),
1. Approves the Commission proposal as amended;
 2. Calls on the Commission to alter its proposal accordingly, in accordance with Article 293(2) of the Treaty on the Functioning of the European Union;
 3. Calls on the Council to notify Parliament if it intends to depart from the text approved by Parliament;
 4. Asks the Council to consult Parliament again if it intends to substantially amend the Commission proposal;
 5. Instructs its President to forward its position to the Council, the Commission and the national parliaments.

Amendment 1

Proposal for a directive
Recital 1 a (new)

Text proposed by the Commission

Amendment

(1a) The package ‘VAT in the Digital Age’, of which this Directive forms a part, aims to respect the principle of proportionality as regards, on the one hand, the objective of combating fraud and, on the other hand, the difficulties

that might arise in the application of the proposed rules for companies, especially for SMEs and micro-undertakings, in terms of the day-to-day running of businesses, and also for national authorities. The new VAT obligations resulting from the reform should be simple, clear, effective and balanced for all parties involved in order to work in practice for businesses and administrative authorities.

Amendment 2

Proposal for a directive Recital 1 b (new)

Text proposed by the Commission

Amendment

(1b) The package ‘VAT in the Digital Age’ aims to ensure full respect of the fundamental rights to privacy and personal data protection, as well as the applicability of Regulations (EU) 2016/679^{1a} and (EU) 2018/1725^{1b} of the European Parliament and of the Council to the processing of personal data. The information collected should only be able to be processed for the purpose of combating fraud by the competent tax authorities.

^{1a} Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p. 1).

^{1b} Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union

institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC (OJ L 295, 21.11.2018, p. 39).

Amendment 3

Proposal for a directive Recital 1 c (new)

Text proposed by the Commission

Amendment

(1c) The Commission should ensure that taxpayers' rights are respected given the fact that tax authorities will have access to vast amounts of data, including from algorithmic data analysis systems. The use of new technologies should respect Union values, human rights and primary law.

Amendment 4

Proposal for a directive Recital 1 d (new)

Text proposed by the Commission

Amendment

(1d) The collection of individuals' personal data should not under any circumstances infringe the right to privacy of individuals. Otherwise, it would be considered to be equivalent to unlawful surveillance. Information contained in invoices might reveal sensitive information concerning specific natural persons, such as information concerning purchased goods (including intimate products), travel arrangements or legal services.

Amendment 5

Proposal for a directive Recital 2

Text proposed by the Commission

(2) The VAT reporting obligations should be adapted to address the challenges of the platform economy **and** to reduce the need for multiple VAT registrations in the Union.

Amendment

(2) The VAT reporting obligations should be adapted to address the challenges of the platform economy, to reduce the need for multiple VAT registrations in the Union **and to significantly reduce compliance costs for taxpayers, namely SMEs, in order to ensure a level playing field and the proper functioning of the internal market.**

Amendment 6

**Proposal for a directive
Recital 3**

Text proposed by the Commission

(3) VAT revenue loss, known as the ‘VAT Gap’, was in 2020 estimated at EUR 93 billion⁶¹ in the Union, a significant part of which consists of fraud, in particular missing trader intra-Community fraud⁶², estimated in the range of EUR 40-60 billion⁶³. ***In the final report of the Conference on the Future of Europe citizens call for ‘Harmonizing and coordinating tax policies within the Member States of the EU in order to prevent tax evasion and avoidance’, ‘Promoting cooperation between EU Member States to ensure that all companies in the EU pay their fair share of taxes’. The VAT in the Digital Age initiative is consistent with these goals.***

Amendment

(3) VAT revenue loss, known as the ‘VAT Gap’, was in 2020 estimated at EUR 93 billion⁶¹ in the Union, a significant part of which consists of fraud, in particular missing trader intra-Community fraud⁶², estimated in the range of EUR 40-60 billion⁶³. ***The current VAT gap demonstrates the need to tackle VAT cross-border fraud and carousel fraud through the proper implementation of efficient exchange of information mechanisms and of adequate means for such exchange, including human, financial, technical and technological means. Moreover, the magnitude of the VAT gap value differs significantly from one Member State to another and it is therefore important to enhance cooperation and coordination at the Union level.***

⁶¹ The VAT Gap is the overall difference between the expected VAT revenue based on VAT legislation and ancillary regulations and the amount actually collected:

https://ec.europa.eu/taxation_customs/busi

⁶¹ The VAT Gap is the overall difference between the expected VAT revenue based on VAT legislation and ancillary regulations and the amount actually collected:

Amendment 7

Proposal for a directive Recital 3 a (new)

Text proposed by the Commission

Amendment

(3a) The VAT gap feeds the lack of trust between Union tax authorities and represents much more than just missing trader intra-Community (MTIC) fraud. The best way to fight against MTIC, including carousel fraud, would be to remove the VAT exemption for intra-Community supplies of goods and services, since that type of fraud is for the most part due to a break in the fractioned collection of VAT. In order to better circumscribe the fight against VAT fraud, the Commission should undertake further analysis as to how the implementation of this Directive could lay the groundwork for the removal of the VAT exemption for intra-Community supplies of goods and services (i.e. the ‘definitive VAT system’).

Amendment 8

Proposal for a directive Recital 3 b (new)

Text proposed by the Commission

Amendment

(3b) The collection of data for international trade statistics (Intrastat) in

the context of intra-Community transactions is an essential tool for the tax administrations of the Member States in the fight against VAT fraud and should be maintained.

Amendment 9

Proposal for a directive Recital 3 c (new)

Text proposed by the Commission

Amendment

(3c) The VAT exemption for intra-Community supplies of goods and services could increase the possibility of fraud, especially at retail level.

Amendment 10

Proposal for a directive Recital 4

Text proposed by the Commission

Amendment

(4) In order to increase tax collection on cross-border transactions and to end the existing fragmentation stemming from Member States' implementation of divergent reporting systems, rules should be laid down for Union digital reporting requirements. Such rules should provide information to tax administrations on a transaction-by-transaction basis, in order to allow cross matching of data, increase the control capabilities of tax administrations and create a deterrent effect on non-compliance, while reducing compliance costs for businesses operating in different Member States and eliminating barriers within the internal market.

(4) In order to increase tax collection on cross-border transactions and to end the existing fragmentation stemming from Member States' implementation of divergent reporting systems, ***resulting in a significant burden on businesses and ineffective cross-border controls***, rules should be laid down for Union digital reporting requirements. Such rules should provide information to tax administrations on a transaction-by-transaction basis, in order to allow cross matching of data, increase the control capabilities of tax administrations and create a deterrent effect on non-compliance, while reducing compliance costs for businesses operating in different Member States and eliminating barriers within the internal market.

Amendment 11

Proposal for a directive
Recital 4 a (new)

Text proposed by the Commission

Amendment

(4a) VAT fraud is often linked with organised crime and a very small number of those organised networks can be responsible for cross-border VAT fraud amounting to billions of euro, affecting not only revenue collection in Member States but also having a negative impact on the Union's own resources. Therefore, Member States have a shared responsibility for the protection of the VAT revenue of all Member States.

Amendment 12

Proposal for a directive
Recital 4 b (new)

Text proposed by the Commission

Amendment

(4b) The Commission will ensure that digital reporting requirements take into account the experience gained in certain Member States which have already invested in digital invoicing and reporting, so that existing investments in those Member States are not lost and all stakeholders can benefit.

Amendment 13

Proposal for a directive
Recital 4 c (new)

Text proposed by the Commission

Amendment

(4c) Digital reporting requirements that aim to provide information to tax authorities on a transaction-by-transaction basis should be fair, achievable and balanced, in accordance with the principle of proportionality. The reliability of technological solutions for

detecting fraud should result in increased legal certainty for taxpayers.

Amendment 14

Proposal for a directive Recital 5

Text proposed by the Commission

(5) To facilitate the automation of the reporting process for both taxable persons and tax administrations, the transactions to be reported to tax administrations should be documented electronically. The use of electronic invoicing **should** become the default system for issuing invoices. Nevertheless, Member States should be allowed to authorise other means for domestic supplies. The issuance of electronic invoices by the supplier and its transmission to the customer should not be conditional on a prior authorisation or verification by the tax administration.

Amendment

(5) To facilitate the automation of the reporting process for both taxable persons and tax administrations, the transactions to be reported to tax administrations should be documented electronically. The use of electronic invoicing **could** become the default system for issuing invoices. Nevertheless, Member States should be allowed to authorise other means for domestic supplies. The issuance of electronic invoices by the supplier and its transmission to the customer should not be conditional on a prior authorisation or verification by the tax administration **as of 1 January 2028**.

Amendment 15

Proposal for a directive Recital 6

Text proposed by the Commission

(6) The definition of an electronic invoice should be aligned with that used in Directive 2014/55/EU of the European Parliament and the Council⁶⁴, to achieve standardisation in the area of VAT reporting.

Amendment

(6) ***At the end of the transitional period***, the definition of an electronic invoice should be aligned with that used in Directive 2014/55/EU of the European Parliament and the Council⁶⁴, to achieve standardisation in the area of VAT reporting. ***However, businesses, in particular micro-undertakings and small undertakings as defined in Directive 2013/34/EU^{64a} and non-profit entities, should remain free to adopt other standards in line with Article 217 of Directive 2006/112/EC.***

⁶⁴ Directive 2014/55/EU of the European Parliament and of the Council of 16 April 2014 on electronic invoicing in public procurement (OJ L 133, 6.5.2014, p. 1).

⁶⁴ Directive 2014/55/EU of the European Parliament and of the Council of 16 April 2014 on electronic invoicing in public procurement (OJ L 133, 6.5.2014, p. 1).

^{64a} ***Directive 2013/34/EU of the European Parliament and of the Council of 26 June 2013 on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings, amending Directive 2006/43/EC of the European Parliament and of the Council and repealing Council Directives 78/660/EEC and 83/349/EEC (OJ L 182, 29.6.2013, p. 19).***

Amendment 16

Proposal for a directive Recital 6 a (new)

Text proposed by the Commission

Amendment

(6a) In order to help businesses and tax administrations, the content of the European electronic invoicing standard should be made accessible, simple and clear, in particular by publishing on the Commission's website all relevant information relating to that standard. Given the fact that the European electronic invoicing standard referred to in Directive 2014/55/EU is adapted to a 'business to government' (B2G) context, its evolution should be planned to take into account 'business to business' (B2B) needs.

Amendment 17

Proposal for a directive Recital 7

Text proposed by the Commission

Amendment

(7) For the VAT reporting system to be

(7) For the VAT reporting system to be

implemented in an efficient manner, it is necessary that the information reaches the tax administration without delay. Therefore, the deadline for the issuance of an invoice for cross-border transactions should be set at **2** working days after the chargeable event has taken place.

implemented in an efficient manner, it is necessary that the information reaches the tax administration without delay. Therefore, the deadline for the issuance of an invoice for cross-border transactions should be set at **8** working days after the chargeable event has taken place. ***The limitation periods for the prosecution of VAT fraud should be adjusted accordingly.***

Amendment 18

Proposal for a directive Recital 9

Text proposed by the Commission

(9) The implementation of the electronic invoice as the default method for documenting transactions for VAT purposes would not be possible if the use of the electronic invoice remains subject to the acceptance by the recipient. Therefore, ***such an*** acceptance should no longer be required ***for the issuance of electronic invoices.***

Amendment

(9) The implementation of the electronic invoice as the default method for documenting transactions for VAT purposes would not be possible if the use of the electronic invoice remains subject to the acceptance by the recipient. Therefore, ***the acceptance by the recipient*** should no longer be required ***as of 1 January 2028.***

Amendment 19

Proposal for a directive Recital 10 a (new)

Text proposed by the Commission

Amendment

(10a) Summary invoices save time and costs and reduce the administrative burden related to invoicing. Moreover, they reduce the possibility of errors and simplify the work for suppliers and customers thanks to simplified record keeping. However, they could also be misused for fraud. Therefore, summary invoices should be maintained only for business to business transactions and should only cover a limited period of time.

Amendment 20

Proposal for a directive Recital 12

Text proposed by the Commission

(12) In order to facilitate for taxable persons the transmission of the invoice data, Member States should put at the disposal of the taxable persons the necessary means for such transmission, which should allow that the data is sent by the taxable person directly or by a third party on that taxable person's behalf.

Amendment

(12) ***The growing flow of information exchanged daily requires high-performance computer software capable of transmitting the information continuously to national administrations in a secure manner.*** In order to facilitate for taxable persons the transmission of the invoice data, Member States should put at the disposal of the taxable persons, ***and in particular of micro-undertakings and small undertakings as defined in Directive 2013/34/EU and non-profit entities,*** the necessary means for such transmission, which should allow that the data is sent by the taxable person directly or by a third party on that taxable person's behalf.

Amendment 21

Proposal for a directive Recital 13

Text proposed by the Commission

(13) Whilst the information to be transmitted through the digital reporting requirements for intra-Community transactions should be similar to what was transmitted through the recapitulative statements, it is necessary to request taxable persons to provide additional data, including bank details and payment amounts, so that tax administrations can follow not only the goods but also the financial flows.

Amendment

(13) Whilst the information to be transmitted through the digital reporting requirements for intra-Community transactions should be similar to what was transmitted through the recapitulative statements, it is necessary to request taxable persons to provide additional data, including bank details and payment amounts, so that tax administrations can follow not only the goods but also the financial flows ***and can obtain appropriate information on those flows.***

Amendment 22

Proposal for a directive
Recital 14

Text proposed by the Commission

(14) Placing an unnecessary administrative burden on taxable persons operating in different Member States should be avoided. Therefore, such taxable persons should be able to provide the **required** information to their tax administrations using the European standard laid down in Commission Implementing Decision (EU) 2017/1870⁶⁵, which fulfils the request laid down in Article 3(1) of Directive 2014/55/EU to create an European standard for the semantic data model of the core elements of an electronic invoice. Member States should be allowed to provide for **additional** methods to report the data that could be easier for certain taxable persons to comply with.

⁶⁵ Commission Implementing Decision (EU) 2017/1870 of 16 October 2017 on the publication of the reference of the European standard on electronic invoicing and the list of its syntaxes pursuant to Directive 2014/55/EU of the European Parliament and of the Council (OJ L 266, 17.10.2017, p. 19).

Amendment

(14) Placing an unnecessary administrative burden on taxable persons operating in different Member States should be avoided. Therefore, such taxable persons should be able to provide the **necessary** information to their tax administrations using the European standard laid down in Commission Implementing Decision (EU) 2017/1870⁶⁵, which fulfils the request laid down in Article 3(1) of Directive 2014/55/EU to create an European standard for the semantic data model of the core elements of an electronic invoice. Member States should be allowed to provide for **other** methods to report the data that could be easier for certain taxable persons to comply with **and that could lead to a reduction of unnecessary burdens**.

⁶⁵ Commission Implementing Decision (EU) 2017/1870 of 16 October 2017 on the publication of the reference of the European standard on electronic invoicing and the list of its syntaxes pursuant to Directive 2014/55/EU of the European Parliament and of the Council (OJ L 266, 17.10.2017, p. 19).

Amendment 23

Proposal for a directive
Recital 15

Text proposed by the Commission

(15) In order to achieve the necessary harmonisation in the reporting of data on intra-Community transactions, the information to be reported should be the same in all Member States, without the possibility for Member States to request

Amendment

(15) In order to achieve the necessary harmonisation in the reporting of data on intra-Community transactions, the information to be reported should be the same in all Member States, without the possibility for Member States to request

additional data.

additional data. *The collection of that data should make it possible to have better statistics as to the extent of VAT fraud and should make it possible to reduce that fraud.*

Amendment 24

Proposal for a directive Recital 16 a (new)

Text proposed by the Commission

Amendment

(16a) Digitalisation makes companies increasingly vulnerable to cybercrime and hacker attacks. The Commission and the Member States should each ensure, as far as possible, the protection of data against cyber-attacks and attacks by hackers or zappers, during their transmission, on a transaction by transaction basis, and during their storage by tax authorities.

Amendment 25

Proposal for a directive Recital 16 b (new)

Text proposed by the Commission

Amendment

(16b) The rules governing electronic invoicing and digital reporting requirements do not apply to defence-related purchases exempted under Articles 143 and 151 of Directive 2006/112/EC.

Amendment 26

Proposal for a directive Recital 16 c (new)

Text proposed by the Commission

Amendment

(16c) In order to ensure the security of the data transmitted, an exhaustive list of

the authorities authorised to examine the data should be drawn up, together with a procedure for processing the data. EPPO, OLAF and Europol should be on that list.

Amendment 27

Proposal for a directive Recital 17

Text proposed by the Commission

(17) Several Member States have put in place divergent reporting requirements for transactions within their territories, ***leading to significant administrative burdens for taxable persons which operate in different Member States, as they need to adapt their accounting systems to comply with those requirements.*** In order to avoid the costs derived from ***such divergence***, the systems implemented in Member States to report supplies of goods and services for consideration between taxable persons within their territory ***should comply with*** the same features of the system implemented for intra-Community transactions. Member States should provide for the electronic means for the transmission of the information and, as is the case for intra-Community transactions, it should be possible for the taxable person to submit the data in accordance with the European standard laid down in Implementing Decision (EU) 2017/1870, ***even though*** the relevant Member State could provide for ***additional*** means to transmit the data. The data should be allowed to be sent by the taxable person directly or by a third party on that person's behalf.

Amendment

(17) Several Member States have put in place, ***in accordance with Article 273 of Directive 2006/112/EC***, divergent reporting requirements for transactions within their territories. ***Those divergent reporting requirements prejudice the functioning of the internal market.*** In order to avoid the costs derived from ***the fragmentation of the regulatory framework***, the systems implemented in Member States to report supplies of goods and services for consideration between taxable persons within their territory ***could have*** the same features of the system implemented for intra-Community transactions. Member States should provide for the electronic means for the transmission of the information and, as is the case for intra-Community transactions, it should be possible for the taxable person to submit the data in accordance with the European standard laid down in Implementing Decision (EU) 2017/1870, ***unless*** the relevant Member State could provide for ***other, equally effective***, means to transmit the data. The data should be allowed to be sent by the taxable person directly or by a third party on that person's behalf.

Amendment 28

Proposal for a directive Recital 18

Text proposed by the Commission

(18) Member States should not be obliged to implement a digital reporting requirement for supplies of goods and services for consideration between taxable persons within their territory. ***However, if they are to implement such a requirement in the future, they should align it with the digital reporting requirements for intra-Community transactions. Member States which already have a reporting system for these transactions in place should adapt such systems to ensure that the data are reported in accordance with the digital reporting requirements for intra-Community transactions.***

Amendment

(18) Member States should not be obliged to implement a digital reporting requirement for supplies of goods and services for consideration between taxable persons within their territory. ***At the end of the transitional period, Member States will still be able to introduce other standards, even though they have to accept electronic invoices based on the European Standard.***

Amendment 29

**Proposal for a directive
Recital 18 a (new)**

Text proposed by the Commission

Amendment

(18a) The collection of individuals' personal data should not under any circumstances infringe their right to privacy.

Amendment 30

**Proposal for a directive
Recital 19**

Text proposed by the Commission

Amendment

(19) In order to evaluate the effectiveness of the digital reporting requirements, the Commission should prepare an assessment report evaluating the impact of digital reporting requirements on the reduction of the VAT gap and in the implementation and compliance costs for taxable persons and tax administrations, in order to verify whether the system has achieved its objectives or needs further

(19) In order to evaluate the effectiveness of the ***intra-Community*** digital reporting requirements, the Commission should prepare an assessment report evaluating the impact of ***intra-Community*** digital reporting requirements on the reduction of the VAT gap and in the implementation and compliance costs for taxable persons and tax administrations, in order to verify whether the system has

adjustments.

achieved its objectives or needs further adjustments *or any extension to domestic transactions. In addition, the Commission should commission an independent study containing a comprehensive analysis on missing trader fraud, which is a particular category of VAT fraud, and in particular on the effectiveness of the digital reporting requirements in fighting such fraud. The Commission should also command an independent study to conduct a thorough assessment of the advantages and disadvantages of making import one-stop shop (IOSS) mandatory.*

Amendment 31

Proposal for a directive Recital 20

Text proposed by the Commission

(20) Member States should be able to continue to implement other measures to ensure the correct collection of VAT and to prevent evasion. ***However, they should not be able to impose additional reporting obligations on the transactions that are covered by the digital reporting requirements.***

Amendment

(20) Member States should be able to continue to implement other measures to ensure the correct collection of VAT and to prevent evasion.

Amendment 32

Proposal for a directive Recital 20 a (new)

Text proposed by the Commission

Amendment

(20a) In order to reduce the legal risk to which businesses, especially SMEs and micro-undertakings, are exposed due to the complexity of VAT rates within the Union, the databases of the Commission could be expanded into an up-to-date tool that is easily accessible for businesses, providing near real time information on Union VAT rates and responses to tax

inquiries.

Amendment 33

Proposal for a directive

Recital 22

Text proposed by the Commission

(22) *The platform economy has led to an unjustified* distortion of competition between supplies performed through online platforms that escape VAT taxation, and supplies performed in the traditional economy that are subject to VAT. *The distortion has been most acute in the two largest sectors of the platform economy behind e-commerce, namely the short-term accommodation rental sector and the passenger transport sector.*

Amendment

(22) *There are risks of* distortion of competition between supplies performed through online platforms that escape VAT taxation, and supplies performed in the traditional economy that are subject to VAT.

Amendment 34

Proposal for a directive

Recital 23

Text proposed by the Commission

(23) It is therefore necessary to lay down rules to address *the* distortions of competition in the short-term accommodation rental and passenger transport sectors *by changing the role that platforms play in the collection of VAT (becoming the ‘deemed supplier’)*. Under this model, platforms *should be required to charge VAT where VAT is due but the underlying supplier does not charge it because they are, for example, a natural person or a taxable person using the special scheme for small enterprises.*

Amendment

(23) It is therefore necessary to lay down *clear, balanced and proportionate* rules to address *potential* distortions of competition in the short-term accommodation rental and passenger transport sectors *through the introduction of the deemed supplier model*. Under this model, platforms *are required to charge and account for the VAT on the underlying supply where no VAT is charged by the supplier, and can be subject to reporting obligations. While the principle of VAT neutrality is key to the VAT system, and should be adhered to as much as possible, the characteristics of the short-term accommodation rental and passenger transport sectors require a dedicated approach through the deemed*

supplier model.

Amendment 35

Proposal for a directive

Recital 23 a (new)

Text proposed by the Commission

Amendment

(23a) As the establishment of a deemed supplier model will entail additional costs for small platforms, incentives should be provided to encourage them to comply as soon as possible in order to guarantee a level playing field and conditions for fair competition in those markets.

Amendment 36

Proposal for a directive

Recital 23 b (new)

Text proposed by the Commission

Amendment

(23b) The deemed supplier scheme should not apply to platforms which are small and medium-sized undertakings as defined in Directive 2013/34/EU, e.g. small suppliers of Short Term Rental (STR) accommodation (hosts or VAT-exempt businesses) that contribute to sustainable tourism in the Union and promote travel to less frequented places. In addition, the deemed supplier scheme should ensure a level playing field and not provide a competitive advantage to large platforms, which are better able to bear additional costs.

Amendment 37

Proposal for a directive

Recital 24

Text proposed by the Commission

(24) Member States interpret the place of supply of the facilitation service provided by the platforms to non-taxable persons differently. **Therefore** it is necessary to clarify this rule.

Amendment

(24) Member States interpret the place of supply of the facilitation service provided by the platforms to non-taxable persons differently. It is necessary to clarify this rule ***so that the use of a facilitation platform does not in any way create a competitive advantage for a provider. It is also necessary, for the sake of clarity and legal certainty, to establish a uniform definition of the term 'platform intermediary'.***

Amendment 38

**Proposal for a directive
Recital 31 a (new)**

Text proposed by the Commission

Amendment

(31a) The implementation of various Union one-stop shop (UOSS) regimes in the Member States requires providing companies with sufficient technical specifications to ensure that the one-stop shop (OSS) declarations do not differ from one country to another and also giving companies the option of downloading a file to submit an OSS declaration.

Amendment 39

**Proposal for a directive
Recital 31 b (new)**

Text proposed by the Commission

Amendment

(31b) In order to simplify the day-to-day running of businesses, the Commission might consider consolidating the current three registrations, i.e., import one-stop shop (IOSS), Union one-stop-shop (UOSS) and non-Union one-stop shop (non-UOSS), so that all supplies (namely,

imported goods, services and domestic sales) can be declared through a single portal.

Amendment 40

Proposal for a directive Recital 32

Text proposed by the Commission

(32) Amongst other measures, Directive (EU) 2017/2455 extended the scope of the Mini OSS to become a broader OSS, covering all cross-border supplies of services to non-taxable persons taking place in the Union and all intra-Community distance sales of goods. Exceptionally, electronic interfaces, such as marketplaces and platforms, which become deemed suppliers for certain supplies of goods within the Union can also declare certain domestic supplies of goods in the Union OSS scheme. To support the objective of a single VAT registration in the Union, the scope of the Union OSS scheme should be further expanded to cover other supplies of goods, including domestic business-to-consumer supplies of goods in the Union by taxable persons who are not identified for VAT purposes in the Member State of consumption, ensuring that businesses do not need to register for VAT in each Member State where such supplies of goods to consumers take place. In addition, the scope of the Union OSS scheme should be expanded to also include domestic supplies of margin scheme goods to any person, when those goods are supplied by a taxable person (taxable dealer) who is not identified in the Member State where such supplies of goods take place. This amendment would allow taxable dealers to benefit from the OSS simplifications, and allow for the VAT due on those supplies to be declared and paid in one Member State of identification via the enlarged Union

Amendment

(32) Amongst other measures, Directive (EU) 2017/2455 extended the scope of the Mini OSS to become a broader OSS, covering all cross-border supplies of services to non-taxable persons taking place in the Union and all intra-Community distance sales of goods. Exceptionally, electronic interfaces, such as marketplaces and platforms, which become deemed suppliers for certain supplies of goods within the Union can also declare certain domestic supplies of goods in the Union OSS scheme. To support the objective of a single VAT registration in the Union, the scope of the Union OSS scheme should be further expanded to cover other supplies of goods, including domestic business-to-consumer supplies of goods in the Union by taxable persons who are not identified for VAT purposes in the Member State of consumption, ensuring that businesses do not need to register for VAT in each Member State where such supplies of goods to consumers take place. In addition, the scope of the Union OSS scheme should be expanded to also include domestic supplies of margin scheme goods to any person, when those goods are supplied by a taxable person (taxable dealer) who is not identified in the Member State where such supplies of goods take place. This amendment would allow taxable dealers to benefit from the OSS simplifications, and allow for the VAT due on those supplies to be declared and paid in one Member State of identification via the enlarged Union

OSS scheme.

OSS scheme. *However, any extension of the Union OSS scheme to supplies of goods and services by a taxable person to another taxable person should be avoided. The freedom, for taxable persons with fixed establishments in different Member States, to choose the Member State of identification for OSS purposes adds to a growth-friendly internal market.*

Amendment 41

Proposal for a directive

Recital 33

Text proposed by the Commission

(33) VAT is normally charged and accounted for by the supplier of the goods or services. However, in certain circumstances Member States may provide that, under the reverse charge mechanism, the recipient of the supply, rather than the supplier, is obliged to account for the VAT due. To further support the objective of a single VAT registration in the Union, rules should be laid down for the mandatory application by Member States of the reverse charge mechanism in situations where a supplier is not established for VAT purposes in the Member State in which VAT is due. ***A supplier, making supplies of goods or services to a person who is identified for VAT in the Member State where the supply is taxable, should be entitled to apply the reverse charge.*** For control purposes, such supplies should be reported in the recapitulative statement.

Amendment

(33) VAT is normally charged and accounted for by the supplier of the goods or services. However, in certain circumstances Member States may provide that, under the reverse charge mechanism, the recipient of the supply, rather than the supplier, is obliged to account for the VAT due. To further support the objective of a single VAT registration in the Union, rules should be laid down for the mandatory application by Member States of the reverse charge mechanism in situations where a supplier is not established for VAT purposes in the Member State in which VAT is due. For control purposes, such supplies should be reported in the recapitulative statement.

Amendment 42

Proposal for a directive

Recital 35 a (new)

(35a) IOSSs should operate transparently and securely. A unified approach between the IOSS, on the one hand, and customs legislation and practice, on the other, would help bring an end to inconsistencies, errors and double taxation.

Amendment 43

Proposal for a directive Recital 36

(36) In order to ensure uniform conditions for the implementation of Directive 2006/112/EC, powers should be conferred on the Commission to better secure the correct use and the verification process of IOSS VAT identification numbers for the purposes of the exemption provided for in that Directive. This empowerment should allow the Commission to adopt an implementing act to introduce special measures to prevent certain forms of tax evasion or avoidance. Such special measures involve, inter alia, linking the unique consignment number with the IOSS VAT identification number. Those powers should be exercised in accordance with the examination procedure referred to in Article 5 of Regulation (EU) No 182/2011 of the European Parliament and of the Council⁷¹ and for this purpose the committee should be the one established by Article 58 of Regulation (EU) No 904/2010 of the European Parliament and of the Council⁷².

Amendment 44

Proposal for a directive

Recital 38

Text proposed by the Commission

(38) Directive 2006/112/EC provides for a simplified VAT treatment of goods transferred under call-off stock arrangements where certain prescribed conditions are met. As the OSS simplification scheme for transfers of own goods is comprehensive and encompasses cross-border movements of goods that are currently covered by call-off stock arrangements under article 17a of that Directive, it is necessary to phase out these arrangements by including an end date prior to the complete removal of the call-off stock provisions in Directive 2006/112/EC. Therefore, an end date of 31 December **2024** should be laid down, after which it will no longer be possible to effect any new call-off stock arrangements. For call-off stock arrangements commencing on or before 31 December **2024**, the relevant conditions, including the 12 month time limit for transferring ownership of those goods to the intended purchaser,

Amendment

(38) Directive 2006/112/EC provides for a simplified VAT treatment of goods transferred under call-off stock arrangements where certain prescribed conditions are met. As the OSS simplification scheme for transfers of own goods is comprehensive and encompasses cross-border movements of goods that are currently covered by call-off stock arrangements under article 17a of that Directive, it is necessary to phase out these arrangements by including an end date prior to the complete removal of the call-off stock provisions in Directive 2006/112/EC. Therefore, an end date of 31 December **2025** should be laid down, after which it will no longer be possible to effect any new call-off stock arrangements. For call-off stock arrangements commencing on or before 31 December **2025**, the relevant conditions, including the 12 month time limit for transferring ownership of those goods to the intended purchaser,

should continue to apply. In parallel with the inclusion of this new end date, a new paragraph should be inserted in the provisions pertaining to call-off stock arrangements to ensure that those arrangements will cease to apply on 31 December **2025**, as they will no longer be required after that date.

Amendment 45

Proposal for a directive Recital 39

Text proposed by the Commission

(39) The margin scheme operates by allowing taxable dealers to pay VAT on the difference between the sale price and the purchase price of goods covered by the scheme namely second-hand goods, works of art, collectors' items and antiques. To ensure that the taxation of those specific supplies occurs in the Member State where the customer is established, has his or her permanent address or usually resides, Directive 2006/112/EC should be amended to introduce a new place of supply rule. In addition, Directive 2006/112/EC should be amended to specifically exclude supplies of margin scheme goods from the mandatory application of the reverse charge mechanism. However, to support the objective of a single VAT registration in the Union, and to minimise compliance burdens, taxable dealers that operate under the margin scheme can opt to register to use the Union OSS scheme to declare and pay the VAT due on certain supplies of margin scheme goods via that scheme, without the need to register in multiple Member States.

should continue to apply. In parallel with the inclusion of this new end date, a new paragraph should be inserted in the provisions pertaining to call-off stock arrangements to ensure that those arrangements will cease to apply on 31 December **2026**, as they will no longer be required after that date.

Amendment

(39) The margin scheme operates by allowing taxable dealers to pay VAT on the difference between the sale price and the purchase price of goods covered by the scheme namely second-hand goods, ***including capital goods such as buildings, machinery, tools and equipment***, works of art, collectors' items and antiques. To ensure that the taxation of those specific supplies occurs in the Member State where the customer is established, has his or her permanent address or usually resides, Directive 2006/112/EC should be amended to introduce a new place of supply rule. In addition, Directive 2006/112/EC should be amended to specifically exclude supplies of margin scheme goods from the mandatory application of the reverse charge mechanism. However, to support the objective of a single VAT registration in the Union, and to minimise compliance burdens, taxable dealers that operate under the margin scheme can opt to register to use the Union OSS scheme to declare and pay the VAT due on certain supplies of margin scheme goods via that scheme, without the need to register in multiple Member States.

Amendment 46

Proposal for a directive Recital 39 a (new)

Text proposed by the Commission

Amendment

(39a) Recognising the importance of sustainable practices, it is important to ensure that the method for calculating VAT on the profit margin for the sale of second-hand and collectible goods is simple and clear. The Union should consider whether other calculation methods (for example, an average VAT margin rate provided by the seller and by category of objects) are needed in order to improve the application and workings of the VAT margin scheme for second-hand goods.

Amendment 47

Proposal for a directive Recital 39 b (new)

Text proposed by the Commission

Amendment

(39b) Some Member States do not exempt in-kind donations from VAT, even though such an exemption is possible under the existing VAT Directive, leading businesses to destroy consumer goods, notably returns, rather than donating them to charitable causes. The Commission should issue guidance to Member States, clarifying that VAT exemptions for in-kind donations are compatible with existing Union VAT law.

Amendment 48

Proposal for a directive Recital 41 a (new)

Text proposed by the Commission

Amendment

(41a) Implementing digital reporting requirements in the markets of all Member States simultaneously in 2028 will be extremely challenging. A progressive implementation of the digital reporting requirements would ensure the availability of sufficient qualified personnel for the adaptation of all businesses software. Practical solutions to reduce implementation costs should be proposed by the Commission to businesses before the implementation of this Directive.

Amendment 49

**Proposal for a directive
Recital 41 b (new)**

Text proposed by the Commission

Amendment

(41b) The package ‘VAT in the Digital Age’ should be phased in as from 1 January 2025.

Amendment 50

**Proposal for a directive
Recital 41 c (new)**

Text proposed by the Commission

Amendment

(41c) The European Data Protection Supervisor was consulted in accordance with Article 42(1) of Regulation (EU) 2018/1725^{1a} and delivered an opinion on 3 March 2023^{1b}.

^{1a} Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union

institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC (OJ L 295, 21.11.2018, p. 39).

^{1b} OJ C 113, 28.3.2023, p. 26.

Amendment 51

Proposal for a directive Recital 41 d (new)

Text proposed by the Commission

Amendment

(41d) The expansion of cloud computing services, as a result of digital reporting requirements, could lead to an increase in greenhouse gas emissions. The Commission should take measures and provide incentives to ensure the ‘greening’ of the digital sector, for example by centralising data centres to optimise their functioning, by helping companies to use renewable energies instead of fossil fuels to power their data centres and by using artificial intelligence to reduce their pollution.

Amendment 52

Proposal for a directive Recital 41 e (new)

Text proposed by the Commission

Amendment

(41e) This Directive encompasses several changes in the way VAT revenues are to be declared. It might have a significant impact on the nature of the work of tax administrations’ employees. Tax authorities should therefore ensure that their employees have access to the necessary training prior to the entry into force of this Directive.

Amendment

2a. By 31 December 2028, the Commission shall assess the effectiveness of this Article and its added value in combating VAT fraud, namely missing trader fraud, duly informing the Parliament and the Council of the results of that assessment.

Amendment 77

Proposal for a directive

Article 2 – paragraph 1 – point 14 – point a

Directive 2006/112/EC

Article 242a – paragraph 1a

Text proposed by the Commission

Amendment

1a. Where a taxable person facilitates, through the use of an electronic interface such as a platform, portal or similar means, the supply of short-term accommodation rental or passenger transport services, and that person is not considered to have received and supplied those services themselves under Article 28a, the taxable person who facilitates the supply shall be obliged to keep records of those supplies.;

1a. Where a taxable person facilitates, through the use of an electronic interface such as a platform, portal or similar means, the supply of short-term accommodation rental or passenger transport services **by road within the Union**, and that person is not considered to have received and supplied those services themselves under Article 28a, the taxable person who facilitates the supply shall be obliged to keep records of those supplies.;

Amendment

They shall apply those provisions from 1 January **2027**.

Amendment 109

Proposal for a directive Article 5 a (new)

Text proposed by the Commission

Amendment

Article 5a

Review Clause

(1) By 31 December 2024, the Commission shall present a report on the VAT one-stop shop to the European Parliament and to the Council. The report shall in particular:

(a) analyse the effectiveness of the VAT one-stop shop and identify remaining shortcomings;

(b) explore the merits of further extending the VAT one-stop shop towards the remaining areas of business-to-consumer transactions that are not yet covered;

(c) explore the merits of extending the scope of the one-stop shop to also cover business-to-business transactions;

(d) explore areas to further simplify the procedures for small and medium-sized companies and thus to encourage single market integration.

If appropriate, the report shall be accompanied by a legislative proposal.

EXPLANATORY STATEMENT

The European Commission proposed on December 8, 2022 a package of new measures updating the VAT Directive (2006/112/EC), the Council Implementing Regulation (EU) 282/2011 and the Council Regulation on administrative cooperation (EU 904/2010) to adapt to new digital business models and to allow the full use of data generated by digitization.

These proposed directive and regulations are expected to enter into force gradually between January 2024 and January 2028. Your rapporteur believes that these deadlines should, given the delay in the legislative process, be postponed by at least one year overall.

With these measures, the Commission hopes to reduce the VAT gap, better combat VAT fraud, ensure the proper functioning of the internal market and put an end to distortions of competition.

In this respect, your rapporteur stresses the need to respect the principle of proportionality between the objective of combating fraud and the difficulties that might arise in applying the proposed rules to the real life of businesses. The fight against fraud must not be to the detriment of the majority of businesses that work in transparency and good faith.

Similarly, the digital package must respect the fundamental rights to privacy and personal data protection. Therefore, the transmission of partial data can only be used by the competent administrative authority in the context of the fight against VAT fraud only and may not infringe on business secrets and personal data protection.

With the switch to real-time digital declaration based on electronic invoicing, stricter conditions will be imposed on companies carrying out intra-European transactions for all B2B deliveries of goods and services in the name of the fight against fraud.

Your rapporteur underlines the additional burdens that the implementation of this system will create for businesses. He recalls that the impact assessment states “Businesses will bear the costs of the additional administrative burden arising from the introduction of real-time digital declaration. This burden will be higher for micro and small enterprises”. Therefore, your rapporteur believes that these measures should be accompanied by incentives for businesses to encourage the optimal implementation of VAT in the Digital Age.

Your rapporteur believes that the two working day deadline for issuing and declaring invoices is not realistic for businesses, especially SMEs, and should be reviewed to a ten working days basis. Similarly, the deletion of the possibility of issuing summary invoices runs counter to the principles of flexibility and simplicity that govern this proposal.

Your rapporteur stresses that the proposals must be simple, effective and balanced for all parties concerned, in particular for SMEs, VSEs and Not-profit-bodies.

As regards the updating of the VAT rules applicable to passenger transport and short-term accommodation platforms, justified by the emergence of new business models, your rapporteur recalls that these new measures must be clear, non-discriminatory and neutral. He believes that the liability of the "presumed supplier/provider" instead of the "underlying provider" could increase the final price for the consumer.

Finally, your rapporteur considers that the Single registration is one of the improvements most appreciated by EU companies, especially SMEs, which have a real need for simplification of intra-EU declaration procedures. Nevertheless, your rapporteur is concerned that the mandatory reverse charge will lead to an increase in VAT fraud and proposes that an independent study must be carried out on the reduction of VAT fraud in case of taxation of intra-Community supplies of goods and services.

Furthermore, the inclusion of second-hand goods in the UOSS system could be problematic because it is not possible for a marketplace to know the margin made by a third-party seller.
