Implementation of the Common Fisheries Policy and future perspectives
(2021/2169(INI))

Motion for a resolution**Paragraph 82***Motion for a resolution**Amendment*

82. Calls on the Commission to further increase science-based knowledge on the welfare of **farmed** aquatic animals and to take this research into consideration in future policy developments in aquaculture; stresses that, any future policy developments should also take practical feasibility into account in aquaculture management and **should not add** economic and operational **burden to** operators' and activities, and should also consider the need to ensure an international level playing field;

82. Calls on the Commission to further increase science-based knowledge on the welfare of aquatic animals and to take this research into consideration in future policy developments in **fisheries and** aquaculture; stresses that, any future policy developments should also take practical feasibility into account in **fisheries and** aquaculture management and **the potential** economic and operational **impact on** operators' and activities, and should also consider the need to ensure an international level playing field;
