Report

A9-0148/2024

João Albuquerque

Preventing plastic pellet losses to reduce microplastic pollution
(COM(2023)0645 – C9-0378/2023 – 2023/0373(COD))

Proposal for a regulation

Recital 15 a (new)

Text proposed by the Commission

Amendment

(15 a) The most efficient way of combatting microplastic pollution is to tackle it directly at its source, using preventive measures. Therefore, it is crucial to minimize the administrative and financial burden on businesses, particularly micro-, small and medium-sized enterprises, to ensure it does not hinder their ability to effectively reduce microplastic pollution in the environment.
