

EUROPEAN PARLIAMENT

2009 - 2014

Committee on Agriculture and Rural Development

2009/2105(INI)

18.11.2009

AMENDMENTS

1 - 159

Draft report
Giancarlo Scotta'
(PE430.362v01-00)

on Agricultural product quality policy: what strategy to follow?
(2009/2105(INI))

AM_Com_NonLegReport

Amendment 1
Krisztina Morvai

Motion for a resolution
Recital A a (new)

Motion for a resolution

Amendment

A a. Whereas support for small and medium-sized farms, whose production and consumption levels meet local requirements, sustains both traditional and empirical farming methods and ensure they are applied in accordance with the highest standards of quality and safety;

Or. en

Amendment 2
Krisztina Morvai

Motion for a resolution
Recital B a (new)

Motion for a resolution

Amendment

B a. Whereas it has been proven that small and medium-sized farms are more environmentally friendly since they produce less CO₂, due, amongst other things, to their considerably lesser transportation needs, and since such farms strengthen local identity, biodiversity and animal welfare in Europe;

Or. en

Amendment 3
George Becali

Motion for a resolution
Recital E a (new)

Motion for a resolution

Amendment

Ea. whereas existing policy concerning the distribution chain affects small producers' chances of reaching a wide target group;

Or. ro

Amendment 4
Rareş-Lucian Niculescu

Motion for a resolution
Paragraph 1

Motion for a resolution

1. Welcomes the Commission's Communication and the incorporation therein of several of Parliament's recommendations, following the reflection process launched through the Green Paper on agricultural product quality; wishes to see the measures proposed by Parliament in this resolution implemented as soon as possible, so as to effectively put into practice the feedback received from farmers and producers during the consultation process;

Amendment

1. Welcomes the Commission's Communication and the incorporation therein of several of Parliament's recommendations, following the reflection process launched through the Green Paper on agricultural product quality; wishes to see the measures proposed by Parliament in this resolution implemented as soon as possible, so as to effectively put into practice the feedback received from farmers and producers during the consultation process ***and with a view to assessing the desirability, necessity and proportionality of the proposed regulatory framework;***

Or. ro

Amendment 5
George Becali

Motion for a resolution
Paragraph 1

Motion for a resolution

1. Welcomes the Commission's Communication and the incorporation therein of several of Parliament's recommendations, following the reflection process launched through the Green Paper on agricultural product quality; wishes to see the measures proposed by Parliament in this resolution implemented as soon as possible, so as to effectively put into practice the feedback received from farmers and producers during the consultation process;

Amendment

1. Welcomes the Commission's Communication and the incorporation therein of several of Parliament's recommendations, following the reflection process launched through the Green Paper on agricultural product quality; wishes to see the measures proposed by Parliament in this resolution implemented as soon as possible, so as to effectively put into practice the feedback received from farmers and producers during the consultation process ***while taking account of the effects of the economic crisis and the need not to generate additional costs or burdens for the producers;***

Or. ro

Amendment 6
Rareş-Lucian Niculescu

Motion for a resolution
Paragraph 2

Motion for a resolution

2. Emphasises that quality is a key issue for the entire food chain and an essential asset for ***European agrifood products***; considers that quality can constitute the grounds for important business advantages for European producers;

Amendment

2. Emphasises that quality is a key issue for the entire food chain and an essential asset for ***supporting the competitiveness of European agrifood producers***; considers that quality can constitute the grounds for important business advantages for European producers ***and can make an indirect contribution to rural development;***

Or. ro

Amendment 7
Stéphane Le Foll

Motion for a resolution
Paragraph 3

Motion for a resolution

3. Considers that the EU quality policy can bring about increased competitiveness and added value to the economy of Europe's regions; that quality production is often the only chance for many rural areas with limited production alternatives; further considers quality as an engine for product diversity;

Amendment

3. Considers that the EU quality policy, ***based on farmers' know-how as regards production methods and sustainable development practices geared to each region***, can bring about increased competitiveness and added value to the economy of Europe's regions; that quality production is often the only chance for many rural areas with limited production alternatives; further considers quality as an engine for product diversity;

Or. fr

Amendment 8
Rareş-Lucian Niculescu

Motion for a resolution
Paragraph 3

Motion for a resolution

3. Considers that the EU quality policy can bring about increased competitiveness and added value to the economy of Europe's regions; that quality production is often the only chance for many rural areas with limited production alternatives; further considers quality as an engine for product diversity;

Amendment

3. Considers that the EU quality policy can bring about increased competitiveness and added value to the economy of Europe's regions *and* that quality ***agricultural and agri-food*** production is often the only chance for many rural areas with limited production alternatives; further considers quality as an engine for product diversity ***and a means of developing workforce skills***;

Or. ro

Amendment 9
Iratxe García Pérez, Miguel Angel Martínez Martínez

Motion for a resolution
Paragraph 3a (new)

Motion for a resolution

Amendment

3a. Advocates greater monitoring and coordination between the Commission and the Member States so as to ensure that imported food products meet the EU's quality and food safety standards, as well as its environmental and social standards;

Or. es

Amendment 10
Czesław Adam Siekierski

Motion for a resolution
Paragraph 3 a (new)

Motion for a resolution

Amendment

3a. Considers the protected designations of origin and geographical indications system to be one of the CAP instruments intended to support the development of rural areas, protect the cultural heritage of regions and foster the diversification of employment in rural areas;

Or. pl

Amendment 11
George Becali

Motion for a resolution
Paragraph 4

Motion for a resolution

Amendment

4. Is confident that quality policy can bring about important developments in European agriculture, being an area generating a high volume of agricultural products, in the case

4. Is confident that quality policy can bring about important developments in European agriculture ***but cannot be dissociated from the future of the CAP or the challenges of***

of geographical indications already exceeding EUR 14 billion;

climate change, being an area generating a high volume of agricultural products, in the case of geographical indications already exceeding EUR 14 billion;

Or. ro

Amendment 12

Iratxe García Pérez, Miguel Angel Martínez Martínez

Motion for a resolution

Paragraph 4a (new)

Motion for a resolution

Amendment

4a. Stresses that as things stand the private certification systems do not provide more information on the quality of the products concerned: rather, they are in many cases becoming a financial and administrative burden as regards farmers' access to the market;

Or. es

Amendment 13

Rareş-Lucian Niculescu

Motion for a resolution

Paragraph 4a (new)

Motion for a resolution

Amendment

4a. Believes that European quality policy must be closely linked to the reform of the CAP after 2013; takes the view that in the context of that policy the EU needs to offer financial support with a view to obtaining agri-food production of high quality; believes that such support should take the form of developing, diversifying and stimulating the accessibility of the second pillar of the CAP, especially as regards the modernisation of farms and

the creation and development of microbusinesses in the countryside; stresses that financial support for product quality development can help produce a shift towards market orientation for semi-subsistence farmers; believes that producers' organisations need more support, especially so as not to disadvantage small producers;

Or. ro

Amendment 14
Stéphane Le Foll

Motion for a resolution
Paragraph 4 a (new)

Motion for a resolution

Amendment

4a. Considers that, in an increasingly open market, it is essential that, in the WTO negotiations, the EU uphold the principle of quality products being protected and enjoying effective protection through the intellectual property safeguard arrangements;

Or. fr

Amendment 15
Czesław Adam Siekierski

Motion for a resolution
Paragraph 4 a (new)

Motion for a resolution

Amendment

4a. Takes the view that the new EU quality policy should be more 'open' to products from the new Member States, which gained access to the system for registering geographical indications only a few years ago; believes that the

requirements to be met in order to register a given product should be transparent and understandable not just to applicants (producers) but also to consumers;

Or. pl

Amendment 16
Brian Simpson, Ulrike Rodust, Christel Schaldemose

Motion for a resolution
Paragraph 4 a (new)

Motion for a resolution

Amendment

4 a. stresses the need for quality standards that ensure effective communication with consumers about the way that products have been produced and that offer incentives for improving these standards, thus contributing to wider EU policy objectives;

Or. en

Amendment 17
Paolo Bartolozzi

Motion for a resolution
Paragraph 4 a (new)

Motion for a resolution

Amendment

4a. Stresses that diversity should continue to be Europe's fundamental asset and that all quality products that meet the criteria laid down by the EU should be recognised and protected; considers that after 2013 the CAP should support the quality policy and the efforts of producers to promote more environment-friendly production methods in particular; points out that regions are the CAP's partners, and co-finance and manage rural development;

adds that, by their geographical proximity, regions are the partners of producers and, in particular, producers of traditional and organic products; takes the view that regions should be involved in the recognition and promotion of products with an indication, traditional products and organic products;

Or. fr

Amendment 18
Martin Häusling, José Bové

Motion for a resolution
Paragraph 5

Motion for a resolution

5. Stresses the need for a formal recognition of the efforts made by European producers in meeting EU farming requirements with regard to quality, environmental, animal welfare and health standards;

Amendment

5. Stresses the need, ***given that diversity is Europe's fundamental asset***, for a formal recognition of the efforts made by European producers in meeting EU farming requirements with regard to quality, environmental, animal welfare and health standards; ***considers that after 2013 the CAP should support the quality policy and quality efforts, especially among producers, who have responsibility for using more environment-friendly production methods; calls for regions, in view of their proximity, to be given a more important role in the recognition and promotion of products with an indication of origin, traditional products and organic products;***

Or. fr

Amendment 19
Peter Jahr

Motion for a resolution
Paragraph 5 a (new)

Motion for a resolution

Amendment

5a. Takes the view that an EU quality label should be introduced as standard in addition to existing geographical indications; points out that this is of great importance for the marketing of exports outside the EU;

Or. de

Amendment 20

Esther Herranz García, Pilar Ayuso, Gabriel Mato Adrover

Motion for a resolution

Paragraph 6

Motion for a resolution

Amendment

6. Calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production, ***including through the option of*** a European Union quality logo, which ***should be made available only to agricultural goods resulting entirely from European production;***

6. Calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production; ***also calls on the Commission to examine the viability of introducing*** a European Union quality logo, ***of a simple nature and not involving additional burdens, which would apply only to Community production, with the objective of raising the profile of producers' efforts in the field of quality and food safety;***

Or. es

Amendment 21

Krisztina Morvai

Motion for a resolution

Paragraph 6

Motion for a resolution

6. calls in this respect on the Commission to conduct a study on the various options available for giving **European** producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production, including through the option of a European Union quality logo, which should be made available only to agricultural goods resulting entirely from European production;

Amendment

6. calls in this respect on the Commission to conduct a study on the various options available for giving **a diverse range of Member State** producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production, including through the option of a European Union quality logo, **in addition to certificates, designations of origin and standards that already exist within the Member States, and** which should be made available only to agricultural goods resulting entirely from European production;

Or. en

Amendment 22

Iratxe García Pérez, Miguel Angel Martínez Martínez

Motion for a resolution

Paragraph 6

Motion for a resolution

6. Calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production, including through the option of a European Union quality logo, which should be made available **only** to agricultural goods resulting entirely from **European** production;

Amendment

6. Calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production, including through the option of a European Union quality logo, which should be made available **exclusively** to agricultural goods resulting entirely from production **in the EU, and which, since it would certify compliance with the legislation subject to official controls, should in no circumstances involve any additional cost to operators or any financial or administrative burden on the Member States exercising the**

controls;

Or. es

Amendment 23
James Nicholson

Motion for a resolution
Paragraph 6

Motion for a resolution

6. calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of *production, including through the option of a European Union quality logo, which should be made available only to agricultural goods resulting entirely from European* production;

Amendment

6. calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production;

Or. en

Amendment 24
George Lyon

Motion for a resolution
Paragraph 6

Motion for a resolution

6. calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production, *including through the option of a European Union quality logo, which should be made available only*

Amendment

6. calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production; *considers in this regard that a European Union quality logo would have no resonance with* European

to agricultural goods resulting entirely from European production;

consumers;

Or. en

Amendment 25
Marit Paulsen

Motion for a resolution
Paragraph 6

Motion for a resolution

6. Calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production, including through the option of a European Union quality logo, which should be made available only to agricultural goods resulting entirely from European production; .

Amendment

6. Calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production, including through the option of a European Union quality logo, which should be made available only to agricultural goods resulting entirely from European production; ***such a study should start from the assumption that all producers, without exception, should be able to prove scientifically every assertion about the qualities of their products; furthermore, it should be possible to restrict labelling to the information most important to the consumer, provided that detailed additional information is made available on the producers' websites;***

Or. sv

Amendment 26
Brian Simpson, Ulrike Rodust, Christel Schaldemose

Motion for a resolution
Paragraph 6

Motion for a resolution

6. calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of *production, including through the option of a European Union quality logo, which should be made available only to agricultural goods resulting entirely from European* production;

Amendment

6. calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production;

Or. en

Amendment 27

Alyn Smith

Motion for a resolution

Paragraph 6

Motion for a resolution

6. calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of *production, including through the option of a European Union quality logo, which should be made available only to agricultural goods resulting entirely from European* production;

Amendment

6. calls in this respect on the Commission to conduct a study on the various options available for giving European producers the possibility of displaying on their products their commitment to quality, food safety and respect of all European standards of production;

Or. en

Amendment 28

Martin Häusling, José Bové

Motion for a resolution
Paragraph 7

Motion for a resolution

7. Considers that marketing standards still retain an important role in the production chain, and consequently they should be kept; they render transparent the changes on the market and allow purchasers to compare prices, sizes and quality of products and ensure a level playing-field in European competition;

Amendment

7. Considers that marketing standards still retain an important role in the production chain, and consequently they should be kept; they render transparent the changes on the market and allow purchasers to compare prices, sizes and quality of products and ensure a level playing-field in European competition; ***considers also that quality standards should include criteria specific to 'population' seeds and 'traditional, small-scale farming and on-site conservation' breeds forming part of our arable and animal biodiversity, which account for an increasing proportion of consumer demand;***

Or. fr

Amendment 29
Iratxe García Pérez, Miguel Angel Martínez Martínez

Motion for a resolution
Paragraph 7

Motion for a resolution

7. Considers that marketing standards ***still retain*** an important role in the production chain, and consequently they should be kept; they render transparent the changes on the market and allow purchasers to compare prices, sizes and quality of products and ensure a level playing-field in European competition;

Amendment

7. Considers that ***sectoral*** marketing standards ***play*** an important role in the production chain, and consequently they should be kept; they render transparent the changes on the market and allow purchasers to compare prices, sizes and quality of products and ensure a level playing-field in European competition ***and a common language for operators;***

Or. es

Amendment 30
Rareş-Lucian Niculescu

Motion for a resolution
Paragraph 7

Motion for a resolution

7. Considers that marketing standards ***still retain an important role in the production chain, and consequently they should be kept; they render transparent the changes on the market and*** allow purchasers to compare prices, sizes and quality of products and ensure a level playing-field in European competition;

Amendment

7. Considers that marketing standards allow purchasers to compare prices, sizes and quality of products and ensure a level playing-field in European competition; ***nonetheless, believes that the rules need to be simplified with a view to cutting red tape for producers and processors;***

Or. ro

Amendment 31
Esther Herranz García, Gabriel Mato Adrover, Pilar Ayuso

Motion for a resolution
Paragraph 7

Motion for a resolution

7. considers that marketing standards still retain an important role in the production chain, and consequently they should be kept; thy render transparent the changes on the market and allow purchasers to compare prices, sizes and quality of products and ensure a level playing-field in European competition;

Amendment

7. considers that ***specific*** marketing standards still retain an important role in the production chain, and consequently they should be kept; thy render transparent the changes on the market and allow purchasers to compare prices, sizes and quality of products and ensure a level playing-field in European competition;

Or. en

Amendment 32
George Lyon

Motion for a resolution
Paragraph 7 a (new)

Motion for a resolution

Amendment

7 a. calls on the Commission to simplify EU marketing standards in order to lay down compulsory rules in a general basic marketing code and to address stakeholders' demands for clarification and simplification;

Or. en

Amendment 33

Iratxe García Pérez, Miguel Angel Martínez Martínez

Motion for a resolution

Paragraph 7a (new)

Motion for a resolution

Amendment

7a. Calls for the restoration of marketing rules for fruit and vegetables that can supply uniform standardisation parameters and objectives which, at all stages of the food chain, can strengthen the transparency of commercial operations and establish consumer-friendly quality criteria;

Or. es

Amendment 34

Esther Herranz García, Pilar Ayuso, Gabriel Mato Adrover

Motion for a resolution

Paragraph 7a (new)

Motion for a resolution

Amendment

7a. Regrets the near-total dismantling of the Community marketing rules in the fruit and vegetables sector; calls on the Member States and the Commission to launch a detailed debate with a view to

studying the impact of this measure in order to restore, if necessary, a solid Community framework which can boost the transparency of commercial operations and establish a common language for operators and consumer-friendly quality criteria;

Or. es

Amendment 35

Iratxe García Pérez, Miguel Angel Martínez Martínez

Motion for a resolution

Paragraph 8

Motion for a resolution

Amendment

8. Is in favour of allowing stakeholders to develop marketing standards on their own, within trade associations and organisations such as the CEN (European Committee on Standardisation); however these standards should only be supplementary and must not conflict with European rules;

Deleted

Or. es

Amendment 36

George Lyon

Motion for a resolution

Motion for a resolution

8. Is in favour of allowing stakeholders to develop marketing standards on their own, within trade associations and organisations such as the CEN (European Committee on Standardisation); however these standards should only be supplementary and must not conflict with European rules;

Amendment

8. Is in favour of allowing stakeholders to develop marketing standards on their own, within trade associations and organisations such as the CEN (European Committee on Standardisation); however these standards should only be supplementary; ***considers, however, that an agency-type structure should be set up in Member State regions to exercise oversight over associations or organisations, with a view to coordinating their proposals, which*** must not conflict with European rules, ***and to monitoring the application thereof;***

Or. fr

Amendment 42
Csaba Sándor Tabajdi

Motion for a resolution
Paragraph 8 a (new)

Motion for a resolution

Amendment

8 a. is in support of optional labelling programmes in the case of GMO-exempt products, concerning the possible use of the optional reserved term "GMO-free"; considers that the Commission should establish clear guidelines regarding the use of the optional reserved term "GMO-free";

Or. en

Amendment 43
Georgios Papastamkos

Motion for a resolution
Paragraph 8 a (new)

Motion for a resolution

Amendment

8a. Calls for an inventory of all private quality certification systems which European producers are required to implement in addition to the quality specifications already imposed under EU legislation; supports the establishment of a Community Legislative Framework of Basic Principles for the transparent implementation of the private certification systems in question.

Or. el

Amendment 44
Stéphane Le Foll

Motion for a resolution
Paragraph 8 a (new)

Motion for a resolution

Amendment

8a. Supports the establishment of tools for the collective promotion and publicising of small traditional, local and artisanal products linked to specific areas and bearing a geographical name, for which PDO/PGI access procedures would be too cumbersome and costly;

Or. fr

Amendment 45
George Lyon

Motion for a resolution
Paragraph 9

Motion for a resolution

9. supports the introduction of additional optional reserved terms, especially in terms of the provision of a clear definition and usage of the terms "mountain products" and "low carbon"; further expresses support for the harmonisation at Community level of the term "mountain products", which is currently regulated in only a few Member States;

Amendment

9. supports the introduction of additional optional reserved terms **and the adoption of EU guidelines concerning their use**, especially in terms of the provision of a clear definition and usage of the terms "mountain products" and "low carbon"; further expresses support for the harmonisation at Community level of the term "mountain products", which is currently regulated in only a few Member States;

Amendment 50
Elisabeth Jeggle

Motion for a resolution
Paragraph 9

Motion for a resolution

9. supports the introduction of additional optional reserved terms, especially in terms of the provision of a clear definition and usage of the **terms** 'mountain products' and '**low carbon**'; further expresses support for the harmonisation at Community level of the term 'mountain products', which is currently regulated in only a few Member States;

Amendment

9. Supports the introduction of additional optional reserved terms, especially in terms of the provision of a clear definition and usage of the **term** 'mountain products'; further expresses support for the harmonisation at Community level of the term 'mountain products', which is currently regulated in only a few Member States;

Or. de

Amendment 51
Csaba Sándor Tabajdi

Motion for a resolution
Paragraph 9 – subparagraph 1 a (new)

Motion for a resolution

Amendment

, calls on the Commission, in view of the fact that measuring "carbon-footprint" is a very complex and complicated task, to conduct a study on the available scientific instruments which measure in an

informal way comparable levels of the carbon impact of products;

Or. en

Amendment 52
Csaba Sándor Tabajdi

Motion for a resolution
Paragraph 9 – subparagraph 1 b (new)

Motion for a resolution

Amendment

calls on the Commission to conduct a study on further developing the "carbon-footprint" labelling towards a more comprehensive "ecological-footprint" measurement, since labels or terms which refer only to carbon levels neglect other key environmental aspects, such as the impact on water resources and biodiversity;

Or. en

Amendment 53
George Lyon

Motion for a resolution
Paragraph 10

Motion for a resolution

Amendment

10. is in support of providing the consumer with the **maximum** amount of information available; is in favour of the introduction of **comprehensive and** compulsory legislation for "place of farming"-labelling; considers that this **may** be done in a manner that takes into account the costs of such a Europe-wide operation, as well as the specificities of particular sectors, **such as that of processed agricultural goods;**

10. is in support of providing the consumer with the **relevant** amount of information available; is in favour of the introduction of compulsory legislation for "place of farming"-labelling **for primary products on a case-by-case basis;** considers that this **must** be done in a manner that takes into account the costs of such a Europe-wide operation, as well as the specificities of particular sectors;

Amendment 54
Esther De Lange

Motion for a resolution
Paragraph 10

Motion for a resolution

10. is in support of providing the consumer with the maximum amount of information available; ***is in favour of the introduction of comprehensive and compulsory legislation for ‘place of farming’-labelling; considers that this may be done in a manner that takes into account the costs of such a Europe-wide operation, as well as the specificities of particular sectors, such as that of processed agricultural goods;***

Amendment

10. Is in support of providing the consumer with the maximum amount of information available; ***draws attention, in view of the limited space that a label affords, to the role that the new communications media such as websites can play in providing further information such as ‘place of farming’ labelling;***

Amendment 55
Csaba Sándor Tabajdi

Motion for a resolution
Paragraph 10

Motion for a resolution

10. is in support of providing the consumer with the maximum amount of information available; is in favour of the introduction of comprehensive and compulsory legislation for "place of farming"-labelling; considers that this may be done in a manner that takes into account the costs of such a Europe-wide operation, as well as the specificities of particular sectors, such as that of processed agricultural goods;

Amendment

10. is in support of providing the consumer with the maximum amount of information available; is in favour of the introduction of comprehensive and compulsory legislation for "place of farming"-labelling; considers that this may be done in a manner that takes into account the costs of such a Europe-wide operation, as well as the specificities of particular sectors, such as that of processed agricultural goods; ***calls on the Commission to provide a clear definition of main raw material / main***

ingredient of processed food products;

Amendment 78

Esther Herranz García, Pilar Ayuso, Gabriel Mato Adrover

Motion for a resolution

Paragraph 13

Motion for a resolution

13. believes that the effective costs of implementation ***should be analysed in a comprehensive Commission study on the matter, so that the new legislation does not impose excessive costs on small and medium-sized producers; considers to that effect that several*** options should be considered in addition to labelling - such as barcodes or provision of information on websites;

Amendment

13. believes that the effective costs of ***mandatory*** implementation of ***"place of farming" labelling for Annex I products would be high; is in favour of voluntary place of farming labelling; is of the opinion*** that options ***other than labelling*** should be considered in addition to labelling - such as barcodes or provision of information on websites;

Or. en

Amendment 79
George Lyon

Motion for a resolution
Paragraph 13 a (new)

Motion for a resolution

Amendment

13 a. calls on the Commission to maintain consistency in its proposals on agricultural product-quality policy in terms of the approach to country of origin labelling as regards its proposed regulation on the provision of food information to consumers;

Or. en

Amendment 80
George Becali

Motion for a resolution
Paragraph 13 a (new)

Motion for a resolution

Amendment

13a. Considers that provided the food safety criteria are met, marketing standards should not deny market access to products on grounds of their appearance, shape or size;

Or. ro

Amendment 81
Michel Dantin, Herbert Dorfmann, Giovanni La Via, Astrid Lulling, Christophe Béchu

Motion for a resolution
Paragraph 14 a (new)

Motion for a resolution

Amendment

14a. Considers that the current EU rules on IG should be supplemented to ensure that the role played by organisations

designated or recognised by the Member States as responsible for managing, protecting and/or promoting intellectual property rights conferred by registration as a GI is fully recognised and enhanced;

Or. fr

Amendment 82
Esther Herranz García

Motion for a resolution
Paragraph 14 a (new)

Motion for a resolution

Amendment

14 a. considers that the current EU regulations on geographical indications (GIs) should be amended, so that the role played by the organisations designated or recognised by the Member States for the purposes of managing, protecting and/or promoting the intellectual property right conferred by the GI registration, is fully recognised and strengthened;

Or. en

Amendment 83
George Becali

Motion for a resolution
Paragraph 15

Motion for a resolution

Amendment

15. Further considers that the two instruments in place (the PDO - protected designation of origin and PGI - protected geographical indication) should also be kept in the future, given their high degree of recognition and success; holds that for the consumer, a clearer distinction between PDO and PGI needs to be made and that

15. Further considers that the two instruments in place (the PDO - protected designation of origin and PGI - protected geographical indication) should also be kept in the future, given their high degree of recognition and success; holds that for the consumer, a clearer distinction between PDO and PGI needs to be made and that

this can be achieved through an overall information and promotion effort;

this can be achieved through an overall information and promotion effort,
involving Community financial support in the context of both the international market and third countries, inter alia by increasing the percentage of Community cofinancing;

Motion for a resolution

Paragraph 16

Motion for a resolution

16. **Emphasises** that, on the basis of producers' experience, it has emerged that the management of the product quality through the PDOs and PGIs specifications, and the protection against usurpations are not sufficient for the further development of GI products; calls for an in-depth assessment to be carried out to identify suitable instruments for the management of the volume of production for PDO and PGI products;

Amendment

16. **Considers** that, on the basis of producers' experience, it has emerged that the management of the product quality through the PDOs and PGIs specifications, and the protection against usurpations are not sufficient for the further development of GI products; **takes the view that EU legislation should be amended so as to enable Member States to authorise organisations which they designate or recognise as responsible** for the management, **protection and/or promotion of GIs to adapt the production potential to market demands, on the basis of fair and non-discriminatory rules;**

Or. fr

Amendment 87

Esther Herranz García

Motion for a resolution

Paragraph 16

Motion for a resolution

16. emphasises that, on the basis of producers' experience, it has emerged that the management of the product quality through the PDOs and PGIs specifications, and the protection against usurpations are not sufficient for the further development of GI products; calls for an in-depth assessment to be carried out to identify suitable instruments for the management of the volume of production for PDO and PGI products;

Amendment

16. emphasises that, on the basis of producers' experience, it has emerged that the management of the product quality through the PDOs and PGIs specifications, and the protection against usurpations are not sufficient for the further development of GI products; calls for an in-depth assessment to be carried out to identify suitable instruments for the management of the volume of production for PDO and PGI products; ***believes that current EU legislation should be modified so that Member States can allow the organisations designated or recognised by them with regard to the management, protection and/or promotion of the GI to adapt the production potential to the requirements of the market on the basis of fair and non-discriminatory principles.***

Or. en

Amendment 88
Paolo Bartolozzi

Motion for a resolution
Paragraph 16 a (new)

Motion for a resolution

Amendment

16a. Proposes enhancing the role of geographical indication owners' consortia with regard to both volume management and use of geographical indications in the goods produced; considers that consortia should be able to play a role in the coordination of economic operators with a view to bringing the quantities produced and placed on the market as closely into line as possible with the quantities which the market can absorb, and in promotion measures vis-à-vis farmers and consumers; considers that this would

more effectively guarantee the long-term viability of the different stages of production, processing and distribution, which is essential to the life of rural areas; adds that quantity control is one of the requirements of quality control; takes the view that the definition of the role of consortia should be included in Community legislation; considers that the practices and experiences identified in the various EU Member States could be recorded and used to define the rights and duties of consortia;

Or. fr

Amendment 89
James Nicholson

Motion for a resolution
Paragraph 17

Motion for a resolution

17. considers that no additional criteria should be added to the certification process for any of those instruments, but rather the aim should be simplification;

Amendment

17. considers that no additional criteria should be added to the certification process for any of those instruments, but rather the aim should be simplification; *notes that the current procedures for registration of PDO and PGI's are complex and lengthy. Urges the Commission to find ways by which this process could be speeded up*

Or. en
