Paying agencies

1. Paying agencies shall be departments or bodies of the Member States responsible for the management and control of expenditure referred in Article 5(2) and Article 6.

With the exception of making payment, the carrying out of those tasks maybe delegated.

2. Member States shall accredit, as paying agencies, departments or bodies which have an administrative organisation and a system of internal control which provide sufficient guarantees that payments are legal, regular and properly accounted for. To this end, paying agencies shall comply with minimum conditions for the accreditation with regard to the internal environment, control activities, information and communication and monitoring laid down by the Commission pursuant to point (a) of Article 12a (1).

Each Member State shall restrict the number of its accredited paying agencies as follows:

(a) to a single agency at national level or, where applicable, one per region; and

(b) to a single agency for the management of both EAGF and EAFRD expenditure.

However, where paying agencies are established at regional level, Member States shall, in addition, either accredit a paying agency at national level for aid schemes which, by their nature, have to be managed at national level or Member States shall confer the management of these schemes on their regional paying agencies.

Paying agencies which did not manage EAGF or EAFRD expenditure for at least three years shall have their accreditation withdrawn.

Member States shall not appoint any new additional paying agency after the date of entry into force of this Regulation.

3. For the purposes of Article 63(5) and (6) of Regulation (EU, Euratom) 2018/... [the new Financial Regulation]('the Financial Regulation'), the person in charge of the accredited paying agency shall, by 15 February of the year following the financial year concerned, draw up and provide the Commission with the following:

(b) the annual financial clearance report referred to in Article 51(1) showing that the expenditure was made in accordance with Article 35;

(c) a management declaration as provided for in Article 63(6) of the Financial Regulation, as to the fact that the information is properly presented, complete and accurate, as provided for in point (a) of Article 63(6) of the Financial Regulation.

The deadline of 15 February referred to in the first subparagraph may be exceptionally extended by the Commission to 1 March, upon request by the Member State concerned, as provided for in the second subparagraph Article 63(7) of the Financial Regulation.

4. Where an accredited paying agency does not meet or no longer meets one or more of the accreditation criteria referred to in paragraph 2, the Member State, acting on its own initiative or at the request of the Commission, shall withdraw that accreditation unless the paying agency makes the necessary

changes within a period to be determined by the competent authority depending on the severity of the problem.

5. The paying agencies shall manage and ensure the control of the operations linked to public intervention for which they are responsible and they shall retain overall responsibility in that field.

Where support is provided through a financial instrument which is implemented by the EIB or another international financial institution in which a Member State is a shareholder, the paying agency shall rely on the control report supporting the payment applications submitted by the EIB or another international institution.

EXPLANATORY STATEMENT

On 1 June 2018 the European Commission adopted the package of three legislative proposals for the reform of the Common Agricultural Policy (CAP) 2021 - 2027 including the rules on “**Financing, Management and Monitoring**” (FMM) (Regulation (EU) No 393/2018). This extensive legislative package was initially foreseen for late 2017. The delay that occurred imposes a tight time limit coinciding with the end of the mandate of both the European Parliament and the Commission and thus creates difficult circumstances for adoption by the co-legislator.

The delay has been caused also due to a late proposal for the **Multi-annual Financial Framework 2021-2027** (MFF) in May 2018 only (COM(2018)321) which sets out the financial envelope for the future CAP. The allocation for the CAP is EUR 365 006 million for EU-27 (in commitment appropriations) which represents a reduction of around 5%. The allocation for the European Agricultural Guarantee Fund (EAGF) amounts to EUR 286.2 billion, a reduction of -1.1% while for the European Agricultural Fund for Rural Development (EAFRD), the EUR 78.8 billion represent a reduction of -15.3%, always compared to the baseline. However, if in the process of adoption further substantial changes are made to the proposed budgetary ceilings a revision of the Parliaments position might also be needed therefore eventually the final decision on the CAP reform is tied to the final agreement of the MFF.

The **overall architecture** of the CAP package comprises three reports: The Financing and Management (FMM) regulation, the CAP Strategic Plans regulation bringing under one umbrella two currently separate regulation on Direct Payments and Rural Development, and the Single Common Market Organisation regulation (CMO). Due to substantial overlaps, the Strategic Plans and FMM regulations have to be read and voted together.

As regards the **evidence-base**, the EC Impact Assessment (IA) largely fails to deliver e.g. on the key issue of simplification, where no detailed quantification of the reduction of administrative burden is provided - in reality it is shifted from the EC to the Member States. Meanwhile, the European Court of Auditors (ECA) delivered analysis on the performance of the current CAP demonstrates that the “Greening” component of Direct payments, while meant well, has not achieved its objectives entirely and has created a significant administrative burden.

While being a part of the CAP reform package, rapporteur believes that the report on the Financing and Management in particular can not be seen separately from the overall EU approach to Structural funds (ESIF) and in particular the proposal on **Common Provisions regulation** (CPR) that serves as an umbrella regulation for all EU multiannual funds. Both CPR and FMM refer also to the overall framework set out in the Financial regulation which covers all models of (direct, indirect, shared) management and provides the basic definitions (including Governance) and conditions (including audit and control). CPR allows for both performance and output orientation, the establishment of milestones with a link to disbursement based on result indicators and the use of Simplified Cost Options (SCO) such as flat rates, lumps sums and standard cost units that rapporteur believes are vital instruments also in the management of the EAFRD. In addition, it also clarifies the interlinkage between

LEADER (EAFRD-funded) and ESIF-Community-led Development (CLD) initiatives.

In the Parliaments resolution “*The Future of Food and Farming*” (P8_TA(2018)0224) of May 2017 on the Commissions Communication under the same title (COM(2017)713final), the key issues raised concern a simple and transparent governance system, a properly functioning result-orientated delivery model and an integration of the various Agri-Environmental and Climate Measures (AECM) into a coherent and simplified structure. The substantive change in the new CAP reform proposal, that rapporteur considers positive, is a shift from compliance to performance meanwhile assigning many more responsibilities from the Commission to the Member States, also as regards the management and controls as outlined in the FMM regulation.

The *key issues* of the EP draft report therefore aim to establish a legislative framework that allows for improved implementation of a simplified and modernised CAP management and control though:

Governance system: The dual objective of a both simple and comprehensive structure is achieved by an almost complete re-shuffle of the EC proposed system, notably clarifying structure and competences of the - increased - number of institutions (Coordinating body, Monitoring Committee) and specifying their additional tasks (Certification body) with a view to ensuring efficiency, transparency and accountability;

Reporting obligations: The change of system from a purely output (financial) to a mixed output-and results-based (performance) reporting system including the decreased Commission oversight and increased additional reporting duties by Member states. In order to limit the unavoidably increasing administrative burden (annual performance review) while ensuring relevance and quality of the new performance based system (performance result indicators), an adjustment of the reporting cycle is proposed;

Crises reserve: The crucial role of an adequately funded, independent and well-targetted crises mechanism is reinstated by limiting its scope to crisis only (no market intervention) while at the same time allowing for a broadening of the funding base both within the CAP framework as well as outside and keeping the proposed roll-over principle;

Penalties and controls: The threshold for exclusion from penalties is reinstated at EUR 1.250 per beneficiary and up to 10 ha of eligible land as a major step for simplification for small farmers; while at the same time, the necessity of risk-based on-the-spot checks by Member states is reinforced; better availability on satellite data from the EC to help to do better controls; to reinstate some degree of harmonization, a common system of gradually increasing penalty level is introduced in case of repeated non-compliance;

Farm Advisory Service (FAS): This is an essential element of the CAP implementation system and thus should remain in the horizontal regulation, together with more detailed rules to ensure access for beneficiaries in all Member states as a prerequisite for a modern agriculture policy throughout the EU;

Democratic oversight: The proposals contains an enormous number of empowerments to be decided at a later stage, which needed to be revised and redesigned to keep a balance between institutions.

Regarding the *entry-into-force* of the legislative proposals, once adopted by the co-legislators, it is useful to recall that for the last CAP programming period this necessitated two years of transitional measures. However, this did not coincide neither with the end of the Parliaments and Commissions mandate nor with the introduction of new tasks and structures. Therefore, a comprehensive legal act to govern the necessary transitional provisions, particularly the new performance-based approach, will have to be adopted in due time to give Member States the time to set up the new systems.
