B5-0309/2000**Resolution on Objective 2 funding for Viterbo**

The European Parliament,

- A. whereas the tardiness shown by the Italian Government and the Latium regional authorities in identifying and forwarding the names of the areas eligible for European Objective 2 funding has resulted in the whole of the Viterbo area and the province of Viterbo missing out on structural funding this year,
- B. whereas the Viterbo area and the province of Viterbo were not included in an initial classification of Objective 2 areas, despite the fact that they fully comply with the criteria laid down by the European Union,
- C. whereas the dilatory attitude shown by the Latium regional authorities and the Italian Government has led to the Tuscia area missing out on the funding already earmarked for the current year,
- D. whereas the financial support on offer from the Union would have helped to revitalise industrial, craft and agricultural production throughout the area,
 - 1. Calls for an urgent review of the areas deemed to meet the Objective 2 criteria, with a view to ensuring that the Viterbo area and the province of Viterbo are covered by the funding arrangements;
 - 2. Calls for the Commission to review without delay the proposals submitted by the Italian authorities relating to areas eligible on the basis of the Objective 2 criteria.
