**Paragraph 8**

*Motion for a resolution*

*Amendment*

8. Considers that for the EU to remain in the lead in terms of the development of technologies for a future climate-friendly economy, the EU greenhouse gas emissions reduction target should be at least 50 % by 2030;

8. Considers that for the EU *to be consistent with the 2°C-objective carbon budget, thus keeping a 1.5°C budget within reach, and for it* to remain in the lead in terms of the development of technologies for a future climate-friendly economy, the EU greenhouse gas emissions reduction target should be at least **60 %** by 2030;

**Paragraph 20 a (new)**

*Motion for a resolution*

*Amendment*

*20a. Notes that the EU could fulfil its vital role in reducing emissions through policies to stop the development of highly greenhouse-gas-intensive unconventional fossil fuels such as tar sands, oil shale and shale gas; takes the view, as already expressed in its resolution on stopping public subsidies for fossil fuels, that public subsidies supporting the development of unconventional fossil fuels should be phased out;*
