21. *Condemns racial and ethnic profiling used by police and law enforcement authorities, and considers that police and law enforcement forces must have an exemplary record on anti-racism and anti-discrimination; calls for the EU and the Member States to develop policies and measures to tackle discrimination and to end racial or ethnic profiling in all forms in criminal law enforcement, counter-terrorism measures and immigration controls; stresses, in particular, that the new technologies to be used by law enforcement authorities must be designed and used in such a way that they do not create risks of discrimination for racial and ethnic minorities; proposes action to strengthen the training of members of police and law enforcement forces on strategies to fight against racism and discrimination, and to prevent, identify and respond to racial profiling; calls on the Member States not to leave cases of police brutality and abuses unpunished, and to properly investigate, prosecute and sanction them;*
