B9-0298/2023

Motion for a European Parliament resolution on preserving family values and the institution of the family in the EU

The European Parliament,

- having regard to Article 81 of the Treaty on the Functioning of the European Union,
- having regard to Rule 143 of its Rules of Procedure,
- A. whereas EU education systems must pay particular attention to strengthening the institution of the traditional family and promoting the traditional family as the foundation of a healthy and vibrant society;
- B. whereas increasing reference is being made to LGBT people in education systems, while fundamental values such as the traditional family are given less and less space, and any defence of the institution of the traditional family is marginalised and treated as incitement to hatred;
- C. whereas children are being sexualised and given sex and gender education that is neither appropriate to their age nor to their ability to comprehend;
- D. whereas, following Poland's ban on LGBT propaganda in schools, the EU institutions are threatening to withdraw EU funding from Poland on the grounds that children's fundamental rights to hear LGBT propaganda are being violated;
- 1. Calls on the Commission to start supporting fundamental and basic values such as the family and freedom of expression, which are the foundations of any democratic society.
