4.7.2017

AMENDMENTS 797 - 1107

Draft report

Michèle Rivasi, Claude Turmes

(PE604.777v01-00)

on the proposal for a regulation of the European Parliament and of the Council on the Governance of the Energy Union, amending Directive 94/22/EC, Directive 98/70/EC, Directive 2009/31/EC, Regulation (EC) No 663/2009, Regulation (EC) No 715/2009, Directive 2009/73/EC, Council Directive 2009/119/EC, Directive 2010/31/EU, Directive 2012/27/EU, Directive 2013/30/EU and Council Directive (EU) 2015/652 and repealing Regulation (EU) No 525/2013

Proposal for a regulation

(COM(2016)0759 – C8-0497/2016 – 2016/0375(COD))

***National policies and measures for each
of the five dimensions of the Energy
Union***

***Member States shall describe, in
accordance with Annex I, in their
integrated national energy and climate
plan, the main existing (implemented and
adopted) and planned policies and
measures to achieve in particular the
objectives set out in the national plan,
including measures to ensure regional
cooperation and appropriate financing at
national and regional level.***

dimensions of the Energy Union

Or. en

Amendment 799
Henna Virkkunen

Proposal for a regulation
Article 7 – paragraph 1

Text proposed by the Commission

Member States shall describe, in accordance with Annex I, in their integrated national energy and climate plan, the main existing (implemented and adopted) and planned policies and measures to achieve in particular the objectives set out in the national plan, including measures to ensure regional cooperation and appropriate financing at national and regional level.

Amendment

Member States shall describe, in accordance with Annex I, in their integrated national energy and climate plan, the main existing (implemented and adopted) and planned policies and measures to achieve in particular the objectives set out in the national plan, including measures to ensure regional cooperation and appropriate financing at national and regional level. ***These measures should include references to any possible uses of locally available or regional energy sources.***

Or. en

Justification

Local fuels, such as peat, play an essential role to some communities. These fuel sources are a way to ensure energy independence on regional and national level and they reduce reliance on imported fuels.

Amendment 800
Soledad Cabezón Ruiz, José Blanco López, Inmaculada Rodríguez-Piñero Fernández, Carlos Zorrinho

Proposal for a regulation
Article 7 – paragraph 1

Text proposed by the Commission

Member States shall describe, in accordance with Annex I, in their integrated national energy and climate plan, the main existing (implemented and adopted) and planned policies and measures to achieve in particular the objectives set out in the national plan,

Amendment

Member States shall describe, in accordance with Annex I, in their integrated national energy and climate plan, the main existing (implemented and adopted) and planned policies and measures ***at national and regional level*** to achieve in particular the objectives set out

including measures to ensure regional cooperation and appropriate financing at national and regional level.

in the national plan, including measures to ensure regional cooperation and appropriate financing at national, *local* and regional level, *including the mobilisation of EU programmes and instruments*.

Or. es

Justification

The intervention of the regional level is fundamental in countries such as Spain, where powers in energy-related matters are largely decentralised.

Amendment 801

Carolina Punset, Gerben-Jan Gerbrandy, Fredrick Federley

Proposal for a regulation

Article 7 – paragraph 1

Text proposed by the Commission

Member States shall describe, in accordance with Annex I, in their integrated national energy and climate plan, the main existing (implemented and adopted) and planned policies and measures to achieve in particular the objectives set out in the national plan, including measures to ensure regional cooperation and appropriate financing at national *and regional* level.

Amendment

Member States shall describe, in accordance with Annex I, in their integrated national energy and climate plan, the main existing (implemented and adopted) and planned policies and measures to achieve in particular the objectives set out in the national plan, including measures to ensure regional cooperation and appropriate financing at national, *regional and local* level.

Or. en

Proposal for a regulation

Article 7 a (new)

Text proposed by the Commission

Amendment

Article 7a

Member States' contribution setting process in the area of Internal Energy Market

1. For the Internal Energy Market purpose, in particular for the national interconnection targets, the following

provisions shall apply:

a) Member States that have not reached the minimum interconnection target of 10% shall include in their Integrated National Energy and Climate Plans a roadmap for the achievement of the target considering the most efficient investment projects, after having consulted affected Member States.

b) The investment projects included in a Member State's roadmap, if the Member State has not reached a 10% level of interconnection, shall be subject to approval by the Commission and shall automatically increase the other affected Member States' interconnection target. For the purposes of the setting and notification of 2030 targets, affected Member States shall consider these projects as "Prior Investment Projects for the Internal Market".

2. Member States shall take into account that projects included in a Member State's roadmap that has not reached a 10% level of interconnection shall be qualified as Prior Investment Projects for the Energy Internal Market.

3. The Commission shall support Prior Investment Projects through an enabling framework comprising the enhanced use of Union funds, in particular financial instruments. Access to European funding shall not be conditioned to a specific positive cost benefit analysis. The following specific provisions shall apply:

a) The only purpose of cost benefit analysis of these projects shall be the distribution of the cost between affected Member States;

b) Prior Investment Projects shall be automatically qualified as projects of common interest;

c) Simplified procedures shall be established in national legislation for the necessary authorisations of these projects.

Competent authorities can only deny the granting of the necessary authorisations or impose conditions for environmental reasons in the light of the environmental impact assessment. In these cases, affected Member States shall examine alternative projects to meet the interconnection targets and a revised roadmap shall be presented to the European Commission for approval;

d) Delay or risk of delay in the implementation of these projects will entitle any affected Member State to require the Commission to designate an independent mediator for one or various projects whose decisions shall be respected by affected parties, or alternatively, to require de Commission to designate an independent technical expert to provide advice and propose changes on ongoing projects. EU funds shall be available for these purposes.

Or. en

Amendment 807

Piernicola Pedicini, Dario Tamburrano, Eleonora Evi, David Borrelli, Rosa D'Amato

Proposal for a regulation

Article 8 – paragraph 1

Text proposed by the Commission

1. Member States shall describe, in accordance with the structure and format specified in Annex I, the current situation for each of the five dimensions of the Energy Union including of the energy system and greenhouse gas emissions and removals at the time of submission of the national plan or on the basis of the latest available information. Member States shall also set out and describe projections for each of the five dimensions of the Energy Union for the first ten-year period at least until **2040** (including for the year 2030)

Amendment

1. Member States shall describe, in accordance with the structure and format specified in Annex I, the current situation for each of the five dimensions of the Energy Union including of the energy system and greenhouse gas emissions and removals at the time of submission of the national plan or on the basis of the latest available information. Member States shall also set out and describe projections for each of the five dimensions of the Energy Union for the first ten-year period at least until **2030** (including for the year 2030)

expected to result from existing (implemented and adopted) policies and measures.

expected to result from existing (implemented and adopted) policies and measures. *The methodology used for plans, projections and scenarios shall be scoped through public consultation and then made available to the public;*

Or. en

Amendment 808

Paul Rübiger

Proposal for a regulation

Article 8 – paragraph 1

Text proposed by the Commission

1. Member States shall describe, in accordance with the structure and format specified in Annex I, the current situation for each of the five dimensions of the Energy Union including of the energy system and greenhouse gas emissions and removals at the time of submission of the national plan or on the basis of the latest available information. Member States shall also set out and describe projections for each of the five dimensions of the Energy Union *for the first ten-year period at least until 2040 (including for the year 2030)* expected to result from existing (implemented and adopted) policies and measures.

Amendment

1. Member States shall describe, in accordance with the structure and format specified in Annex I, the current situation for each of the five dimensions of the Energy Union including of the energy system and greenhouse gas emissions and removals at the time of submission of the national plan or on the basis of the latest available information. Member States shall also set out and describe projections for each of the five dimensions of the Energy Union until **2030** expected to result from existing (implemented and adopted) policies and measures.

Or. en

Justification

There are goals adopted for 2030 as well as long-term strategies until 2050. The time horizons should be aligned across the framework.

Amendment 809

András Gyürk, György Hölvényi

Proposal for a regulation
Article 8 – paragraph 1

Text proposed by the Commission

1. Member States shall describe, in accordance with the structure and format specified in Annex I, the current situation for each of the five dimensions of the Energy Union including of the energy system and greenhouse gas emissions and removals at the time of submission of the national plan or on the basis of the latest available information. Member States shall also set out and describe projections for each of the five dimensions of the Energy Union for the first ten-year period at least until **2040 (including for the year 2030)** expected to result from existing (implemented and adopted) policies and measures.

Amendment

1. Member States shall describe, in accordance with the structure and format specified in Annex I, the current situation for each of the five dimensions of the Energy Union including of the energy system and greenhouse gas emissions and removals at the time of submission of the national plan or on the basis of the latest available information. Member States shall also set out and describe projections for each of the five dimensions of the Energy Union for the first ten-year period at least until **2030** expected to result from existing (implemented and adopted) policies and measures.

Dario Tamburrano, Piernicola Pedicini, David Borrelli, Eleonora Evi, Rosa D'Amato

Proposal for a regulation

Article 8 – paragraph 2 – point b

Text proposed by the Commission

(b) the macroeconomic, environmental,

Amendment

(b) the macroeconomic, ***geopolitical,***

skills and social impact of the planned policies and measures referred to in Article 7 and further specified in Annex I, for the first ten-year period at least until the year 2030 including a comparison with the projections **based on** existing (implemented and adopted) policies and measures referred to in paragraph 1;

health, environmental, skills and social impact of the planned policies and measures referred to in Article 7 and further specified in Annex I, for the first ten-year period at least until the year 2030 including a comparison with:

- i)* the projections **of** existing (implemented and adopted) policies and measures referred to in paragraph 1; **and**
- ii)* **alternative policies and measures that could be adopted.**

The methodology used to assess these impacts shall be scoped through public consultation;

Or. en

Justification

With the Commission's proposals, it will only be possible to assess whether a Member State is choosing a less environmentally damaging path than their existing one, but not whether they are choosing the least damaging pathway. It is important that MS fully assess all available options. Therefore this amendment is aimed at ensuring an European energy pathway of optimal sustainability and least impact on biodiversity, at avoiding planning conflicts and reducing the need of MS to address adverse environmental impacts at a later stage in the process (as required by Article 13 paragraph 4).

Amendment 817

Patrizia Toia, Simona Bonafè, Damiano Zoffoli

Proposal for a regulation
Article 8 – paragraph 2 – point c

Text proposed by the Commission

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Amendment

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030, ***including the interactions between these policies and measures with the emission trading scheme as these policies and measures are likely to impact the supply and demand of allowances***. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Or. en

Amendment 824
Miroslav Poche

Proposal for a regulation
Article 8 – paragraph 2 – point c

Text proposed by the Commission

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Amendment

(c) ***an assessment of*** interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten year period at least until the year 2030. ***The assessment also includes interactions between existing (implemented and adopted) and planned policies and measures and European energy and climate policy measures***. Projections concerning security of supply, infrastructure and market integration shall

be linked to robust energy efficiency scenarios.

Or. en

Justification

The impact assessment is needed, but member state should have enough flexibility to approach it, otherwise it can significantly delay the preparation of the National plan – it should be considered in the wording in this article and also in Annex II.

Amendment 825

Theresa Griffin, Carlos Zorrinho, Inmaculada Rodríguez-Piñero Fernández, Soledad Cabezón Ruiz, Miapetra Kumpula-Natri, Miriam Dalli, Jeppe Kofod, Miroslav Poche, Edouard Martin, Pervenche Berès, Flavio Zanonato, Nessa Childers, Jude Kirton-Darling, Nicola Caputo, Clare Moody, Csaba Molnár, Olle Ludvigsson, Jytte Guteland, José Blanco López

Proposal for a regulation

Article 8 – paragraph 2 – point c

Text proposed by the Commission

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Amendment

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. ***This shall also include a quantitative assessment of the extent to which each of the Member State's planned policies and measures affect the supply-demand balance of the ETS.*** Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Or. en

Amendment 826

Henna Virkkunen, Markus Pieper

Proposal for a regulation
Article 8 – paragraph 2 – point c

Text proposed by the Commission

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Amendment

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. ***A quantitative assessment should also be included of the extent to which each of Member State's planned policies and measures affect the supply-demand balance of the ETS.*** Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Or. en

Justification

The regulation on the Governance of the Energy Union should promote enhanced policy coherence. To advance coherence with the EU ETS, the emissions reductions of a new policy should be properly assessed before the introduction of a policy. This would enable the adjustment of the corresponding amount of allowances in the ETS by cancelling them from the auction supply accordingly. This would deliver a more efficient carbon pricing signal which would promote the transition towards a low-carbon economy.

Amendment 827

Amendment

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing

(implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

(implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. ***The assessment also includes interactions between existing (implemented and adopted) and planned policies and measures and European energy and climate policy measures.*** Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Or. en

Amendment 828
Merja Kyllönen

Proposal for a regulation
Article 8 – paragraph 2 – point c

Text proposed by the Commission

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Amendment

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. ***The assessment also includes interactions between existing (implemented and adopted) and planned policies and measures and European energy and climate policy measures.*** Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Or. en

Justification

The Governance Regulation needs to explain the process for assessments and reviews to address transparently the question of policy interaction. It is necessary to assess the impacts

of all policies that lead to emission reductions in view of evaluating the consequences that these other policies have on the Union's overall target of reducing greenhouse gas emissions.

Amendment 829
Kateřina Konečná

Proposal for a regulation
Article 8 – paragraph 2 – point c

Text proposed by the Commission

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Amendment

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten year period at least until the year 2030. ***The assessment also includes interactions between existing (implemented and adopted) and planned policies and measures and European energy and climate policy measures.*** Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Or. en

Justification

Addressing the overlap of policies from the outset is essential, i.e. before introducing energy-climate related policies, in order to ensure the EU ETS remains the central policy instrument to deliver the decarbonisation of Europe's economy. It has been proved that the Market Stability Reserve itself cannot restore the balance on the carbon market by 2030 and therefore each proposed policy measure has to be carefully assessed.

Amendment 830
Patrizia Toia, Simona Bonafè, Damiano Zoffoli

Proposal for a regulation
Article 8 – paragraph 2 – point c

Text proposed by the Commission

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Amendment

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. ***Such assessment shall consider interactions between planned policies and the functioning of the EU carbon market referred to in the Directive 2003/87/EC.*** Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Or. en

Amendment 831

Werner Langen, Herbert Reul, Angelika Niebler

Proposal for a regulation

Article 8 – paragraph 2 – point c

Text proposed by the Commission

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Amendment

(c) interactions between existing (implemented and adopted) and planned policies and measures within a policy dimension and between existing (implemented and adopted) and planned policies and measures of different dimensions for the first ten- year period at least until the year 2030. ***The impact of possible interactions with the emission trading system (EU ETS) shall be assessed.*** Projections concerning security of supply, infrastructure and market integration shall be linked to robust energy efficiency scenarios.

Or. de

Justification

Additional measures in the ETS sectors, technical regulations or State aid influence the balance between demand and supply in the ETS. Negative impacts on the balance of the ETS certificates should be avoided as a matter of urgency.

Amendment 832

Carolina Punset, Gerben-Jan Gerbrandy, Fredrick Federley

Proposal for a regulation

Article 8 – paragraph 2 – point c a (new)

Text proposed by the Commission

Amendment

(ca) the investment impact of the existing (implemented and adopted) and planned targets, policies and measures. This shall include the results of engagement with finance practitioners and investors and provide an outline of risks and barriers to investment and additional support that is required to secure investment (as set out in Annex B).

Or. en

Amendment 833

Angelo Ciocca, Lorenzo Fontana

Proposal for a regulation

Article 9

Text proposed by the Commission

Amendment

Article 9

deleted

Draft integrated national energy and climate plans

- 1. By 1 January 2018 and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).*
- 2. The Commission may issue*

recommendations on the draft plans to Member States in accordance with Article 28. Those recommendations shall in particular set out:

- (a) the level of ambition of objectives, targets and contributions in view of collectively achieving the Energy Union objectives and notably the Union's 2030 targets for renewable energy and energy efficiency;*
- (b) policies and measures relating to Member States' and Union level objectives and other policies and measures of potential cross-border relevance;*
- (c) interactions between and consistency of existing (implemented and adopted) and planned policies and measures included in the integrated national energy and climate plan within one dimension and among different dimensions of the Energy Union.*

3. Member States shall take utmost account of any recommendations from the Commission when finalising their integrated national energy and climate plan.

Or. it

Justification

Unnecessary bureaucratic duplication, at odds with the goal of simplification agreed by the European Council in October 2014. National plans should be notified two years before being implemented: this leaves more than enough time for any necessary prior adjustments.

Amendment 834
Paul Rübzig

Proposal for a regulation
Article 9 – paragraph 1

Text proposed by the Commission

1. *By 1 January 2018* and every ten years thereafter Member States shall

PE607.772v01-00

Amendment

1. *12 months after entry into force according to the provisions set out in*

26/162

AM\1129186EN.docx

prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Article 52 of this Regulation and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Or. en

Justification

The timetable for the integrated national energy and climate plans is too ambitious and not realistically executable. As long as other Regulations and Directives (i.e. EED, RED), influencing the plans, are not adopted, national plans cannot be submitted. Planning security is crucial.

Amendment 835

Annie Schreijer-Pierik

Proposal for a regulation

Article 9 – paragraph 1

Text proposed by the Commission

1. **By 1 January 2018** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Amendment

1. **Not later than six months after the adoption of this Regulation** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Or. nl

Amendment 836

Theresa Griffin, Carlos Zorrinho, Inmaculada Rodríguez-Piñero Fernández, Soledad Cabezón Ruiz, Miriam Dalli, Jeppe Kofod, Edouard Martin, Pervenche Berès, Flavio Zanonato, Nessa Childers, Jude Kirton-Darling, Nicola Caputo, Clare Moody, Csaba Molnár, Olle Ludvigsson, Jytte Guteland, José Blanco López, Kathleen Van Brempt

Proposal for a regulation

Article 9 – paragraph 1

Text proposed by the Commission

1. By 1 January 2018 and every **ten** years thereafter Member States shall

Amendment

1. By 1 January 2018 and every **five** years thereafter Member States shall

prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Or. en

Amendment 837

Jerzy Buzek, Janusz Lewandowski, Andrzej Grzyb, Marian-Jean Marinescu, Vladimir Urutchev, Christian Ehler

Proposal for a regulation Article 9 – paragraph 1

Text proposed by the Commission

1. By 1 January **2018** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Amendment

1. By 1 January **2019** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Or. en

Justification

The timeline should be more realistic, especially given that first integrated national energy and climate plans should also reflect the final provisions of the RES Directive and Energy Efficiency Directive on which legislative work still continues.

Amendment 838

Pavel Telička

Proposal for a regulation Article 9 – paragraph 1

Text proposed by the Commission

1. By 1 January **2018** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Amendment

1. By 1 January **2019** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Or. en

Justification

The proposed deadline is not realistic. The National plan has to include consultations with all stakeholders and time framework should take it into account.

Amendment 839 **Evžen Tošenovský**

Proposal for a regulation **Article 9 – paragraph 1**

Text proposed by the Commission

1. By 1 January **2018** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Amendment

1. By 1 January **2019** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Or. en

Amendment 840 **Zdzisław Krasnodębski, Jadwiga Wiśniewska**

Proposal for a regulation **Article 9 – paragraph 1**

Text proposed by the Commission

1. By 1 January **2018** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Amendment

1. By 1 January **2019** and every ten years thereafter Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

Or. en

Justification

The proposed deadline for submitting the first draft is unrealistic. As a precondition for setting any timeframe, there should be an agreement on the required content of the integrated national energy and climate plans. The timeframe for drafting the plans should also take into account public consultation requirement, as mentioned in Art.10, and government's approval at Member State level.

Amendment 841

João Ferreira

Proposal for a regulation

Text proposed by the Commission

Amendment

3a. Sharing of and full transparency concerning the contents of integrated national energy and climate plans, progress reports and Commission recommendations shall be guaranteed so that all Member States may know what each of the other Member States is contributing to the EU's common targets;

Or. it

Amendment 875

Carolina Punset, Gerben-Jan Gerbrandy, Fredrick Federley

Proposal for a regulation

Article 10 – paragraph 1

Text proposed by the Commission

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of draft plans referred to in Article 9 and attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

Amendment

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of draft plans referred to in Article 9 and ***of their updates referred to in Article 13 of this Regulation and of the progress reports referred to in Article 15 of this Regulation*** and attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views.

Or. en

Justification

It is important that stakeholders have the opportunity to analyse the information gathered by the Commission and the results of its assessments, in order for such stakeholders to be able to provide their views and further information that may have not been provided by the Member States and which could be useful for the Commission.

Amendment 876

Soledad Cabezón Ruiz, José Blanco López, Inmaculada Rodríguez-Piñero Fernández

Proposal for a regulation

Article 10 – paragraph 1

Text proposed by the Commission

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of draft plans referred to in

Amendment

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of draft plans referred to in

Article 9 and *attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views*. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

Article 9 of this Regulation, of long-term strategies referred to in Article 14 of this Regulation, and of progress reports referred to in Article 15 of this Regulation, when all options are open and effective public participation can take place. Given the politically recognised role of local and regional authorities in the implementation of sustainable energy policies, and taking into account the Commission's objective of ensuring better legislation, national authorities need to include local and regional authorities in the planning and monitoring process, in accordance with the framework of the constitutional and political provisions of each Member State, ensuring a balanced and sustainable development which also acts as a factor of social and territorial cohesion.

Or. es

Justification

The design and implementation of the measures may lead to an unbalanced development between the territories, as is happening in Spain, where they are concentrated in regions with greater wealth, in which citizens and undertakings have more resources to carry them out.

Amendment 877

Dario Tamburrano, Piernicola Pedicini, David Borrelli, Eleonora Evi, Rosa D'Amato

Proposal for a regulation

Article 10 – paragraph 1

Text proposed by the Commission

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of draft plans referred to in Article 9 and *attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views*. In so far

Amendment

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of draft plans referred to in Article 9 and *13 of this Regulation, of long-term strategies referred to in Article 14 of this Regulation, and of progress reports referred to in Article 15 of this*

as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

Regulation, when all options are open and effective citizens' participation can take place.

Or. en

Justification

The purpose of these amendments is to further strengthen the provisions on public participation to make sure that they comply with the Aarhus Convention.

Amendment 878
Paul Rübzig

Proposal for a regulation
Article 10 – paragraph 1

Text proposed by the Commission

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given *early and effective* opportunities to participate in the preparation of draft plans referred to in Article 9 and attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

Amendment

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given opportunities to participate in the preparation of draft plans referred to in Article 9 and attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation. *As general principle, excessive administrative and financial burden shall be avoided.*

Or. en

Amendment 879

Theresa Griffin, Carlos Zorrinho, Jo Leinen, Pavel Poc, Soledad Cabezón Ruiz, Inmaculada Rodríguez-Piñero Fernández, Miriam Dalli, Miroslav Poche, Jeppe Kofod, Edouard Martin, Pervenche Berès, Flavio Zanonato, Nessa Childers, Jude Kirton-

Darling, Nicola Caputo, Clare Moody, Csaba Molnár, Olle Ludvigsson, Jytte Guteland, José Blanco López

Proposal for a regulation
Article 10 – paragraph 1

Text proposed by the Commission

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of draft plans referred to in Article 9 and attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views. ***In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.***

Amendment

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of draft plans referred to in Article 9 ***of this Regulation, of long-term strategies referred to in Article 14 of this Regulation*** and attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views ***and the way they have been taken into consideration.***

Or. en

Amendment 880
Jean-Luc Schaffhauser, Nicolas Bay

Proposal for a regulation
Article 10 – paragraph 1

Text proposed by the Commission

Without prejudice to any other Union law requirements, Member States shall ensure that the public *is* given early and effective opportunities to participate in the preparation of draft plans referred to in Article 9 and attach to ***the submission of*** their draft integrated national energy and climate plan ***to the Commission*** a summary of the ***public's*** views. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

Amendment

Without prejudice to any other Union law requirements, Member States shall ensure that the public ***and stakeholders in the economy are*** given early and effective opportunities to participate in the preparation of draft plans referred to in Article 9 and attach to their draft integrated national energy and climate plan a summary of the views ***of the public and other parties consulted.*** In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to

consult the public under this Regulation.

Or. fr

Amendment 881

Mireille D'Ornano, Jean-François Jalkh, Sylvie Goddyn

Proposal for a regulation Article 10 – paragraph 1

Text proposed by the Commission

Without prejudice to any other Union law requirements, Member States shall ***ensure that the public is given early and effective opportunities to participate*** in the preparation of draft plans referred to in Article 9 and attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

Amendment

Without prejudice to any other Union law requirements, Member States shall ***decide on the conditions for the public's participation*** in the preparation of draft plans referred to in Article 9 and attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

Or. fr

Amendment 882

Angelo Ciocca, Lorenzo Fontana

Proposal for a regulation Article 10 – paragraph 1

Text proposed by the Commission

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of ***draft*** plans referred to in Article 9 and attach to the ***submission*** of their ***draft*** integrated national energy and climate plan to the Commission a summary

Amendment

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective opportunities to participate in the preparation of plans referred to in Article 3 and attach to the ***notification*** of their integrated national energy and climate plan to the Commission a summary of the

of the public's views. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

public's views. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

Or. it

Amendment 883

Carolina Punset, Gerben-Jan Gerbrandy, Fredrick Federley

Proposal for a regulation

Article 10 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1a. Member States shall also ensure that the public is given early and effective opportunities to participate in the preparation of any new legislation concerning the policies and measures referred to in Article 18 (b) of this Regulation. Member States shall attach to the submission of their Integrated National Energy and Climate Progress Reports a summary of the public's views.

Member States shall ensure the public is given early and effective opportunities to participate in the preparation of the national long-term low carbon strategies referred to in Article 14.

Or. en

Justification

It is important that stakeholders have the opportunity to analyse the information gathered by the Commission and the results of its assessments, in order for such stakeholders to be able to provide their views and further information that may have not been provided by the Member States and which could be useful for the Commission.

Amendment 884

Piernicola Pedicini, Dario Tamburrano, David Borrelli, Eleonora Evi, Rosa D'Amato

Proposal for a regulation
Article 10 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1a. Member States shall elaborate reasonable time-frames allowing sufficient time for the public to be informed and to prepare and participate effectively in the different stages of planning and reporting process. Member States shall take due account of equal participation and ensure that citizens are informed, whether by public notices or other appropriate means, such as electronic media where available, of:

(a) any proposals for documents referred to in paragraph 1 and for their updates;

(b) the practical arrangements for participation, including:

i. a timetable and work programme for the preparation of the documents, including a statement of the consultation measures to be taken and information about the right to participate in the preparation of the plans and strategies,

ii. the competent authority from which the relevant information may be obtained,

iii. details of the competent authorities to which comments, opinions or questions may be submitted

iv. time-frames to prepare and participate effectively in the different stages of planning and reporting processes.

Or. en

Justification

The purpose of this amendment is to further strengthen the provisions on public participation to make sure that they comply with the Aarhus Convention.

Article 10 a (new)

Text proposed by the Commission

Amendment

Article 10a

Multilevel Energy Dialogue Platform

1. In a spirit of partnership, Member States shall establish a permanent Energy Dialogue to support active engagement of regional and local authorities, civil society organisations, business community, investors, any other relevant stakeholders and the general public in managing the energy transition, including energy

poverty.

2. Member States shall submit to this Energy Dialogue different options and scenarios envisaged for their short, medium and long-term energy and climate policies, together with a cost-benefit analysis for each option.

3. Member States shall ensure that the Energy Dialogue benefits from adequate human and financial resources.

Or. es

Justification

The intervention of the regional level is fundamental in countries such as Spain, where powers in energy-related matters are largely decentralised.

Amendment 893

Dario Tamburrano, Piernicola Pedicini, Eleonora Evi, David Borrelli, Rosa D'Amato

Proposal for a regulation

Article 10 a (new)

Text proposed by the Commission

Amendment

Article 10 a

Multilevel Climate and Energy Dialogue Platform

1. In a spirit of partnership, each Member State shall establish a permanent Climate and Energy Dialogue Platform to support active engagement of regional and local authorities, civil society organisations, business community, investors and any other relevant stakeholders in managing the energy transition, including energy poverty.

2. Member States shall submit to their Climate and Energy Dialogue Platforms different options and scenarios envisaged for their short, medium and long-term energy and climate policies, together with a full impact assessment for

each option.

3. Climate and Energy Dialogue Platforms shall be forums for discussion on and elaboration of Integrated National Energy and Climate Plans, long-term energy and climate strategies and integrated national energy and climate progress reports. The platform members shall contribute actively to the establishment of relevant national plans and strategies, Integrated National Energy and Climate Plans, national long-term energy and climate strategies, relevant reports and any relevant updates.

4. Each Member State shall establish in a transparent way the rules of functioning of its Climate and Energy Platform. Member States shall ensure transparency in functioning of their Climate and Energy Dialogue Platforms and shall ensure that they benefit from adequate human and financial resources

Or. en

Justification

The amendment aims at: avoiding confusion as to whether the Platform(s) should be established at national or EU level, making sure that Platforms' tasks are related to energy as well as to climate, clarifying Energy Platform's role in relation to the Integrated National Energy and Climate Plans, long-term energy and climate strategies and integrated national energy and climate progress reports; ensuring transparency in the way Dialogue Platforms function, providing a clear distinction between the role of Dialogue Platforms and consultation and participation of general public.

Amendment 897

Soledad Cabezón Ruiz, José Blanco López, Inmaculada Rodríguez-Piñero Fernández

Proposal for a regulation

Article 11 – paragraph 1

Text proposed by the Commission

1. Member States shall cooperate with each other at regional level to effectively meet the targets, **objectives** and **contributions** set out in their integrated national energy and climate plan.

Amendment

1. Member States shall cooperate with each other at regional **or macro-regional** level to effectively meet the targets and **objectives** set out in their integrated national energy and climate plan. ***In order to facilitate this cooperation, the Commission shall evaluate for each of the macro-regions mentioned in Annex Ia (new), the cost of not acting together and propose concrete scenarios for effective macro-regional partnerships.***

Or. es

Justification

The intervention of the regional level is fundamental in countries such as Spain, where powers in energy-related matters are largely decentralised.

Amendment 898
Evžen Tošenovský

Proposal for a regulation
Article 11 – paragraph 1

Text proposed by the Commission

1. Member States shall cooperate with each other at regional level to effectively meet the targets, objectives and contributions set out in their integrated national energy and climate plan.

Amendment

1. Member States shall cooperate with each other at regional level to effectively meet the targets, objectives and contributions set out in their integrated national energy and climate plan, ***in so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.***

Or. en

Amendment 899

Miroslav Poche

Proposal for a regulation

Article 11 – paragraph 1

Text proposed by the Commission

1. Member States shall cooperate with each other at regional level to effectively meet the targets, objectives and contributions set out in their integrated national energy and climate plan.

Amendment

1. Member States shall cooperate with each other at regional level to effectively meet the targets, objectives and contributions set out in their integrated national energy and climate plan, ***in so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.***

Or. en

Justification

To include in the article 11 similar wording as in article 10 to prevent the duplication of regional cooperation under Directive 2001/42/EC, same rationale as in article 10 is applied (might be in paragraph 1 as proposed or in different paragraph or in separate paragraph altogether).

Amendment 900

Carolina Punset, Gerben-Jan Gerbrandy, Fredrick Federley

Proposal for a regulation

Article 11 – paragraph 1

Text proposed by the Commission

1. Member States shall cooperate with each other at regional level to effectively meet the targets, objectives and contributions set out in their integrated national energy and climate plan.

Amendment

1. Member States shall cooperate with each other at regional level to effectively meet the targets, objectives and contributions set out in their integrated national energy and climate plan. ***The Commission should provide further guidance on the cooperation and ensure that the process is based on commenting on the respective drafts and reflective of regional specificities.***

Amendment 901

Amendment

1a. Such scenarios may cover one or more of the following sectors:

- **energy efficiency**
- **deployment of renewable energy sources**
- **grid planning and management**
- **market integration and optimisation**
- **security of supply**

Or. en

Justification

(This amendment is additional to AM 113 of the draft report)

Amendment 905

Michèle Rivasi, Claude Turmes
on behalf of the Verts/ALE Group

Proposal for a regulation
Article 11 – paragraph 1 b (new)

Text proposed by the Commission

Amendment

1b. Member States shall meet at least on an annual basis at high level, in the presence of the European Commission, in order to give political directions to macro-regional partnerships.

Where appropriate, Member States and the Commission shall invite grid operators, national regulatory authorities and any other relevant stakeholder to attend high-level meetings.

Member States shall agree on a governance structure for each macro-regional partnership, including the creation of topical working groups.

Or. en

Justification

(This amendment is additional to AM 113 of the draft report)

Amendment 906
Michèle Rivasi, Claude Turmes
on behalf of the Verts/ALE Group

Proposal for a regulation
Article 11 – paragraph 1 c (new)

Text proposed by the Commission

Amendment

1c. The Commission shall be empowered to adopt implementing acts in accordance with Article 36 to modify Annex Ic (new). The Commission shall also take relevant legal steps in order to associate relevant third countries into the macro-regional partnerships listed in Annex Ic (new).

Or. en

Justification

(This amendment is additional to AM 113 of the draft report)

Amendment 907

João Ferreira

Proposal for a regulation

Article 11 – paragraph 2

Text proposed by the Commission

2. Member States shall, ***well before submitting their draft integrated national energy and climate plan to the Commission pursuant to Article 9(1)***, identify opportunities for regional cooperation and consult neighbouring Member States and the other Member States expressing an interest. Member States shall set out in their draft integrated national energy and climate plans the results of such regional consultation, including where applicable how comments have been taken into account.

Amendment

2. Member States shall, identify opportunities for regional cooperation and consult neighbouring Member States and the other Member States expressing an interest. Member States shall set out in their draft integrated national energy and climate plans the results of such regional consultation, including where applicable how comments have been taken into account.

Or. en

Proposal for a regulation

Article 11 – paragraph 2

Text proposed by the Commission

2. Member States shall, well before submitting their draft integrated national energy and climate plan to the Commission pursuant to Article 9(1), identify opportunities for regional cooperation and consult neighbouring Member States and the other Member States expressing an interest. Member States shall set out in their draft integrated national energy and

Amendment

2. Member States shall, well before submitting their draft integrated national energy and climate plan to the Commission pursuant to Article 9(1), identify opportunities for regional cooperation ***for macro-regional associations*** and consult neighbouring Member States and the other Member States expressing an interest, ***in line with the provisions of Directive***

climate plans the results of such regional consultation, including where applicable how comments have been taken into account.

2011/92/EU and the Espoo Convention.
Member States shall set out in their draft integrated national energy and climate plans the results of such regional consultation, including where applicable how comments have been taken into account.

Or. es

Justification

The intervention of the regional level is fundamental in countries such as Spain, where powers in energy-related matters are largely decentralised. In the field of regional co-operation, forms of collaboration between different regions are emerging, without the intervention of the Member States themselves, such as new partnerships or collaboration in H2020 and Interreg projects, etc.

Amendment 909 **Henna Virkkunen**

Proposal for a regulation **Article 11 – paragraph 2**

Text proposed by the Commission

2. Member States shall, well before submitting their draft integrated national energy and climate plan to the Commission pursuant to Article 9(1), identify opportunities for regional cooperation and consult neighbouring Member States and the other Member States expressing an interest. Member States shall set out in their draft integrated national energy and climate plans the results of such regional consultation, including where applicable how comments have been taken into account.

Amendment

2. Member States shall, well before submitting their draft integrated national energy and climate plan to the Commission pursuant to Article 9(1), identify opportunities for regional cooperation, ***including the use of locally available or regional energy sources***, and consult neighbouring Member States and the other Member States expressing an interest. Member States shall set out in their draft integrated national energy and climate plans the results of such regional consultation, including where applicable how comments have been taken into account.

Or. en

Justification

Local fuels, such as peat, play an essential role to some communities. These fuel sources are a way to ensure energy independence on regional and national level and they reduce reliance on imported fuels.

Amendment 910

Jerzy Buzek, Janusz Lewandowski, Andrzej Grzyb, Marian-Jean Marinescu, András Gyürk, György Hölvényi, Christian Ehler, Vladimir Urutchev

Proposal for a regulation

Article 11 – paragraph 2

Text proposed by the Commission

2. Member States shall, well before submitting their draft integrated national energy and climate plan to the Commission pursuant to Article 9(1), identify opportunities for regional cooperation and consult ***neighbouring Member States and the other*** Member States ***expressing an interest***. Member States shall set out in their draft integrated national energy and climate plans the results of such regional consultation, including where applicable how comments have been taken into account.

Amendment

2. Member States shall, well before submitting their draft integrated national energy and climate plan to the Commission pursuant to Article 9(1), identify opportunities for regional cooperation and consult ***relevant neighbouring*** Member States. Member States shall set out in their draft integrated national energy and climate plans the results of such regional consultation, including where applicable how comments have been taken into account.

Or. en

Justification

Taking into account the current state of interconnectors' development it is reasonable to narrow down the scope of consultations only to the relevant neighbouring Member States.

Article 11 a (new)

Text proposed by the Commission

Amendment

Article 11a

Identification and financing of Renewable energy projects of Energy Union interest (RPEI)

1. Without prejudice to Regulation (EU) 347/2013, this Regulation establishes five opportunity-based macro-regional partnerships ('partnerships') as set out in Annex Ib (new). Building on the Commission's assessment realised pursuant to Article 11 (1), each partnership shall draw a regional list of renewable energy projects of Energy Union interest ('RPEI') contributing to

the achievement of the target referred to in article 4 paragraph 2. This list shall be part of the national energy and climate plans referred to in Article 3 and subsequently jointly submitted to the European Commission by Member States composing each partnership.

2. When drawing their list of RPEI, partnerships shall take into account the following criteria:

(a) the potential overall benefits of the project;

(b) the project involves at least two Member States gathered in a cooperation mechanism that can be inter alia a joint project or a joint cooperation mechanism or a cross-border cooperation as set out in article [5] of [recast of the RES Directive];

(c) the project is located on the territory of one Member State or in international waters and has a significant cross-border impact.

3. Upon reception of integrated national energy and climate plans, the Commission shall establish a Union list of RPEI by 31 December 2020. The Commission shall be empowered to adopt delegated acts in accordance with Article 36 to establish the Union list of RPEI.

4. When establishing the Union list, the Commission shall:

(a) ensure that only those projects that fulfil the criteria referred to in paragraph 2 of this Article are included;

(b) ensure cross-regional consistency;

(c) aim for a manageable total number of RPEI;

(d) ensure a favourable treatment of RPEIs in sectors where the Member States have produced joint regional deployment trajectory to 2030;

5. The Commission shall be empowered to adopt delegated acts in accordance with Article 36 to establish the

methodology to be used by partnerships when conducting the cost-benefit analysis referred to in paragraph 2(a) of this Article, factoring in environmental, health, macro-economic, skills and social impacts.

6. By 30 June 2021, each Member State shall designate one national competent authority which shall be responsible for facilitating and coordinating the permit granting process for RPEI included in the Union list. The competent authority shall take actions to facilitate the issuing of the comprehensive decision.

7. Where a RPEI encounters significant implementation difficulties, the Commission may designate, in agreement with the Member States composing the partnership concerned, a European coordinator for a period of up to one year renewable twice. For the purpose of this Regulation, provisions of Article 6 of the Regulation (EU) 347/2013 shall apply.

8. Provisions laid down in Article 10 of this Regulation shall apply to the RPEI selection process undertaken by partnerships.

9. RPEI included in the Union list are eligible for Union financial support in the form of grants, loans, equity, financial instruments and guarantee funds. In addition, the Commission shall set-up a financing platform at Union level directly contributing to financial support to RPEI included in the Union list and managed directly or indirectly by the Commission. This financing platform shall mobilise EU and national funds, notably Member States contributions pursuant to Article 27 (4) of this Regulation.

Article 11 a

Enhanced regional cooperation

1. The Commission shall, upon request by two or more Member States, establish a framework for Member States to jointly draft and submit to the Commission parts of the Integrated national energy and climate plan. If two or more Member States pursue such enhanced regional cooperation, the Regional integrated energy and climate plan shall replace the equivalent parts of their respective national plans.

2. The Commission may, with a view to promote cost-efficient policies, identify opportunities for enhanced regional cooperation, with a long-term vision, based on existing market structures, interconnections or other market conditions which could facilitate an enhanced regional cooperation, and based on such opportunities issue non-binding recommendations to the Member States.

Just transition initiative for workers and communities

1. This Regulation establishes a just transition initiative to support workers and communities which could be adversely impacted by the transition to a low carbon economy. The initiative should take the form of a board of representatives coming from Member States national authorities, European Commission, local and regional representatives as well as social partners developing calls for projects in the area of the just transition.

2. Calls for projects shall aim to make green opportunities real and to support workers and communities in the context of the energy transition. When drawing their calls for projects, board members should aim to:

- (a) retain and create decent and sustainable jobs;*
- (b) strengthen the training and up scaling of workers in clean processes and technologies;*
- (c) enhance social protection schemes, including active labour market policies;*

3. The Commission shall set up a financing platform at Union level directly contributing financial support to the Just

Amendment 952
Miroslav Poche

Proposal for a regulation
Article 13 – paragraph 2

Text proposed by the Commission

2. By 1 January **2024**, and every 10 years thereafter, Member States shall notify to the Commission an update of the latest notified integrated national energy and climate plan referred **to** in Article 3, unless they have confirmed that the plan remains valid pursuant to paragraph 1 **of this Article**.

Amendment

2. By 1 January **2025**, and every 10 years thereafter, Member States shall notify to the Commission an update of the latest notified integrated national energy and climate plan referred in Article 3, unless they have confirmed that the plan remains valid pursuant to paragraph 1. ***If needed Member States have a right to update the integrated national energy and climate plan in other, in this case justification should be provided.***

Or. en

Justification

The update of the National plan (if needed) should be postponed to the year 2025 or 2026 with the draft one year ahead, which is in the middle of the interval of the first National plan. Member states should also have the flexibility to update the National plan if needed, this should be reflected in the wording of this article.

Amendment 953 **Kateřina Konečná**

Proposal for a regulation **Article 13 – paragraph 2**

Text proposed by the Commission

2. By 1 January **2024**, and every 10 years thereafter, Member States shall notify to the Commission an update of the latest notified integrated national energy and climate plan referred **to** in Article 3, unless they have confirmed that the plan remains valid pursuant to paragraph 1 **of this Article**.

Amendment

2. By 1 January **2025**, and every 10 years thereafter, Member States shall notify to the Commission an update of the latest notified integrated national energy and climate plan referred in Article 3, unless they have confirmed that the plan remains valid pursuant to paragraph 1. ***If needed Member States may update the integrated national energy and climate plan also on other date, in this case justification should be provided.***

Or. en

Amendment 954 **João Ferreira**

Proposal for a regulation **Article 13 – paragraph 2**

Text proposed by the Commission

2. By 1 January 2024, and every 10 years thereafter, Member States shall **notify** to the Commission an update of the latest notified integrated national energy and climate plan referred to in Article 3, unless they have confirmed that the plan remains valid pursuant to paragraph 1 of this Article.

Amendment

2. By 1 January 2024, and every 10 years thereafter, Member States shall **present** to the Commission an update of the latest notified integrated national energy and climate plan referred to in Article 3, unless they have confirmed that the plan remains valid pursuant to paragraph 1 of this Article.

ambition as compared to the ones set in the latest notified integrated national energy and climate plan.

Or. en

Amendment 960

Werner Langen, Herbert Reul, Angelika Niebler

Proposal for a regulation

Article 13 – paragraph 3

Text proposed by the Commission

Amendment

3. Member States shall only modify the targets, objectives and contributions set out in the update referred to in paragraph 2 to reflect an increased ambition as compared to the ones set in the latest notified integrated national energy and climate plan. **deleted**

Or. de

Justification

The Commission proposes that only upward revision of the objectives, requirements and contributions should be possible. This would mean that only limited responses would be possible to unfavourable developments and adjustments could not be made to over-ambitious or erroneous targets. This rule would also lead to countries setting their requirements, objectives and contributions deliberately low for tactical reasons.

Amendment 961

Edward Czesak

Proposal for a regulation

Article 13 – paragraph 3

Text proposed by the Commission

Amendment

3. Member States shall only modify the targets, objectives and contributions set out in the update referred to in paragraph 2 to reflect an increased ambition as compared to the ones set in the latest

3. Member States shall only modify the targets, objectives and contributions set out in the update referred to in paragraph 2 for the purpose of setting out new factors affecting the achievement of the Energy

notified integrated national energy and climate plan.

Union's objectives.

Or. pl

Justification

Updating the national plan targets with the sole aim of reflecting increased ambition may distort the shape of the Member States' own energy balance in terms of energy security. Investment stability can also be ensured when setting out the possibilities for reducing targets as defined previously.

Amendment 962

András Gyürk, György Hölvényi

Proposal for a regulation

Article 13 – paragraph 3

Text proposed by the Commission

3. Member States ***shall only*** modify the targets, objectives and contributions set out in the update referred to in paragraph 2 to reflect ***an increased ambition as compared to the ones set in the latest notified integrated national energy and climate plan.***

climate plan.

Union's target.

Or. en

Justification

There is no justification provided for modifying targets only to reflect increased ambition as investment stability may be guaranteed also when targets would decrease in the previously defined manner.

Amendment 964

Paul Rübiger

Proposal for a regulation

Article 13 – paragraph 3

Text proposed by the Commission

3. Member States shall only modify the targets, objectives and contributions set out in the update referred to in paragraph 2 ***to reflect an increased ambition as compared to the ones set in the latest notified integrated national energy and climate plan.***

Amendment

3. Member States shall only modify the targets, objectives and contributions set out in the update referred to in paragraph 2

Or. en

Justification

Member States must be enabled to adopt their planning also in line with emergencies, collaboration initiatives as well as increased energy demand due to decarbonisation activities.

Amendment 965

Jerzy Buzek, Janusz Lewandowski, Andrzej Grzyb, Marian-Jean Marinescu, Markus Pieper, Vladimir Urutchev, Christian Ehler

Proposal for a regulation

Article 13 – paragraph 3

Text proposed by the Commission

3. Member States shall ***only*** modify

Amendment

3. Member States shall modify the

the targets, objectives and contributions set out in the update referred to in paragraph 2 to reflect an increased ambition as compared to the ones set in the latest notified integrated national energy and climate plan.

targets, objectives and contributions set out in the update referred to in paragraph 2 to reflect an increased *or maintained* ambition as compared to the ones set in the latest notified integrated national energy and climate plan, *as well as reflect new factors impacting the achievement of the goals of the Energy Union.*

Or. en

Justification

Member States should have the possibility to adapt their national energy and climate plans to reflect changing macroeconomic conditions, technological advancement or international circumstances having a significant impact. Updating the national plans with regard to their objectives and targets only to reflect increased ambitions may disrupt the balance in energy mix of a Member State leading to increased dependence on energy imports, thus negatively impacting energy security of a Member State.

Amendment 966

Angelo Ciocca, Lorenzo Fontana

Proposal for a regulation

Article 13 – paragraph 3

Text proposed by the Commission

3. Member States shall only modify the targets, objectives and contributions set out in the update referred to in paragraph 2 to reflect *an increased ambition as* compared to the ones set in the latest notified integrated national energy and climate plan.

Amendment 984

Theresa Griffin, Carlos Zorrinho, Nikos Androulakis, Jo Leinen, Inmaculada Rodríguez-Piñero Fernández, Soledad Cabezón Ruiz, Miriam Dalli, Patrizia Toia, Jeppe Kofod, Edouard Martin, Pervenche Berès, Flavio Zanonato, Nessa Childers, Jude Kirton-Darling, Nicola Caputo, Clare Moody, Csaba Molnár, Olle Ludvigsson, Jytte Guteland, José Blanco López, Kathleen Van Brempt

Proposal for a regulation

Article 14 – paragraph 1 – introductory part

Text proposed by the Commission

1. Member States shall prepare and report to the Commission by 1 January **2020** and every 10 years thereafter their long-term low emission strategies with a 50 years perspective, to contribute to:

Amendment

1. Member States shall prepare and report to the Commission by 1 January **2019** and every 10 years thereafter their long-term low emission strategies with a 50 years perspective ***as set out in Annex II (new), however, for the purposes of meeting the Paris Agreement goals, the first long-term low emission strategies shall have 2050 as a starting point,*** to contribute to:

Or. en

Amendment 985

Edward Czesak

Proposal for a regulation
Article 14 – paragraph 1 – introductory part

Text proposed by the Commission

1. Member States *shall prepare and report to the Commission* by 1 January 2020 and every 10 years thereafter their long-term *low emission* strategies with a *50 years* perspective, *to contribute* to:

Amendment

1. Member States *and the Commission, on behalf of the Union, shall prepare* by 1 January 2019 and every *five* years thereafter their long-term *energy and climate* strategies with a *2020* perspective, to:

Or. pl

Justification

There is no justification for putting together energy strategies with a 2020 perspective. Putting together realistic strategies with such a timeframe is unrealistic.

Amendment 986
Carolina Punset, Gerben-Jan Gerbrandy

Proposal for a regulation
Article 14 – paragraph 1 – introductory part

Text proposed by the Commission

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a 50 years perspective, to contribute to:

Amendment

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a *30 years and* 50 years perspective, to contribute to:

Or. en

Justification

Forecasting with a timespan longer than 30 years is very challenging considering the limitations of economic modelling. But it is important to set out a longer term 50-year vision for both investors' certainty and the Paris Agreement goal of net-zero emissions in the second half of this century. This amendment aims to bridge both points of view.

Amendment 987
Peter Liese

Proposal for a regulation
Article 14 – paragraph 1 – introductory part

Text proposed by the Commission

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a 50 years perspective, to contribute to:

Amendment

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a **30 and** 50 years perspective, to contribute to:

Amendment 991
Miroslav Poche

Proposal for a regulation
Article 14 – paragraph 1 – introductory part

Text proposed by the Commission

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a **50** years perspective, to contribute to:

Amendment

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a **30** years perspective, to contribute to:

Or. en

Justification

A 30-year horizon is more sensible. The horizon which goes beyond 2050 presents a high level of uncertainty and is unpredictable and has little value added for planning purposes.

Amendment 992
Zdzisław Krasnodębski, Jadwiga Wiśniewska

Proposal for a regulation

Article 14 – paragraph 1 – introductory part

Text proposed by the Commission

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a **50** years perspective, to contribute to:

Amendment

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a **20** years perspective, to contribute to:

Or. en

Justification

There is no justification provided for preparing long-term low emission strategies with a 50 years perspective. Due to evolving economic and technological conditions this time perspective should be shortened up to a maximum of 20 years.

Amendment 993

Jerzy Buzek, Janusz Lewandowski, Andrzej Grzyb, Marian-Jean Marinescu, Andrés Gyürk, György Hölvényi, Christian Ehler, Markus Pieper, Vladimir Urutchev

Proposal for a regulation

Article 14 – paragraph 1 – introductory part

Text proposed by the Commission

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a **50** years perspective, to contribute to:

Amendment

1. Member States shall prepare and report to the Commission by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a **20** years perspective, to contribute to:

Or. en

Justification

Given the growing dynamics in economic changes and technological advances, from the point of effectiveness and reliability of premises, expected trends as well as proposed measures, it is difficult to propose meaningful long-term strategies with a 50-year perspective. The time perspective should be limited to a maximum of 20 years.

Amendment 994
Jean-Luc Schaffhauser, Nicolas Bay

Proposal for a regulation
Article 14 – paragraph 1 – introductory part

Text proposed by the Commission

1. Member States shall prepare and report to the **Commission** by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a 50 years perspective, to contribute to:

Amendment

1. Member States shall prepare and report to the **Council** by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a 50 years perspective, to contribute to:

Or. fr

(c) achieving long-term greenhouse gas emission reductions and enhancements of removals by sinks in all sectors in line with the Union's objective, in the context of necessary reductions according to the IPCC by developed countries as a group, to reduce emissions by 80 to 95 % by 2050 compared to 1990 levels in a cost-effective manner.

Amendment

(c) achieving long-term greenhouse gas emission reductions and enhancements of removals by sinks in all sectors in line with the Union's objective, in the context of necessary reductions according to the IPCC by developed countries as a group, to reduce emissions by 80 to 95 % by 2050 compared to 1990 levels in a cost-effective manner, ***in addition to enhancements of removals by sinks in pursuit of the temperature goals in the Paris Agreement.***

Or. en

Amendment 1000

Carolina Punset, Gerben-Jan Gerbrandy

Proposal for a regulation

Article 14 – paragraph 1 – point c

Text proposed by the Commission

(c) achieving long-term greenhouse gas emission reductions and enhancements of removals by sinks in all sectors in line with the Union's objective, in the context of necessary reductions according to the IPCC

Amendment

(c) achieving long-term greenhouse gas emission reductions and enhancements of removals by sinks in all sectors in line with the Union's objective, in the context of necessary reductions according to the IPCC

by developed countries as a group, to reduce emissions by 80 to 95 % by 2050 compared to 1990 levels in a cost-effective manner.

by developed countries as a group, to reduce emissions by 80 to 95 % by 2050 compared to 1990 levels in a cost-effective manner **and achieving a balance between greenhouse gas emissions and removals by sinks shortly thereafter.**

Or. en

Amendment 1001

Paul Rübzig

Proposal for a regulation

Article 14 – paragraph 1 – point c

Text proposed by the Commission

(c) achieving long-term greenhouse gas emission reductions and enhancements of removals by sinks in all sectors in line with the Union's objective, in the context of necessary reductions according to the IPCC by developed countries as a group, to reduce emissions by 80 to 95 % by 2050 compared to 1990 levels in a cost-effective manner.

Amendment

(c) achieving long-term greenhouse gas emission reductions and enhancements of removals by sinks in all sectors **including 'grey emissions' related to imports** in line with the Union's objective, in the context of necessary reductions according to the IPCC by developed countries as a group, to reduce emissions by 80 to 95 % by 2050 compared to 1990 levels in a cost-effective manner.

Or. en

Justification

Due to the global nature of GHG effects, also any emission reduction outside the borders of the EU should be taken into account as a net effect.

Amendment 1002

Peter Liese

Proposal for a regulation

Article 14 – paragraph 1 – point c

Text proposed by the Commission

(c) achieving long-term greenhouse gas

Amendment

(c) achieving long-term greenhouse gas

emission reductions and enhancements of removals by sinks in all sectors in line with the Union's objective, in the context of necessary reductions according to the IPCC by developed countries as a group, to reduce emissions **by** 80 to 95 % by 2050 compared to 1990 levels in a cost-effective manner.

emission reductions and enhancements of removals by sinks in all sectors in line with the Union's objective, in the context of necessary reductions according to the IPCC by developed countries as a group, to reduce emissions **at the upper end of the** 80 to 95 % by 2050 compared to 1990 levels in a cost-effective manner.

Or. en

Justification

The upper end of the EU's 2050 commitment to reduce emissions by 80% to 95% will allow the EU to make a fair and safe contribution to keeping global average temperature rise below 2°C.

Amendment 1003

Soledad Cabezón Ruiz, José Blanco López, Inmaculada Rodríguez-Piñero Fernández, Patrizia Toia

Proposal for a regulation

Article 14 – paragraph 1 – point c a (new)

Text proposed by the Commission

Amendment

(ca) achieve - at the latest by 2050 - a highly energy efficient and fully renewables-based energy system and a net-zero greenhouse gas emission within the Union, taking advantage of all the energy potential of the various territories, within a global concept of efficiency.

Or. es

Justification

It is necessary to take advantage of the full potential of the various territories: the efficiency of their use in each of the territories must be considered or prioritised and the exploitation of renewable resources in territories where there is a greater potential for exploitation must be considered a priority.

Amendment 1004

Dario Tamburrano, Piernicola Pedicini, Eleonora Evi, David Borrelli, Rosa D'Amato

Proposal for a regulation

Article 14 – paragraph 1 – point c a (new)

Text proposed by the Commission

Amendment

(ca) achieve, at the latest by 2040, a highly energy efficient and fully renewables based energy system and net zero greenhouse gas emissions within the Union, going into negative emissions by 2050

Or. en

Amendment 1005

Luke Ming Flanagan

Proposal for a regulation

Article 14 – paragraph 1 – point c a (new)

Text proposed by the Commission

Amendment

(ca) achieve -at the latest by 2040 - a highly energy efficient and fully renewables-based energy system and net-zero greenhouse gas emissions within the Union, going into negative emissions by 2050.

Or. en

Amendment 1014

Miroslav Poche

Proposal for a regulation

Article 14 – paragraph 2 – point c

Text proposed by the Commission

(c) expected progress on transition to a low greenhouse gas emission economy including greenhouse gas intensity, ***CO2 intensity of gross domestic product*** and strategies for related research, development and innovation;

Amendment

(c) expected progress on transition to a low greenhouse gas emission economy including greenhouse gas intensity and strategies for related ***long-term investments***, research, development and innovation;

Or. en

Amendment 1015

Nadine Morano

Proposal for a regulation

Article 14 – paragraph 2 – point c

Text proposed by the Commission

(c) expected progress on transition to a low greenhouse gas emission economy

Amendment

(c) expected progress on transition to a low greenhouse gas emission economy

including greenhouse gas intensity, CO2 intensity of gross domestic product and strategies for related research, development *and* innovation;

including greenhouse gas intensity, CO2 intensity *of electricity generation, CO2 intensity* of gross domestic product and strategies for related research, development, innovation *and investment*;

Or. fr

Justification

The energy bundle continues to be a Member State competence but CO2 intensity is a good indicator of progress made on targets for cutting CO2 emissions. Furthermore, investment is needed if these targets are to be met.

Amendment 1016

Gunnar Hökmark, Angélique Delahaye, Krišjānis Kariņš, Christofer Fjellner, Marian-Jean Marinescu, Mairead McGuinness, Seán Kelly, Françoise Grossetête, Henna Virkkunen, Lefteris Christoforou, Peter Liese, Francesc Gambús, Anne Sander, Michel Dantin, Angelika Niebler, Pilar del Castillo Vera, Vladimir Urutchev, Elisabetta Gardini, Massimiliano Salini

Paul Rübzig

Proposal for a regulation

Article 14 – paragraph 4

Text proposed by the Commission

4. The Member States shall make available to the public *forthwith* their respective long-term low emission strategies and any updates thereof.

Amendment

4. The Member States shall make available to the public their respective long-term low emission strategies and any updates thereof.

Or. en

Justification

Long-term low emission strategies and any updates shall be made available to the public in an appropriate timeframe.

Amendment 1038

Pervenche Berès, Edouard Martin

Proposal for a regulation

Article 14 – paragraph 4 a (new)

Text proposed by the Commission

Amendment

4a. Through its programmes, the Union shall support ongoing and future initiatives that will lead to the establishment in due course of a dynamic EU network for carbon accounting which will be tasked with: training decision-makers and giving them the tools to set up public policies for calculating and reducing the carbon footprint of enterprises and organisations; developing

tools (training, database) adapted to each country; involving local players (decision-makers, investors, enterprises and public bodies) in reducing emissions; exchange of best practices.

Or. fr

Amendment 1039

Theresa Griffin, Carlos Zorrinho, Jo Leinen, Inmaculada Rodríguez-Piñero Fernández, Soledad Cabezón Ruiz, Miriam Dalli, Jeppe Kofod, Edouard Martin, Pervenche Berès, Flavio Zanonato, Nessa Childers, Jude Kirton-Darling, Nicola Caputo, Clare Moody, Csaba Molnár, Jytte Guteland, Olle Ludvigsson, José Blanco López, Kathleen Van Brempt, Claudiu Ciprian Tănăsescu, Victor Negrescu

Proposal for a regulation

Article 14 – paragraph 4 a (new)

Text proposed by the Commission

Amendment

4a. The Commission shall support Member States in their preparation of long-term strategies by providing information on the state of the underlying scientific knowledge and technological development relevant to achieving the objectives referred to in Article 1. The Commission shall also provide opportunities for Member States and other stakeholders to provide additional information and discuss their perspectives and produce best practice and guidance for Member States to use during the development and implementation phase of their strategies.

Or. en

Amendment 1040

Carolina Punset, Gerben-Jan Gerbrandy

Proposal for a regulation

Article 14 – paragraph 4 a (new)

Text proposed by the Commission

Amendment

4a. *The Commission shall, by 1 January 2019 and every ten years thereafter, prepare a long-term low emission strategy on behalf of the Union, covering the elements set out in paragraphs 1 and 2. The strategy shall be kept under review and shall be updated when appropriate.*

Or. en

Amendment 1041

Paul Rübiger

Proposal for a regulation

Article 14 – paragraph 4 a (new)

Text proposed by the Commission

Amendment

4a. *To strengthen further Europe's leading role in climate protection in line with other EU-targets, appropriate framework requirements have to be adopted by the Member States to ensure economic wealth and climate protection at the same time. This requires appropriate measures to protect energy intensive industry from carbon-leakage on the one hand. On the other hand it requires attractive framework requirements to enhance low carbon technology.*

Or. en

Justification

Only a Europe with a fruitful economy and a strong industrial base can remain an indispensable pacemaker for the global climate protection.

Amendment 1042

Theresa Griffin, Carlos Zorrinho, Jo Leinen, Inmaculada Rodríguez-Piñero Fernández,

Soledad Cabezón Ruiz, Miriam Dalli, Jeppe Kofod, Miroslav Poche, Edouard Martin, Pervenche Berès, Flavio Zanonato, Nessa Childers, Jude Kirton-Darling, Nicola Caputo, Clare Moody, Csaba Molnár, Jytte Guteland, Olle Ludvigsson, José Blanco López, Kathleen Van Brempt, Claudiu Ciprian Tănăsescu

**Proposal for a regulation
Article 14 – paragraph 4 b (new)**

Text proposed by the Commission

Amendment

4b. The Commission shall assess whether the national long-term strategies are adequate for the collective achievement of the EU objectives set out in Article 1. The Commission may issue recommendations to Member States to facilitate this end and to assist Member States in their efforts to prepare and implement their long-term strategies.

Or. en

Amendment 1043

Dario Tamburrano, Piernicola Pedicini, David Borrelli, Eleonora Evi, Rosa D'Amato

**Proposal for a regulation
Article 14 a (new)**

Text proposed by the Commission

Amendment

Article 14a

Draft long term climate and energy strategies

By 1 January 2018 and every ten years thereafter Member States and, for the EU, the Commission shall prepare a draft of the long term climate and energy strategy referred to in Article 14.

Or. en

Amendment 1044

Piernicola Pedicini, Dario Tamburrano, Eleonora Evi, David Borrelli, Rosa D'Amato

Proposal for a regulation
Article 14 b (new)

Text proposed by the Commission

Amendment

Article 14b

Update of the long term climate and energy strategies

- 1. By 1 January 2023, and every 10 years thereafter, Member States and, for the EU, the Commission shall publish a draft update of the latest long term climate and energy strategy referred to in Article 14 or confirm to the Commission that the plan remains valid.***
- 2. By 1 January 2024, and every 10 years thereafter, Member States and, for the EU, the Commission shall publish an update of the latest notified integrated national energy and climate plan referred to in Article 3, unless they have confirmed that the plan remains valid pursuant to paragraph 1 of this Article.***
- 3. Member States shall only modify the targets, objectives and contributions set out in the update referred to in paragraph 2 to reflect increased ambition as compared to the ones set in the latest notified strategy.***

Or. en

Amendment 1045
Zdzisław Krasnodębski, Jadwiga Wiśniewska

Proposal for a regulation
Article 15 – paragraph 1

Text proposed by the Commission

Amendment

1. Without prejudice to Article 23, by 15 March **2021**, and every *two* years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national

1. Without prejudice to Article 23, by 15 March **2023**, and every *four* years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national

energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Or. en

Justification

Submission of the first report to the EC by 15 March 2021 will not give reliable results of implementation of national plans and will be difficult to proceed. In addition, submitting consecutive reports every two years will entail a significant administrative burden on the MS.

Amendment 1046 **Pavel Telička**

Proposal for a regulation **Article 15 – paragraph 1**

Text proposed by the Commission

1. Without prejudice to Article 23, by 15 March **2021**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Amendment

1. Without prejudice to Article 23, by 15 March **2023**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Or. en

Justification

The first Progress report should be prepared by 15th of March 2023 considering that the National plan should cover the period 2021-2030.

Amendment 1047 **Miroslav Poche**

Proposal for a regulation **Article 15 – paragraph 1**

Text proposed by the Commission

1. Without prejudice to Article 23, by 15 March **2021**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Amendment

1. Without prejudice to Article 23, by 15 March **2023**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Or. en

Justification

The first Progress report should be prepared by 15th of March 2023 (compare to 15th of March 2021) considering that the National plan should cover the period 2021-2030 (this also applies to article 16 and article 17).

Amendment 1048

Evžen Tošenovský

Proposal for a regulation

Article 15 – paragraph 1

Text proposed by the Commission

1. Without prejudice to Article 23, by 15 March **2021**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Amendment

1. Without prejudice to Article 23, by 15 March **2023**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Or. en

Amendment 1049

Kateřina Konečná

Proposal for a regulation
Article 15 – paragraph 1

Text proposed by the Commission

1. Without prejudice to Article 23, by 15 March **2021**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Amendment

1. Without prejudice to Article 23, by 15 March **2023**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Or. en

Amendment 1050
András Gyürk, György Hölvényi

Proposal for a regulation
Article 15 – paragraph 1

Text proposed by the Commission

1. Without prejudice to Article 23, by 15 March **2021**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Amendment

1. Without prejudice to Article 23, by 15 March **2023**, and every two years thereafter, each Member State shall report to the Commission on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Or. en

Amendment 1051
Jean-Luc Schaffhauser, Nicolas Bay

Proposal for a regulation
Article 15 – paragraph 1

Text proposed by the Commission

1. Without prejudice to Article 23, by 15 March 2021, and every two years thereafter, each Member State shall report to the **Commission** on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Amendment

1. Without prejudice to Article 23, by 15 March 2021, and every two years thereafter, each Member State shall report to the **Council** on the status of implementation of the integrated national energy and climate plan by means of integrated national energy and climate progress reports covering all five key dimensions of the Energy Union.

Amendment 1052

Theresa Griffin, Carlos Zorrinho, Jo Leinen, Inmaculada Rodríguez-Piñero Fernández, Soledad Cabezón Ruiz, Miriam Dalli, Jeppe Kofod, Edouard Martin, Pervenche Berès, Flavio Zanonato, Nessa Childers, Jude Kirton-Darling, Nicola Caputo, Clare Moody, Csaba Molnár, Jytte Guteland, Olle Ludvigsson, José Blanco López, Kathleen Van Brempt

Proposal for a regulation

Article 15 – paragraph 2 – point a

Text proposed by the Commission

(a) information on the progress accomplished towards reaching the targets, **objectives and contributions** set out in the integrated national energy and climate plan, and towards implementing the policies and measures necessary to meet them;

Amendment

(a) information on the progress accomplished towards reaching the targets **and objectives** set out in the integrated national energy and climate plan, and towards implementing the policies and measures necessary to meet them;

Or. en

Amendment 1053

Theresa Griffin, Carlos Zorrinho, Jo Leinen, Inmaculada Rodríguez-Piñero Fernández, Soledad Cabezón Ruiz, Miriam Dalli, Miroslav Poche, Jeppe Kofod, Edouard Martin, Pervenche Berès, Flavio Zanonato, Nessa Childers, Jude Kirton-Darling, Nicola Caputo, Clare Moody, Csaba Molnár, Jytte Guteland, Olle Ludvigsson, José Blanco López, Kathleen Van Brempt, Claudiu Ciprian Tănăsescu

Proposal for a regulation
Article 15 – paragraph 2 – point a a (new)

Text proposed by the Commission

Amendment

(aa) the information referred to and on the progress accomplished towards reaching the targets, objectives and commitments set out in the long-term energy and climate strategies in Article 14;

Or. en

Amendment 1054

Dario Tamburrano, Piernicola Pedicini, David Borrelli, Eleonora Evi, Rosa D'Amato

Proposal for a regulation
Article 15 – paragraph 2 – point a a (new)

Text proposed by the Commission

Amendment

(aa) the information referred to and on the progress accomplished towards reaching the targets, objectives and commitments set out in the long-term energy and climate strategies in Article 14;

Or. en

Amendment 1055

Patrizia Toia, Simona Bonafè, Damiano Zoffoli

Proposal for a regulation
Article 15 – paragraph 2 – point a a (new)

Text proposed by the Commission

Amendment

(aa) rate of electrification in non-ETS sectors;

Or. en

Amendment 1056

Jerzy Buzek, Janusz Lewandowski, Andrzej Grzyb, Marian-Jean Marinescu, Andrés Gyürk, György Hölvényi, Christian Ehler, Markus Pieper, Vladimir Urutchev

Proposal for a regulation

Article 15 – paragraph 2 – point b a (new)

Text proposed by the Commission

Amendment

(ba) rate of electrification in Effort Sharing Regulation sectors;

Or. en

Justification

Electrification of transport as well as heating and cooling sectors is crucial to improving the quality of air and the standard of living in the densely inhabited urban areas.

Amendment 1057

Gunnar Hökmark, Angélique Delahaye, Krišjānis Kariņš, Christofer Fjellner, Marian-Jean Marinescu, Mairead McGuinness, Seán Kelly, Françoise Grossetête, Henna Virkkunen, Lefteris Christoforou, Peter Liese, Esther de Lange, Francesc Gambús, Anne Sander, Michel Dantin, Angelika Niebler, Pilar del Castillo Vera, Vladimir Urutchev, Elisabetta Gardini, Massimiliano Salini

Proposal for a regulation

Article 15 – paragraph 2 – point g a (new)

Text proposed by the Commission

Amendment

(ga) an assessment of the costs supported by the final consumer of electricity based on indicators monitoring actual spending for the five dimension of the Energy Union;

Or. en

Amendment 1058

Theresa Griffin, Carlos Zorrinho, Jo Leinen, Inmaculada Rodríguez-Piñero Fernández, Soledad Cabezón Ruiz, Miriam Dalli, Miroslav Poche, Jeppe Kofod, Edouard Martin, Pervenche Berès, Flavio Zanonato, Nessa Childers, Jude Kirton-Darling, Nicola Caputo, Clare Moody, Csaba Molnár, Jytte Guteland, Olle Ludvigsson, José Blanco López,

Kathleen Van Brempt, Claudiu Ciprian Tănăsescu

Proposal for a regulation

Article 15 – paragraph 2 – point g a (new)

Text proposed by the Commission

Amendment

(ga) progress towards financing measures and policies foreseen to meet the targets and objectives set out in the national energy and climate plan.

Or. en

Amendment 1059

Piernicola Pedicini, Dario Tamburrano, Eleonora Evi, David Borrelli, Rosa D'Amato

Proposal for a regulation

Article 15 – paragraph 2 – point g a (new)

Text proposed by the Commission

Amendment

(ga) information on the progress accomplished towards phasing out direct and indirect fossil fuel subsidies by 2020;

Or. en

Amendment 1060

Jean-Luc Schaffhauser, Nicolas Bay

Proposal for a regulation

Article 15 – paragraph 3

Text proposed by the Commission

Amendment

3. The Commission shall adopt implementing acts to set out the structure, format, technical details and process for the information referred to in paragraphs 1 and 2. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 37(3).

deleted

Amendment 1061

Jerzy Buzek, Janusz Lewandowski, Andrzej Grzyb, Marian-Jean Marinescu, András Gyürk, György Hölvényi, Markus Pieper

**Proposal for a regulation
Article 15 – paragraph 5**

Text proposed by the Commission

Amendment

5. *Where the Commission has issued recommendations pursuant to Article 27(2) or (3), the Member State concerned shall include in its report referred to in paragraph 1 of this Article information on the policies and measures adopted, or intended to be adopted and implemented, to address those recommendations. Such information shall include a detailed timetable for implementation.* **deleted**

Or. en

Justification

In accordance with Art. 288 of the Treaty on the Functioning of the European Union (TFEU), recommendations issued by the European Commission shall have no binding force.

Amendment 1062

Zdzisław Krasnodebski, Jadwiga Wiśniewska, Evžen Tošenovský

**Proposal for a regulation
Article 15 – paragraph 5**

Text proposed by the Commission

Amendment

5. Where the Commission has issued recommendations pursuant to Article 27(2) or (3), the Member State concerned **shall** include in its report referred to in paragraph 1 of this Article information on the policies and measures adopted, or intended to be adopted and implemented, to address those recommendations. Such

5. Where the Commission has issued recommendations pursuant to Article 27(2) or (3), the Member State concerned **may** include in its report referred to in paragraph 1 of this Article information on the policies and measures adopted, or intended to be adopted and implemented, to address those recommendations. Such

information *shall* include a detailed timetable for implementation.

information *may* include a detailed timetable for implementation.

In case a Member State decides not to include the recommendations in its report, it shall explain to the Commission in writing the reasons underlying its decision.

Or. en

Justification

There is no legal justification for making Commission's recommendations binding for the Member States. According to Article 288 fifth subparagraph of the TFEU recommendations are not binding and therefore are not an instrument suitable for enforcement of Member States' obligations under the Regulation. Member States shall have a choice to decide whether to include or not recommendations in the relevant reports provided for in the Regulation.

Amendment 1063

Carolina Punset, Gerben-Jan Gerbrandy, Fredrick Federley

Proposal for a regulation

Article 15 – paragraph 5

Text proposed by the Commission

5. Where the Commission has issued recommendations pursuant to Article 27(2) or (3), the Member State concerned shall include in its report referred to in paragraph 1 ***of this Article*** information on the policies and measures adopted, or intended to be adopted and implemented, to address those recommendations. Such information shall include a detailed timetable for implementation.

Amendment

5. Where the Commission has issued recommendations pursuant to Article 27(2) or **27** (3), the Member State concerned shall include in its report referred to in paragraph 1 information on the policies and measures adopted, or intended to be adopted and implemented, to address those recommendations. Such information shall include a detailed timetable for implementation. ***The Member State shall provide a well-substantiated justification, based on reliable data and objective criteria, where it deviates from a recommendation issued.***

Or. en

Amendment 1064
Jean-Luc Schaffhauser, Nicolas Bay

Proposal for a regulation
Article 15 – paragraph 5

Text proposed by the Commission

5. Where the **Commission** has issued recommendations pursuant to Article 27(2) or (3), the Member State concerned shall include in its report referred to in paragraph 1 of this Article information on the policies and measures adopted, or intended to be adopted and implemented, to address those recommendations. Such information shall include a detailed timetable for implementation.

Amendment

5. Where the **Council** has issued recommendations pursuant to Article 27(2) or (3), the Member State concerned shall include in its report referred to in paragraph 1 of this Article information on the policies and measures adopted, or intended to be adopted and implemented, to address those recommendations. Such information shall include a detailed timetable for implementation.

Or. fr

Amendment 1068

Mireille D'Ornano, Jean-François Jalkh, Sylvie Goddyn

Proposal for a regulation

Article 16 – paragraph 2

Text proposed by the Commission

2. Member States shall report the most up-to-date projections available. Where a Member State does not submit complete projection estimates by 15 March every second year, ***and the Commission has established that gaps in the estimates cannot be filled by that Member State once identified through the Commission's quality assurance or quality control procedures***, the Commission may prepare estimates as required to compile Union projections, in consultation with the Member State concerned.

Amendment

2. Member States shall report the most up-to-date projections available. Where a Member State does not submit complete projection estimates by 15 March every second year, the Commission may prepare estimates as required to compile Union projections, in consultation with the Member State concerned ***and with its agreement***.

Amendment 1069**Jean-Luc Schaffhauser, Nicolas Bay****Proposal for a regulation****Article 16 – paragraph 2***Text proposed by the Commission*

2. Member States shall report the most up-to-date projections available. Where a Member State does not submit complete projection estimates by 15 March every second year, and the *Commission* has established that gaps in the estimates cannot be filled by that Member State once identified through the Commission's quality assurance or quality control procedures, the Commission may prepare estimates as required to compile Union projections, in consultation with the Member State concerned.

Amendment

2. Member States shall report the most up-to-date projections available. Where a Member State does not submit complete projection estimates by 15 March every second year, and the *Council* has established that gaps in the estimates cannot be filled by that Member State once identified through the Commission's quality assurance or quality control procedures, the Commission may prepare estimates as required to compile Union projections, in consultation with the Member State concerned.

Or. fr

Amendment 1070**Jean-Luc Schaffhauser, Nicolas Bay****Proposal for a regulation****Article 16 – paragraph 3***Text proposed by the Commission*

3. A Member State shall communicate to the *Commission* any substantial changes to the information reported pursuant to paragraph 1 during the first year of the reporting period, by 15 March of the year following the previous report.

Amendment

3. A Member State shall communicate to the *Council* any substantial changes to the information reported pursuant to paragraph 1 during the first year of the reporting period, by 15 March of the year following the previous report.

Or. fr

Amendment 1071

Mireille D'Ornano, Jean-François Jalkh, Sylvie Goddyn

Proposal for a regulation

Article 16 – paragraph 4

Text proposed by the Commission

4. Member States shall make available to the public, *in electronic form*, their national projections pursuant to paragraph 1 and any relevant assessment of the costs and effects of national policies and measures on the implementation of Union policies relevant for limiting GHG emissions along with any relevant underpinning technical reports. Those projections and assessments should include descriptions of the models and methodological approaches used, definitions and underlying assumptions.

Amendment

4. Member States shall, *on terms and conditions specified by themselves*, make available to the public their national projections pursuant to paragraph 1 and any relevant assessment of the costs and effects of national policies and measures on the implementation of Union policies relevant for limiting GHG emissions along with any relevant underpinning technical reports, *if need be*. Those projections and assessments should include descriptions of the models and methodological approaches used, definitions and underlying assumptions.

Or. fr

Amendment 1072

Angelo Ciocca, Lorenzo Fontana

Proposal for a regulation

Article 17 – paragraph 1

Text proposed by the Commission

1. By **15 March** 2021, and every *two* years thereafter, Member States shall report to the Commission information on their national climate change adaptation planning and strategies, outlining their implemented or planned actions to facilitate adaptation to climate change, including the information specified in Part 1 of Annex VI.

Amendment

1. By **30 September** 2021, and every *four* years thereafter, Member States shall report to the Commission information on their national climate change adaptation planning and strategies, outlining their implemented or planned actions to facilitate adaptation to climate change, including the information specified in Part 1 of Annex VI.

Or. it

Amendment 1073
Kateřina Konečná

Proposal for a regulation
Article 17 – paragraph 1

Text proposed by the Commission

1. By 15 March 2021, and every *two* years thereafter, Member States shall report to the Commission information on their national climate change adaptation planning and strategies, outlining their implemented or planned actions to facilitate adaptation to climate change, including the information specified in Part 1 of Annex VI.

Amendment

1. By 15 March 2021, and every *four* years thereafter, Member States shall report to the Commission information on their national climate change adaptation planning and strategies, outlining their implemented or planned actions to facilitate adaptation to climate change, including the information specified in Part 1 of Annex VI.

Or. en

Amendment 1074
Miroslav Poche

Proposal for a regulation
Article 17 – paragraph 1

Text proposed by the Commission

1. By 15 March 2021, and every *two* years thereafter, Member States shall report to the Commission information on their national climate change adaptation planning and strategies, outlining their implemented or planned actions to facilitate adaptation to climate change, including the information specified in Part 1 of Annex VI.

Amendment

1. By 15 March 2021, and every *four* years thereafter, Member States shall report to the Commission information on their national climate change adaptation planning and strategies, outlining their implemented or planned actions to facilitate adaptation to climate change, including the information specified in Part 1 of Annex VI.

Or. en

Justification

The periodicity of national climate change adaptation planning and strategies to be every four years (current obligation) is more appropriate compared to biannual obligation proposed in the Regulation.

Amendment 1075

Evžen Tošenovský

Proposal for a regulation

Article 17 – paragraph 1

Text proposed by the Commission

1. By 15 March 2021, and every *two* years thereafter, Member States shall report to the Commission information on their national climate change adaptation planning and strategies, outlining their implemented or planned actions to facilitate adaptation to climate change, including the information specified in Part 1 of Annex VI.

Amendment

1. By 15 March 2021, and every *four* years thereafter, Member States shall report to the Commission information on their national climate change adaptation planning and strategies, outlining their implemented or planned actions to facilitate adaptation to climate change, including the information specified in Part 1 of Annex VI.

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 3

Text proposed by the Commission

(3) trajectories by renewable energy technology to use to achieve the overall and sectorial trajectories for renewable energy from 2021 to 2030 including total expected gross final energy consumption per technology and sector in Mtoe **and total planned installed capacity per technology and sector in MW**;

Amendment

(3) trajectories by renewable energy technology to use to achieve the overall and sectorial trajectories for renewable energy from 2021 to 2030 including total expected gross final energy consumption per technology and sector in Mtoe;

Or. en

Amendment 1089

Paul Rübiger

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 3

Text proposed by the Commission

(3) **trajectories** by renewable energy technology to use to achieve the overall and sectorial trajectories for renewable energy from 2021 to 2030 including total expected gross final energy consumption per technology and sector in Mtoe and total planned installed capacity per technology and sector in MW;

Amendment

(3) **objectives** by renewable energy technology to use to achieve the overall and sectorial trajectories for renewable energy from 2021 to 2030 including total expected gross final energy consumption per technology and sector in Mtoe and total planned installed capacity per technology and sector in MW;

Amendment 1090

Dario Tamburrano, Piernicola Pedicini, David Borrelli, Eleonora Evi, Rosa D'Amato

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 3 a (new)

Text proposed by the Commission

Amendment

(3a) trajectories for the share of renewable energy produced by renewable energy communities and self-consumers, cities and regions;

Or. en

Amendment 1091

Paul Rübzig

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 4

Text proposed by the Commission

Amendment

(4) **trajectories** on bioenergy demand, disaggregated between heat, electricity and transport, and on biomass supply, **by feedstock and origin (distinguishing between domestic production and imports)**. For forest biomass, an assessment of its source and impact on the LULUCF sink;

(4) **objectives** on bioenergy demand, disaggregated between heat, electricity and transport, and on biomass supply **for material utilization in the forest-based bioeconomy and industries and for bioenergy production, by feedstock and origin**. For forest biomass, an assessment of its source and impact on the LULUCF sink;

Or. en

Justification

Instead of linear trajectories, it is proposed to set goals. To reach those goals Member States need flexibility to react to economic crisis and other unforeseeable occasions. It is to be rejected that in bioenergy there should be a distinction between domestic production and imports. As markets for material and energy utilization of biomass are connected, additionally Member States shall include in their reports information about the supply for

material use in the forest-based bioeconomy and industries.

Amendment 1092

Evžen Tošenovský

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 4

Text proposed by the Commission

(4) trajectories on bioenergy demand, disaggregated between heat, electricity and transport, and on biomass supply, by feedstock and origin (distinguishing between domestic production and imports). For forest biomass, an assessment of its source and impact on the LULUCF sink;

Amendment

(4) ***if applicable*** trajectories on bioenergy demand, disaggregated between heat, electricity and transport, and on biomass supply, by feedstock and origin (distinguishing between domestic production and imports). For forest biomass, an assessment of its source and impact on the LULUCF sink;

Or. en

Amendment 1093

Miroslav Poche

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 4

Text proposed by the Commission

(4) trajectories on bioenergy demand, disaggregated between heat, electricity and transport, and on biomass supply, by feedstock ***and origin (distinguishing between domestic production and imports)***. For forest biomass, an assessment of its source and impact on the LULUCF sink;

Amendment

(4) ***if applicable*** trajectories on bioenergy demand, disaggregated between heat, electricity and transport, and on biomass supply by feedstock, domestic production *vs* imports. For forest biomass, an assessment of its source and impact on the LULUCF sink;

Or. en

Justification

Obligation for trajectories on bioenergy demand (paragraph a) 4)) is additional obligation and it should be optional (in the wording it should be added “if applicable”).

Amendment 1094

Gunnar Hökmark, Angélique Delahaye, Krišjānis Kariņš, Christofer Fjellner, Mairead McGuinness, Seán Kelly, Françoise Grossetête, Henna Virkkunen, Lefteris Christoforou, Francesc Gambús, Anne Sander, Michel Dantin, Angelika Niebler, Pilar del Castillo Vera, Vladimir Urutchev, Elisabetta Gardini, Massimiliano Salini

Amendment 1098

Paul Rübzig

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 5

Text proposed by the Commission

(5) if applicable, other national **trajectories** and objectives including long-term and sectorial ones (such as share of biofuels, share of advanced biofuels, share of biofuel produced from main crops produced on agricultural land, share of electricity produced from biomass without the utilisation of heat, share of renewable energy in district heating, renewable energy use in buildings, renewable energy produced by cities, energy communities and self-consumers);

Amendment

(5) if applicable, other national **objectives** and objectives including long-term and sectorial ones (such as share of biofuels, share of advanced biofuels, share of biofuel produced from main crops produced on agricultural land, share of electricity produced from biomass without the utilisation of heat, share of renewable energy in district heating, renewable energy use in buildings, renewable energy produced by cities, energy communities and self-consumers);

Or. en

Justification

Instead of linear trajectories, it is proposed to set goals. To reach those goals Member States need flexibility to react to economic crisis and other unforeseeable occasions.

Amendment 1099

Mireille D'Ornano, Jean-François Jalkh, Sylvie Goddyn

Proposal for a regulation

Article 18 – paragraph 1 – point a (new)

Text proposed by the Commission

Amendment

(aa) Member States shall also make known all relevant information on the renewable energy market, in particular interconnections with the electricity markets of other Member States or even economic analysis of the renewables electricity market in terms of price levels or profitability of infrastructure designed to produce electricity from renewable sources;

Proposal for a regulation

Article 18 a (new)

Text proposed by the Commission

Amendment

Article 18a

**Integrated reporting on decarbonisation /
LULUCF**

Member States shall include in the integrated national energy and climate progress reports the information on:

(a) the implementation of the following trajectories and objectives:

- 1. National trajectory for restoring degraded forest areas & wetlands*
- 2. List of identified degraded forest areas & wetlands to restore*
- 3. List of identified areas of existing forest & wetland to protect*
- 4. National trajectory to increase carbon sink capacity on agricultural lands*
- 5. If applicable, other national trajectories and objectives including long term and sectorial ones*

(b) the implementation of the following policies and measures:

- 1. implemented, adopted and planned policies and measures to achieve the national contribution to the Union-level 2030 target for enhancing removals by sinks as indicated in Article 4(a)(2)(i)*
- 2. Measures for restoring degraded forest areas & wetlands*
- 3. Measures for protecting existing forest areas & wetlands*
- 4. Measures to increase carbon sink capacity on agricultural lands*

Or. en

Amendment 1107
Paul Brannen, Theresa Griffin, Jude Kirton-Darling

Proposal for a regulation
Article 18 a (new)

Text proposed by the Commission

Amendment

Article 18a

***Integrated reporting on Land Use, Land
Use Change and Forestry Sector***

***Member States shall include in the
integrated national energy and climate
progress reports the information on the
trajectories and on implementation of the
policies and measures:***

- a) to restore degraded forest areas &
to protect existing natural forests***
- b) to restore degraded wetland and to
protect existing wetlands***
- c) to restore degraded natural and
semi-natural grasslands and to protect
existing grasslands***
- d) to increase the carbon sink
capacity of the LULUCF accounting
categories falling in the Member State
under the utilized agricultural area or
forest, in particular, by means of
restoration of ecosystems associated with
agroforestry and introduction of
agroforestry systems***
- e) to increase the carbon sink of
LULUCF accounting categories falling
under the utilized agricultural area in
particular via baseline requirements and
measures under the agricultural policy;***
- f) to include in their accounts a
carbon pool of harvested wood products
from managed grassland and managed
cropland***

Or. en

Justification

There should be an integrated reporting related to LULUCF next to integrated reporting on renewable energy and energy efficiency. Trajectories are to be prepared with goal of improving carbon sequestration by means of restoration. Letter f) refers to trajectory for introduction of carbon pool of harvested wood products from managed grassland and managed cropland, as it is not foreseen to be reported on currently. Reintroduction of trees in the agricultural area could make accounting for pool of harvested wood products from cropland and grassland relevant at EU scale.
