### 3. MOTION FOR A EUROPEAN PARLIAMENT RESOLUTION

**with observations forming an integral part of the decision on discharge in respect of the implementation of the budget of the European Maritime Safety Agency for the financial year 2014  
(2015/2174(DEC))**

*The European Parliament,*

- having regard to its decision on discharge in respect of the implementation of the budget of the European Maritime Safety Agency for the financial year 2014,
  - having regard to Rule 94 of and Annex V to its Rules of Procedure,
  - having regard to the report of the Committee on Budgetary Control and the opinion of the Committee on Transport and Tourism (A8-0000/2016),
- A. whereas, according to its financial statements, the final budget of the European Maritime Safety Agency (“the Agency”) for the financial year 2014 was EUR 52 403 276, representing a decrease of 9,37 % compared to 2013,
- B. whereas the Court of Auditors (“the Court”), in its report on the annual accounts of the European Maritime Safety Agency for the financial year 2014 (“the Court’s report”), has stated that it has obtained reasonable assurances that the Agency’s annual accounts are reliable and that the underlying transactions are legal and regular,

#### ***Budget and financial management***

1. Notes that the budget monitoring efforts during the financial year 2014 resulted in a budget implementation rate of 94,78 % and the payment appropriations execution rate was 93,77 %;

#### ***Commitments and carryovers***

2. Acknowledges that, according to the Court of Auditors' annual audit, as well as to the Agency’s annual activity report, no notable issues with regards to the level of carryovers in 2014 were identified; observes that EUR 5 178 491 was carried forward from the financial year 2013; notes with satisfaction that only 3,80 % of the 2013 carryovers were cancelled;

#### ***Transfers***

3. Notes that, according to the Agency’s annual activity report, the level and nature of transfers in 2014 have remained within the limits of the Agency’s financial rules; notes that all agency transfers for 2014 were below 10 % of the appropriations for the financial year of the budget line, when transferring from one title to another;

#### ***Procurement and recruitment procedures***

4. Takes note that the Agency launched 82 procurement procedures in the financial year

2014, with 15 special negotiated procedures and 67 open and low value negotiated procedures; notes furthermore that the amount paid for procurement contracts signed in 2014 was EUR 3 432 061;

5. Notes from the Court's report that at year-end, the Agency had 210 posts in its establishment plan with 198 occupied, 30 posts planned in the budget for contract staff with 29 occupied as well as 18 posts for seconded national experts with 15 occupied; ascertains that in anticipation of the staff reduction and evolving work priorities, the Agency reduced its number of posts from overhead functions by three; understands from the Agency that, in order to respond more effectively to the increased workload, identify the expertise currently available in the Agency and support an internal mobility policy, the Agency created a Human Capital Database as an internal management support tool;

### ***Prevention and management of conflicts of interests and transparency***

6. Understands from the Agency that the Agency's Administrative Board amended its rules of procedure; takes note that these amended rules reflect the need for the Administrative Board members and alternates to provide, in addition to the signed declarations of commitment and confidentiality, their CVs for publication on the Agency's website; notes that the publication of these CVs was expected before October 2015; notes moreover that the CVs of the Agency's Executive Director and senior management are already published on its website;
7. Notes that the Agency's strategy on fraud prevention and detection, developed fully in line with the guidelines provided by the European Anti-Fraud Office, was adopted in November 2015; understands that a number of additional actions are to be further implemented during the 2015-2016 period; calls on the Agency to inform the discharge authority on the status of implementation of these actions;

### ***Internal controls***

8. Takes note that one of the key elements of the Agency's internal control system is the control and registration of exceptions to established regulations, policies, rules and procedures; observes that a total of 11 of such exceptions were registered during the course of 2014, of which were nine ex-ante and two were ex-post exceptions; understands from the Agency that corrective actions were carried out where necessary or clarifications were given in order to avoid similar situations occurring in the future;

### ***Internal audit***

9. Notes that in 2014, the Commission's Internal Audit Service (IAS) conducted an audit on the "Building Blocks of Assurance" at the Agency; takes note that, according to the IAS, the internal control system put in place by the Agency's management provides reasonable assurance regarding the achievement of the business objectives established for the annual report and the underlying assurance building process;
10. Observes that, at the time of the audit, there was no formalised and documented processes of drafting the annual report, leading to the risk that some actors involved in the process might not be fully aware of their responsibilities; notes that following the audit, the Agency established an action plan to address all recommendations stemming from the

audit report which was subsequently approved by the IAS; takes note that the Agency reviewed and documented the process for drafting the annual report in order to provide clear guidelines and a definition of the roles and responsibilities for all actors involved in the process of drafting, assessing and approving the annual report;

***Other comments***

11. Notes with satisfaction that the Agency actively sought potential synergies with other agencies; notes in particular the Agency is sharing its Business Continuity Facility in Madrid (BCF) with the Joint Undertaking for ITER and the Development of Fusion Energy and with the European Fisheries Control Agency; takes note that the Agency, given the geographical proximity, developed close cooperation with the European Monitoring Centre for Drugs and Drug Addiction in the area of human resources, infrastructure and ICT;
