Items for decision

1. New referrals

1.1. Draft opinion to BUDG on the draft general budget of the European Union for the financial year 2023

As part of the annual budgetary procedure and following the European Parliament resolution of 5 April 2022 on general guidelines for the preparation of the 2023 budget, Section III – Commission, for which CONT provided an opinion in the form of a letter, the European Parliament will in November adopt a resolution on the Council position on the draft general budget of the European Union for the financial year 2023. A draft report will be prepared by the BUDG Committee. The deadline set by BUDG to receive opinions from other Committees is 29 September, at 12.00.

The CONT rapporteur for the 2023 budget is Mr CHASTEL (RE) following the Coordinators' decision of 24 January 2022. An opinion in the form of a letter would be co-signed by him and by the CONT Chair.

Decision:

Coordinators decided that CONT should provide an opinion to BUDG on the draft budgetary resolution for the year 2023, and that it is prepared as an opinion in the form of a letter.

1.2. Follow-up of a motion for a resolution on EU support for welfare organisations

The CONT Committee has been referred the follow-up of the motion for resolution MfR B9-0286/2022 on EU support for welfare organisations by Guido Reil (ID) in application of Rule 143 (5) RoP.

The text of the motion for resolution is very much focussed on alleged irregularities among charitable associations and welfare organisations in Germany with reference to one particular case.

The ID Coordinator was not present to explain the background of the motion for a resolution.

Decision:

Coordinators decided not to follow-up the motion for a resolution.

2. Discharge calendar 2021

Coordinators were given an updated discharge calendar for 2021. The main update is that there is a re-scheduling of dates in September and that the Directorates-General have been identified.

In addition, the Chair made an announcement with an update:

2.1 The two rapporteurs from the EPP working on the 2021 discharge for the Commission will be Ms Hohlmeier (RRF) and Mr Lenaers (MFF)

2.2 The Rapporteurs wish to slightly update the list of Commission DGs to be invited for a hearing in comparison with the initial list proposed in the discharge calendar:

No longer: DG EMPL

New: DG HOME, DG DEFIS, DG ENV

Final list: AGRI, BUDG, DEFIS, ENV, HOME, REGIO, RTD, SANTE, SG RECOVER + ECFIN

2.3 This also means an increase of discharge hearings with Commissioners: from 8 to 10 hearings (9 Commissioners' hearings, and one hearing with the SG of the EC), one of which will take place in Strasbourg. These changes will be reflected in an updated version of the discharge calendar and in the updated calendar of CONT meetings for the 2nd half of 2022.

S&D made a comment that it would like to have the deadlines for submission of questions in preparation for the hearings to be included in the discharge timetable. This will be done by the Secretariat before the start of the hearings.

The Greens and the Left requested that the meeting on 6 October in Strasbourg would not take place in the afternoon, for which the Chair provided a response that the meeting will take place in the morning.

RE requested the updated discharge calendar to be circulated before the summer break in order to reflect the dates in Members' calendars.

Decision:

Coordinators approved the updated discharge calendar, including the remarks made in the announcements.

3. Practical arrangements for the European Parliament, the Commission, Other Institutions, the Agencies and the Joint Undertakings and the standard questionnaire for the Agencies - 2021 Discharge

As regards the standard questionnaire, S&D requested sufficient time between the deadline for submitting questions and receipt of the ECA Annual Report on the Agencies.

The Secretariat has requested ECA an advance copy of the report for CONT Members, as was requested and provided for the 2020 discharge.

S&D proposed adding the phase '*noting an exception for issues which remain unresolved*' to the line '*repetition of old cases over several years should be avoided*' within the Practical arrangements for the EP. There was no opposition by the other Coordinators to this proposal.

Decision:

Coordinators approved:

- the practical arrangements for the EP, the Commission, Other Institutions, the Agencies and the Joint Undertakings;
- the standard questionnaire for the Agencies.

4. Handling of the discharge to EPPO for 2021

The EP will for the first time be deciding on the discharge to EPPO for the financial year 2021.

Decision:

Coordinators decided that the discharge to EPPO should be handled in the group of Other Institutions.

5. Outcome of the meeting of the working group on the future of discharge

The Working Group submitted to the CONT Coordinators its proposals for amendments to the EP's Rules of procedure and to the Financial Regulation. The proposals were discussed. See annex 1 for the comments made by the groups.

Decision:

Coordinators discussed the proposals, and referred their comments, as presented in annex 1, back to the working group.

6. Working methods of the CONT Committee when the CCC guidelines/ rule 216 in the RoP has been revised

Clarification from the S&D representative in the coordinators' meeting: In general S&D supports the proposal, but personally it will be difficult for the representative to participate remotely, as there will be no interpretation.

The Coordinators considered that the delegation should be granted initially for a limited time period, to evaluate the application in practice.

Decision:

Coordinators decided to give a delegation to the CONT Chair to decide to hold Coordinators meetings in a hybrid format for a period from now until 31 October 2022.

7. Non-CONT Member to participate in the mission to Cyprus for the Left Group

The Left group has informed the Secretariat that none of the group's CONT Members are able to join the mission to Cyprus from 19 to 21 September 2022. The Left requests to authorise the participation of Mr Giorgos GEORGIOU, Member (in AFET Committee) from Cyprus, as an accompanying Member (out of quota).

Decision:

Coordinators decided to approve the GUE Member from AFET to accompany the CONT mission to Cyprus as an accompanying Member.

8. Joint BUDG-CONT meeting with Commissioner Hahn on RoL conditionality mechanism

Decision:

Coordinators decided to organise a joint meeting with BUDG on the Commission's reaction to the Hungarian reply to the official notification sent in relation to the Rule of Law Conditionality Mechanism.

9. Any other business

1. Announcement by the Chair:

The discharge calendar has been changed. The CONT meeting planned on 26 and 29 September had to be cancelled because of the absence of Members.

The changes are as follows:

- The hearing with the SG of the EP will be re-scheduled to 25 October
- The hearing with the DGs will be re-scheduled to 8 September, 24/25 October and 7 November

2. Announcement by the Chair:

For the programming exercise of committee activities in the coming semester, CONT is invited to submit proposals for hearings, travel activities & activities with national parliaments in the first half of 2023. The CCC would then adopt the draft programmes during their meeting on 18 October 2022. The Secretariat will launch a written call for proposals to collect proposals that will be put for decision by the CONT Coordinators on 5 September 2022.

The discharge calendar will be circulated before the summer holiday.

3. Request from the Greens' Rapporteur:

Can we have an exchange of views in a Committee meeting on the OLAF report on Frontex to which the CONT Members have been given access.

The Chair indicated to bring this proposal to the Chair of the Committee, considering the importance of the subject and the limited availability of meeting slots.

10. Date of next Coordinators' meeting

- 5 September 2022

Annex 1 - Groups' comments on 'the future of discharge'

The EPP made the following comments:

- We are in agreement with the proposals for modifications and the explanations provided by the Legal Service. Nevertheless, for Article 5 of Annex V - the discharge procedure, the EP would favour the obligation for the Rapporteur to make a recommendation as regards granting or postponing the discharge.
- Moreover, EPP would like to propose that the Court of Auditors no longer issues two separate reports on compliance and performance, but that the performance part should be included in the annual report as a separate chapter on an ongoing basis. The EPP believes that the EP should not include in its rules of procedure the annual reports and the special reports in two separate reports.

EPP therefore asks that points (d) and (e) of Article 1 of Annex V be merged and reworded to include all relevant outputs of the Court of Auditors, without making a distinction between compliance and performance reports.

S&D made the following comments:

S&D agrees with most of the modifications within the proposal put forward for discussion by the Legal Service. However, S&D highlights the issues with potential disagreement:

- S&D does not support the proposal to merge resolutions for agencies and joint undertakings. There are political constraints, as, for example, that a problematic agency, may not receive sufficient attention, visibility and criticism if it is put together with other agencies. Another risk is that problems which may be relevant only for one agency are generalised and used to attack other agencies in the same cluster.
- S&D does not agree with the proposal the discharge resolution to include separate chapters according to commissioners' portfolios and individual assessment to them. The Commission is a collective body and the College takes the decisions. The commissioners which are responsible for the policy areas spending the biggest part of the EU budget are very restricted in taking decisions individually. With the system of Vice-Presidents who 'supervise' policy-responsible commissioners, the latter are not fully independent. The most expenditure related policies are implemented under shared management where member states have a crucial role to play. The Court of Auditors presents its Annual report based on the headings of the respective MFF. We could not expect to receive Court's observation for the portfolio of each individual commissioner. This means, that the assessment and the conclusions of the Parliament cannot be based on an independent and sufficient audit information and risk to be politically driven.
- S&D considers that the current practice should be maintained to have plenary vote based on the CONT proposal, in order not to "weaken" CONT's role.'

Comments provided by S&D in writing after the meeting:

- S&D agrees with the proposed alignment of the EP Rules of procedure with 2018 Financial Regulation and other new developments and that the scope of discharge covers external assigned revenue. We agree with the clarification between first and second phases of discharge procedure and its chronological presentation.
- S&D supports that the final votes on decisions and resolutions are always by roll-call, both in CONT and in Plenary (EP RoP, Annex V, Article 3(2)).
- S&D supports that amendments won't be admissible for the discharge decision but only to the motion for a resolution (EP RoP, Annex V, Article 3(3)).
- S&D is in favour to vote the discharge decisions before the resolutions with the open rule depending on what CONT decides (EP RoP, Annex V, Article 3(4)).
- S&D also agrees with the proposed more detailed rules on the contents of discharge resolutions.

RE made the following comments:

RE is broadly in agreement on the text.

- On the EPP's proposal to ask the ECA for one report on compliance and performance, the coordinator noted that that could be impossible for the Court, as they have always said that it is impossible for their timetable to combine the two. Possibly, under a new ECA President it will be possible.
- RE also supports S&D comment that the resolution for the Agencies and Joint Undertakings should not be grouped together. We should maintain the current practice of separate reports.
- And as regards the vote in plenary, RE is in support of S&D's remark to follow the Committee's proposal.

The Left made the following comments:

POSITIVE ELEMENTS

We want to thank the Legal service and the WG all for having drafted these proposals. Lots of good elements are incorporated in it.

Despite all these positive developments, we have some concerns on some of the elements proposed.

POSSIBLY CRITICAL ELEMENTS

RoP

- ORDER of VOTE on DECISION and RESOLUTION

we do not agree with the revision of the order of voting on the motion for resolution before the decision.

New art 3.4 annexe 5 introduce the possibility to decision on a different order, that in general terms should be the decision before the resolution. In general we would prefer the original 4.3 text that defines a clear order (decision before resolution) but if political groups in majority want to have this new possibility included, we may accept this only as possibility.

- POSSIBILITY OF AM TABLED IN CONT on the DECISION

We want to keep the possibility for Members to table AM on the decision in CONT. We are afraid that the new Art 3.3 (current Art 4.2) in combination with new art 5.1 and in particular with the new structure introduced in Annexe 5 will means that the this possibility will no longer be an option. We would oppose this . We know that AM on the decision are finally not voted, snice the vote on decision take place no matter what, but Members have used this option for AM on decision as a political mean to express a political message we would like to keep

Current Art 4 was to be applied only to Plenary procedure, while the structure of the Annexe is changed in a way that it is not clear if this new Art 3.3 is to be applied only to plenary or also to CONT procedure.

- plenary vote on decision

We understand that the procedure included in 5.2 and 5.3 is identical to the current system where the plenary decision will be based on the CONT proposal. We see some positive in revising this procedure (Plenary vote to be on the same line of CONT vote where + means grant discharge and - means postpone discharge) but at the same time, we think that changing the procedure would reduce the impact and value of the CONT Vote.

- Decision to postpone the vote on the resolution

Art 6.6. we do not understand why the decision to postpone the vote on the resolution is no longer linked to the fact that the decision contradict some parts of the resolution but is left open for decision. We are afraid that this new article is less clear than the previous art 5 (3)

Legal services underlines that the new wording is clearer because it would be very difficult to establish in detail which of the provisions of the recommendation would "contradict" the decision and justify postponement. The proposed option is much easier to handle in practical terms in plenary, e.g. given that negative remarks alone do not necessarily constitute a contradiction and do not automatically lead to a refusal of discharge.

Revision of the FIN REG

We understand that the proposed revision of the FinReg in based on the proposals made by the EP in its resolution voted in last November. Nevertheless, we see the need for further changes

- Art 261.2 when referring to ECA Annual report and to be consistent with actual practice of a report on performance, we would need to talk about reports and not report
- Art 261.3 the EP requested in its resolution to extend its power on discharge not only to the Commission but also to all Union institutions and bodies. The provision in Art 260 4 maybe should be clarified by also including in art 261.3 the reference in addition to the COM also to all Union institutions and bodies. One could add “, the other Union institutions and the Union bodies referred to in Articles 70 and 71” to Article 261(3)

Consulting with the legal services, we kind of understood that the better place to whole new art 261 .4 could be 260.

- Additionally we would like to echo a request by the legal service on additional revision of art 261.4 to make it clearer “The provisions governing the procedure for granting discharge to the Commission in accordance with Article 319 TFEU, in respect of the implementation of the budget, shall apply to the procedure for granting discharge to the other Union institutions and to the Union bodies referred to in Articles 70 and 71.”

This is because only Union bodies are referred to in Art 70 and 71.

Various bodies protect the Common Agricultural Policy (CAP) financing from fraud at EU and national level. The Court's audit examined whether the Commission has taken appropriate action on fraud in CAP spending, by assessing the fraud risks inherent in CAP payment schemes, and whether the Commission has identified and properly responded to the fraud risks affecting CAP spending.

The Court found that the Commission has responded to instances of fraud in CAP spending, but was not sufficiently proactive in addressing the impact of the risk of illegal land grabbing on CAP payments, in monitoring Member States' anti-fraud measures, and in exploiting the potential of new technologies. The Court further notes that fraud risks vary between the CAP payment schemes. The Court presents an overview of the fraud risks affecting the various CAP payments schemes, having identified risks linked to beneficiaries concealing breaches of eligibility conditions, to the complexity of the financed measures, and to illegal forms of 'land grabbing'.

The Common Agricultural Policy (CAP) represents more than a third of the EU budget. The policy has numerous complex and inter-related objectives. Using an evidence-based approach in policy decisions and establishing a causal link between a CAP measure and its results require various data from different sources and subsequent analysis.

The objective of the audit was to assess whether the Commission is making good use of data and analytics for CAP policy analysis. This assessment is relevant both for the CAP starting in 2023 and for the post-2027 CAP. The ECA examined how the Commission has used the available data for policy analysis in recent years, and whether the available data are sufficient. The ECA also examined what the Commission is doing to address data gaps, including the use of big data.

The ECA found that the Commission holds large amounts of data for CAP design, monitoring and evaluation. The Commission uses conventional tools such as spreadsheets to analyse the data it collects from the Member States. Current data and tools do not deliver certain significant elements (e.g. details of the environmental practices applied, and off-farm income) that are needed for well-informed policy making. The Commission has taken several legislative and other initiatives to make better use of existing data, but barriers to making the best use of collected data remain. Obstacles such as a lack of standardisation and limitations due to data aggregation reduce data availability and usability.

The ECA recommends that the Commission should establish a framework for using disaggregated data from Member States; and make more use of and develop data sources to meet policy needs. The Commission accepts the ECA recommendations.

6. ECA SPECIAL REPORT 12/2022 - DURABILITY IN RURAL DEVELOPMENT. MOST PROJECTS REMAIN OPERATIONAL FOR THE PERIOD REQUIRED, BUT THERE ARE OPPORTUNITIES TO ACHIEVE LONGER LASTING RESULTS

CONT/9/09417

Presentation of the special report by reporting ECA Member Viorel Ștefan

CONT Rapporteur: Petri Sarvamaa **Administrator:** Hans Stander

Rural areas presented 83% of EU territory in 2018 and some of these areas face particular challenges such as depopulation, unemployment, lower quality of basic services and a higher risk of poverty or social exclusion.

From 2007 the EU has spent approximately EUR 10 billion to diversify its rural economy and EUR 15 billion to improve infrastructure in rural areas through the rural development programmes.

The Court examined whether investments to diversify the rural economy and in rural infrastructure have delivered durable benefits. In particular, the Court assessed the compliance aspect of durability, i.e. whether legal durability requirements were met. Furthermore, the Court assessed whether there are factors affecting project durability, also beyond legal requirements. Finally, the Court examined whether there was enough evidence that EU funding brought long term diversification opportunities in rural areas.

The Court found that most infrastructure investments and diversification projects were operational throughout the legal durability period, but diversification projects frequently ended soon after. The Court extended its assessment to touristic accommodation projects that were financed through the rural development fund and found that they had limited economic viability. And the Court found limited evidence that EU funding brings long term diversification in rural areas. The Commission in its reply did not fundamentally contest the findings of the Court.

The Court made two recommendations to address the identified issues, which the Commission accepted.

7. ECA SPECIAL REPORT 10/2022 - LEADER AND COMMUNITY-LED LOCAL DEVELOPMENT FACILITATES LOCAL ENGAGEMENT BUT ADDITIONAL BENEFITS STILL NOT SUFFICIENTLY DEMONSTRATED

CONT/9/09438

Presentation of the special report by reporting ECA Member Eva Lindström

CONT Rapporteur: Petri Sarvamaa

Administrator: Fernando Gallego Osuna

The EU introduced the LEADER programme in 1991 as a bottom-up initiative to support the development of disadvantaged rural regions through projects addressing local needs. Since 2014, the EU has used the LEADER approach (known as community-led local development) for several EU funding streams in rural, urban and coastal areas. The main characteristic of the LEADER approach is the application of participatory and bottom-up methods to involve local communities in project development and decision-making processes. Local action groups, made up of partners from the public, private and civil society manage activities. In the 2014-2020 period, the EU planned to provide funding of up to €9.2 billion for LEADER and community-led local development.

More than a decade after the Court's 2010 special report on LEADER, the new audit shows that improvements have taken place in some areas and that the LEADER approach facilitates local engagement. However, the Court concludes that there is little evidence that the benefits of the LEADER approach outweigh the costs and risks it incurs.

The Court concludes that in view of the additional costs and risks compared to other funding models and the continued lack of demonstrable benefits, it would recommend that the Commission should evaluate the costs and benefits of LEADER and assess the community-led local development.

The existing legal framework on the exchange of information between law enforcement authorities of Member States (the Convention Implementing the Schengen Agreement and Framework Decision 2006/960/JHA) should be updated and replaced, so as to facilitate and ensure, through the establishment of clear and harmonised rules, the adequate and rapid exchange of information between the competent law enforcement authorities of different Member States. The proposed Directive establishes rules for the exchange of information between the law enforcement authorities of the Member States where necessary for the purpose of preventing, detecting or investigating criminal offences. Information exchange will ensure police officers make relevant information available to their counterparts in other Member States.

CONT members tabled a total of 42 amendments to the Commission proposal. The rapporteur proposed a series of compromise amendments covering a diverse number of issues.

The Parliament decided on 4 May 2022 to postpone the discharge for the European Border and Coastguard Agency (Frontex) for the year 2020. In the resolution accompanying the decision to postpone the discharge, Parliament noted the (limited) progress made on the conditions set when granting discharge for the year 2019. Another consideration for not yet granting discharge, was the OLAF final report that had been presented to the CONT Committee in an in-camera meeting on 28 February 2022, but that had not been provided to the Members yet. Shortly before the vote in Plenary, on 28 April, the Executive Director of Frontex resigned and his tasks were taken over by an acting Executive Director, who leads the Agency until the appointment of a new Executive Director.

In today's exchange of views, the Chair of the Frontex Management Board, the acting Executive Director of Frontex and the Deputy Director-General for Home Affairs will give an update of where the Agency stands and where the Agency is going.

In recent years, the Parliament, the Council and the media have shown interest in the Commission's increasing use of external consultants. In particular, questions have been raised about the type and amounts contracted, the risks of concentration, overdependence and conflicts of interest and the need to use external consultants, as opposed to using internal staff. The ECA SR aims to contribute to improved transparency and accountability of this important area. The audit focused on whether the European Commission managed to get value for money and to safeguard its

interests.

In its conclusions, the ECA special report concludes that the way the European Commission hires and uses external consultants does not fully ensure that it maximises value for money or fully safeguards its interests. There are significant gaps in the framework governing the use of these services, with potential risks related to the concentration of service providers, overdependence and conflicts of interest, which are not sufficiently monitored. The auditors also point out weaknesses in how consultants' work and its added value are assessed.

The experts commissioned to analyse the Commission's growing reliance on consultants have parsed the available data on consultancy contracts, examined comparable practices in selected Member States, and discussed the question with the industry. They will present their preliminary findings, with key interviews with Commission DGs still outstanding. Looking beyond anecdotal press reporting, the increasing use of consultants by the Commission merely reflects the trend in many Member States. However, in

their opinion, this has not led to an over-reliance on such services, nor to the often-feared dominance of the "Big Four" consultancy firms. The study concurs with the ECA special report in noting a potential

lack of central oversight over the procurement practice, and highlights the possibility of in-house bias in the use of consultants' findings, making recommendations for mitigating these risks.

13. CONT MISSION TO ROME, ITALY - 25-27 MAY 2022

Reporting back to committee from CONT mission to Italy on 25 - 27 May 2022

Chair of the mission:

[Monika Hohlmeier](#) (EPP)

Diego Rasetti

The fact-finding mission to Rome was targeting two main topics: the first one was the risk of disbursement of CAP resources to beneficiaries not compliant with labour regulations: such operators, as reported by some media, would have been in close proximity with organised crime and responsible for the hiring of not registered migrants from the illegal labour market managed by mafia associations. The second was related to the risk of infiltration of the organised crime in the implementation of Next Gen EU, having specific regard to the Recovery and Resilience Facility.

The meeting with the Italian Ministry of Agriculture, the Paying Agency AGEA, the inspectors of the Ministry of Labour and Employment and other representatives also members of a special Task Force established in 2020, allowed collecting useful data on the phenomenon of the illegal hiring and exploitation of workers also known as "*caporalato*". The debate looked also into some practical aspects of the implementation of the new provisions on the social conditionality, introduced with the new CAP Regulation that will soon enter into force.

The Ministry of Finance representatives provided information on the complex architecture and governance of the RRF in Italy, with particular focus on the multilayered monitoring and controlling structure. The many authorities met during the visit (the Italian Senate Anti-Mafia Commission, the National Anti-Mafia Prosecutor and the law enforcement authorities Arma dei Carabinieri, Guardia di Finanza, Polizia di Stato) confirmed the great "interest" of the organised crime into the EU resources and in particular the risk of mafia infiltration into the actions implementing the unprecedented amount of resources deployed jointly by the RRF and the new MFF.

The transnational profiles of the organised crime were discussed in depth with the Deputy Chief European Prosecutor and with one of the Italian Delegated European Prosecutors; further analyses were provided by the Europol representative and by the Chief of the Department of Public Security, both promoters of the "Law Enforcement Forum (LEF) Next Gen EU".

Overall, the CONT Delegation appreciated the national authorities' knowledge and expertise on the many facets of the organised crime's operations. It was possible identifying good practices, built on tested preventive actions and on the synergies of administrative measures and criminal remedies. The debate pointed out the effectiveness of such actions to obstacle the aggressive and pervasive contagion of the mafia organisations, but it was also underlined the importance of knowledge-sharing and knowledge-building, the value of international cooperation and the need to enhance awareness and preparedness in other Countries where the organised crime threat is very present and possibly not adequately countered.

Amongst the takeaway: the importance of attacking mafia assets and the proceeds of crime; the benefits of the interoperability of data bases; the added value of anticipating the intervention of police

forces before the launching of criminal proceedings, to take full advantage of the information and data analysis that they can perform; the positive impact that only a disciplined coordination can bring in managing high level of complexity as those related to the implementation of the RRF.

The CONT Delegation identified also a number of topics on which a follow-up would be appropriate, having specific regard to the role and effectiveness of the actions by the Italian paying agency and to the further actions of the Law Enforcement Forum in the international landscape.

From 18 to 20 July 2022, the CONT Committee will hold an official fact-finding mission to Poland.

The mission's objective is to focus on ongoing developments in the country concerning the protection of the EU budget in relation to the Rule of law-conditionality Regulation. For the purpose of this mission, CONT has interpreted the Rule of law-conditionality aspect as to whether the Polish management of EU funds under shared management complies with rule of law standards (respect of applicable rules including public procurement procedures, sufficient control procedures, etc.).

The CONT Members will hold meetings with civil society organisations and investigative journalists involved in the Rule of law conditionality mechanism, with the Supreme Audit Organisation's President, with the Ministry of Funds and Regional Policy, which is the national paying agency supervising all operational programmes listed in the Partnership Agreement, and with their counterparts in the national parliament. Furthermore, the mission will also include an on-the-spot visit of an EU-financed project, namely the construction of the metro line II in Warsaw. Finally, the CONT Members will also meet Frontex' Management Board, interim Executive Director and Fundamental Rights Officer.

A member of the European Court of Auditors and European Commission officials will join the European Parliament mission to Poland.

The meeting will be suspended until 15.00

Small and medium-sized enterprises (SMEs) are a mainstay of the EU economy and EU policy aims to increase their competitiveness. The European Regional and Development Fund (ERDF) contributes to this objective. ERDF is one of the largest EU funding sources for SMEs, and improving SME competitiveness was the second biggest ERDF thematic objective (TO) for the 2014-2020 programme period, with a budget of around €40.3 billion. Overall, three quarters of ERDF funding for SMEs (75 %) provides them with direct support. In response to the Covid-19 pandemic, the EU released additional funds for SMEs.

The Court examined whether the ERDF contributed to improving SME competitiveness for the 2014-2020 period, by assessing how SME needs were addressed by ERDF programmes, programme calls and selection procedures ensuring that beneficiary SMEs increased their competitiveness. The Court selected ERDF programmes addressing thematic objective n° 3 (TO3), 'Enhancing the competitiveness of SMEs', in Germany, Italy, Poland and Portugal, since these were the Member States with the largest absolute amount of projects planned under TO3. In total, the report's sample comprised 24 projects.

The Court has drawn a number of conclusions based on its audit work and presented recommendations to the Commission.

Member of ECA, Mr Pietro Russo, will present the Special Report and the Commission representative will give some initial comments. Afterwards firstly the rapporteur and then Members from CONT will take the floor with comments and pose eventual questions to the Court and the Commission.

Thursday 14 July 2022, 16:00 - 17:00

16. ECA SPECIAL REPORT 11/2022 - PROTECTING THE EU BUDGET. BETTER USE OF BLACKLISTING NEEDED

CONT/9/09416

Presentation of the special report by reporting ECA Member Helga Berger

**CONT Rapporteur:
Administrator:**

Sándor Rónai (S&D)
Hans Stander

The EU and the Member States are jointly responsible for protecting the EU's financial interests with respect to EU funds. "Blacklisting" (or exclusion) is a tool that international bodies and national authorities use to protect public finances. The Commission uses the Early Detection and Exclusion System to exclude economic operators that are considered untrustworthy, because they have been involved in fraud, corruption, professional misconduct, money laundering, or non-payment of taxes. In 2020, the EU paid out around EUR 150 billion under financial agreements, with EDES covering a quarter of EU spending (in 2020 EUR 39 billion) under direct and indirect management.

Not covered is the expenditure in shared management, as EDES is not applicable and Member States are not obliged to set up similar systems.

The Court examined whether exclusion mechanisms were being used effectively to protect EU funds from untrustworthy counterparties in the 2016-2020 period. In particular, the Court analysed the effectiveness of EDES' exclusion situations, exclusion procedures, blacklist of excluded counterparties, and arrangements for identifying counterparties in exclusion situations with regard to direct and indirect management. As regards to shared management, the Court selected four Member States to review their exclusion arrangements and to identify good practices within cohesion and agricultural spending.

The Court concluded that exclusion is not used effectively to protect the EU budget. Although EDES has a broad scope and robust exclusion procedures, the Commission had only 18 non-bankruptcy related exclusions recorded at the end of 2020.

In order to overcome this, the Court made five recommendations to the Commission, which were accepted. The Commission intends to address the most important shortcomings through a revision of the Financial Regulation.

News from the EU Agencies Network

EU decentralised Agencies (EUAN) acquiring EMAS certification

The EU Agencies Network identified in its 2021-2027 Network Strategy as one of the strategic pillars “Administrative Excellence”. One area of activities under this pillar, includes becoming greener and EMAS certified. Three EMAS certified Agencies, [EEA](#), [EFSA](#) and [EUIPO](#) were recently joined by ETF, [ECHA](#) ([certificate](#) link), [EMSA](#) and [EUROPOL](#) in acquiring the certification. For more information, please visit the Agencies websites.

The Greening Network (GN) of the EUAN is continuously working on supporting decentralised Agencies and Joint Undertakings in becoming EMAS certified. In the framework of its thematic group on “Climate neutrality” the GN organised a webinar on *“Path to a greenhouse gas neutral administration. Stages and guidelines”*.

EUAN DIVERSITY & INCLUSION AWARDS 2022

EUAN - Diversity and Inclusion Activities

EU Agencies Network strategic pillar of “Administrative Excellence” includes also the area of “Diversity and Inclusion”, which the EUAN regards as essential.

In 2021 EUAN created a Working Group on Diversity and Inclusion (WG D&I) which focuses its activities on gender equality, cross cutting measures, persons with disabilities and staff with disabled dependents, LGBTIQ+ and underrepresented age groups among staff.

In terms of activities, the WG on D&I organised three Leadership Talks, first one on Sexism at work, second on the topic of *“Women Redefining Leadership”* which featured seven female Executive Directors and third on *“Overcoming alpha leadership culture: how everyone can become a “successful leader”*.

Additionally, the EUAN collaborated on creating a video promoting diversity and inclusion in the workplace, which can be found here: [In EU Agencies, diversity is our strength. We are all #UnitedInDiversity - YouTube](#).

In the [EUAN D&I Brochure](#) the WG collected examples of how Agencies and Joint Undertakings reach out to more diverse talent and enhance the values of equality and inclusion in their organizations.

The Network launched in June the first edition of **“The EU Network D&I Award 2022”** to acknowledge the value of initiatives taken by Agencies and Joint Undertakings, boost awareness on D&I and showcase best practices. Deadline for submissions is 30 November 2022.
