**Written declaration on Science Capacity Building in Africa: promoting European-African radio astronomy partnerships**

*The European Parliament,*

- having regard to the Joint Africa-EU Strategy, which aims at strengthening science and technology cooperation between the EU and Africa,
  - having regard to the Millennium Development Goals, which identify the essential role of science and technology for socio-economic transformation,
  - having regard to Rule 123 of its Rules of Procedure,
- A. recognising the value of research infrastructures in facilitating cooperation with Africa, promoting human capital development and addressing societal challenges, as noted in the Innovation Union and Europe 2020 Strategy,
- B. acknowledging Africa's unique competitive advantage in the study of radio astronomy, reflected in the extensive existing radio astronomy projects located in Africa (PAPER, VLBI network, MeerKAT, etc.),
- C. recognising that further European involvement in African radio astronomy can become a powerful driver of socioeconomic growth in Africa and create a new range of market opportunities for both continents,
1. Urges the Commission, Council and the parliaments of the Member States to:
    - (a) support the development of science capacity in Africa through greater investment in research infrastructures, with particular focus on radio astronomy projects,
    - (b) promote the science of radio astronomy and the innovation and research potential of radio astronomy initiatives in future Africa-EU partnerships,
    - (c) mobilise EU funding mechanisms, including the Framework Programmes and the Development Cooperation Instrument, to support these objectives;
  2. Instructs its President to forward this declaration, together with the names of the signatories, to the Commission, the Council and the parliaments of the Member States.
