

WRITTEN QUESTION E-1562/01
by Stephen Hughes (PSE)
to the Commission

Subject: Information for project planning and evaluation

The EU funds a wide range of programmes involving the financing of projects in a number of policy areas. Is there a central information resource for companies specialising in project planning and evaluation or is the information dispersed across the range of directorates administering the programmes/projects?

If such a central resource is not available, will the Commission consider setting one up?
