

WRITTEN QUESTION E-0665/02
by Brigitte Langenhagen (PPE-DE)
to the Commission

Subject: EU border controls

Consignments of fish which had not been declared or cleared properly have apparently been found in Germany recently. This suggests that controls in certain Member States are not being carried out carefully enough. Can the Commission answer the following questions:

1. Who is responsible for the enforcement and monitoring of border controls?
2. How can the circulation of goods which have been incorrectly declared or cleared be prevented?
