

WRITTEN QUESTION E-0932/03  
by Jorge Moreira Da Silva (PPE-DE)  
to the Commission

Subject: Second phase of implementation of the Kyoto Protocol

In view of the need to prepare for the negotiations on the second phase of implementation of the Kyoto Protocol, can the Commission answer the following questions:

1. What does the Commission consider should be the overall target for the reduction of greenhouse gas emissions in the second phase of implementation of the Kyoto Protocol?
2. In what way should emissions from international transport, specifically air and sea transport, be included in the second period of the Kyoto Protocol?
3. Should developing countries be subject to binding targets for the reduction of emissions, in a change to the situation in the first period?
