Subject: Broadcasting frequency allocation system in Italy - Commission action following the Court ruling (C-380/05)

Replying to the written question of 15 February 2008 (E-0744/08 – System for the allocation of broadcasting frequencies in Italy – Judgment of the Court of Justice), the Commission, in its answer given on 15 April 2008, maintained that it had ‘already initiated action to put an end to the infringements and [would] monitor the full implementation by Italy of the decision of the Court of Justice’.

Given that the Italian authorities have not yet taken steps to implement the Court ruling, how will the Commission make them do so?

What action has the Commission taken to date to put an end to Italy’s infringements of Community law?
