

WRITTEN QUESTION E-6742/08
by Jim Allister (NI)
to the Commission

Subject: Animal feed mills

What regulations govern the operation of animal feed mills, to what level of EU inspection are they subjected and in this regard what is the history of inspection at Millstream Power Recycling in Co Carlow, Ireland? Moreover, in view of the dioxin contamination which has taken place at that plant, what action has been taken and what facility exists for compensating those producers and pork processors who have suffered losses in consequence?
