Subject: Municipality of Frosinone (Italy): information on utilisation of Community funds, 2000-2006

The most recent financial programming of Community funds (2000-2006) saw some disturbing cases of delays and inefficiency in the project award process on the part of certain local authorities. The Commission drew attention on a number of occasions to this alarming under-use of the funds concerned. In this connection, the municipality of Frosinone (Lazio, Italy) stood very much in need of the Community funds concerned with a view to local promotion and development.

Can the Commission:

1. provide a complete list of the projects put forward by the municipality of Frosinone over the period 2000-2006;
2. state whether the municipality of Frosinone received funding under the programming for 2000-2006, and, if not, explain why no funding was received;
3. state whether any funds received by the municipality of Frosinone were used within the stipulated deadlines and, if not, whether the Commission has asked for the sums concerned to be returned?
