

WRITTEN QUESTION E-1311/09
by Vittorio Agnoletto (GUE/NGL)
to the Commission

Subject: Integrated environmental authorisation (IEA) by the Lombardy region for the SAMA site in Sustinente (Mantua province, Italy) without a prior environmental impact assessment (EIA)

In relation to the written question of 30 July 2008 and the Commission's reply of 11 September 2008, could the Commission kindly indicate whether, as mentioned in answer P-4443/2008, it has contacted the Italian authorities to investigate the issues raised, with a view to ascertaining whether Community law was correctly applied in this case and, if it was not, to determining what kind of action it intends to take?
