to the Commission**  
Rule 117  
**Pino Arlacchi (S&D)**

Subject: Management of EU security assistance to Afghanistan

Assuming that there cannot be stability or peace in Afghanistan without the State being fully responsible for the security of its citizens, and considering the difficulties of keeping track of all the policies relating to this area,

1. Could the Commission explain what percentage of the total aid from the EU represents any measures related to security?
2. Could the Commission submit a figure for security-related expenditure by EU-financed projects, compared with security-related expenditure by international organisations and other donor countries in Afghanistan?
