

**Question for written answer E-009986/2011
to the Commission**
Rule 117
Proinsias De Rossa (S&D)

Subject: Sodastream

A report in January 2011 by Who Profits on Sodastream provides evidence that Sodastream carbonation devices are manufactured in the illegal settlement of *Mishor Edomin*, but importers continue to inform Member State customs authorities that the carbonation devices originate in either a) Israel or b) China.

What advice has the Commission (DG TAXUD) given to Member State customs authorities on the correct origin of Sodastream carbonation devices to ensure that they do not incorrectly benefit from preference under the EU-Israel Trade Agreement?
