Subject: Serbian laws and Serbia's candidacy for EU membership

How does the Commission view the compatibility of the following laws of the Republic of Serbia with European Union law: Law on Planning and Construction, Law on Navigation and Ports on Inland Waterways, Law on the Restitution of Property and the Law on Public Property?

The Serbian Prime Minister, Mirko Cvetković, President Boris Tadić and the Serbian Deputy Prime Minister for EU Integration, Božidar Đelić strongly support these laws. What therefore will be the implications of these laws in view of Serbia's possible future accession to the EU?
