to the Commission**  
Rule 117  
**Ilda Figueiredo (GUE/NGL)**

Subject: Social integration of people with disabilities

Given that people with disabilities, among whom the poverty rate is 70% higher than the average, should be at the centre of a European strategy to combat poverty and social exclusion, can the Commission provide the following information:

1. What measures are in place to guarantee that jobs with rights are available for everyone with a disability who wishes to work, taking account of the possibilities and added value that result from their integration into work?
2. What measures are in place to support these people with disabilities and their families with a view to safeguarding their social inclusion and eradicating poverty?
