to the Commission**

Rule 117

**Francisco José Millán Mon (PPE)**

Subject: Aid for forests damaged by fire

In its proposal for common agricultural policy (CAP) reform, the European Commission proposes, as part of the rural development forestry measures, to make aid for restoration of forest areas damaged by fire conditional on total losses reaching at least 30 % of the forestry potential.

- Does the Commission not believe that this greatly limits access to aid for restoration?
