Subject: Implementation of item 16 04 02 01 in section III of the EU budget for 2013

Item 16 04 02 01 (*'Online and written information and communication tools'*) in section III of the European Union budget for 2013 provides for, among other things, 'the production and distribution of the 2013/2014 Europa Diary for school pupils'.

1. How does the Commission intend to implement this task?
2. Given the time pressure, how will it make sure that the Europa Diary can be produced and distributed in time?
3. As regards content and cooperation with the relevant NGO, will the Commission build on previous editions of the Europa Diary, which were distributed with great success up to and including the 2011/2012 school year?
