

**Question for written answer E-010211/2013  
to the Commission**

Rule 117

**Francesco Enrico Speroni (EFD)**

Subject: Tax on financial products and activities in the EU - incompatibility of Italian Law No 214/2011 with EU legislation

On 16 January 2013 this author submitted question P-000432/2013 to the Commission with a view to establishing whether Italian Law No 214/2011 is in any way incompatible with EU legislation.

The Commission stated in its answer (P-000432/2013) that it would investigate the issue further in order to establish whether the differences between the IVAFE and the 'bollo' effectively constitute a violation of EU law, and in particular a violation of the principle of free movement of capital.

Has the Commission concluded this investigation? What was the outcome? Can it provide a definitive answer to question P-000432/2013?
