

**Question for written answer E-000994/2014
to the Commission**

Rule 117

Marlene Mizzi (S&D)

Subject: Bullfighting

In a report published in January 2013 entitled 'Toros & Taxes', it is claimed that the practice of bullfighting is funded either directly or indirectly by the EU budget.

Is the Commission aware that EU funds are being used for this practice?

Does the Commission agree that funding should be allocated to this barbaric practice?

If not, what action would the Commission consider taking?
