

**Question for written answer E-009850/2015**  
**to the Commission**  
Rule 130  
**József Nagy (PPE)**

Subject: Member State practice in the area of selective refuse collection

Does the Commission possess comparable data on how efficiently the selective collection of refuse works in the various Member States? Are there case studies of successful PPP projects in this area? What incentives could the Commission employ to raise awareness, and hence adoption, of selective refuse collection?
