Subject: European Fund for Strategic Investments

In connection with the imminent launch of the European Fund for Strategic Investments, I would like to ask the Commission for comprehensive information on the application and selection processes for projects eligible for support from the new fund.

1. Who will be able to apply for the funding on behalf of the projects and in what time frame? Will it be an ongoing process, or will there be specific cut-of-dates?
2. Which Member States have pledged financial support for the fund, and how much?
3. Will individual Member States have guaranteed use of the funds they have invested and will they be able to use them to finance projects carried out on their soil?
4. How and on the basis of what criteria will the funds be allocated?
