**to the Commission**  
Rule 130  
**Werner Kuhn (PPE)**

Subject: Article 48 of Regulation (EU) No 508/2014

Can biogas plants be subsidised under Article 48(1)(k) if their waste heat and power output is used, for example, for a closed recirculation system for rearing fish? What would be the case if the biogas plant produced more power or heat than the aquaculture facility required? Would a proportional subsidy then be possible?
